Special Correspondence, Durange, Cola., Feb. 2.-It is reported that grading on the D. & R. G. raliroad extension to Farmington, New Mexico, will begin on the 6th. The construction outfit has arrived. A road is being con-structed from Clifton, Ariz., to meet this road at Farmington. The road to Farm-ington will open the Son Juan country, and give an outlet to its products. As there are large bodies of excellent coal in that region it may mean a great deal to the people at Kirtland, Fruitland and Jewett, who are from 10 to 20 miles fur-ther down the San Juan than Farming-tom.

The excessively heavy snow in the moutains of southern Colorado portends abundance of water to the San Juan and all its tributaries and the coming sea-son should be a good one for the agricul-turists. The many years of drouth have been a backset to the country, but this season should give it a boom.

BEET GROWING CONTRACTS.

Field Superintendent Job Pingree is Field Superintendent Job Pingree is already preparing to make contracts with the sugar beet growers of Weber and Davis counties, for the growing of beets for the Amalgamated Sugar com-pany at Ogden. He will commence signing contracts next Saturday at the company's office in the First National bank building. The company urges upon the farmers the great necessity of signing the contracts early in the sea-

The contract to be signed this year is the same is the one used last year. The company will pay the same price for beets this year as was paid last and expects to be able to increase the acreage this year. The farm-ers have found that sugar beets is one of the most sure crops they can raise, as no matter whether the market is low or high they know the price they are to receive for their products, and their market is sure.
