Old Folks Excursion.

SALT LAKE CITY, June 13th, 1885.

To the General Public:

The committees of the Old Folks Excursion take great pleasure in again extending a general invitation to all persons over 70 years of age in Salt Lake County, (respective of religious creed, nationality, color or circumstances) to accompany them on a grand picnic excursion to "Garfield" over the Utah and Nevada Railway on the morning of Tuesday, June 23rd. The Directors of the Railway Company, through their gentlemanly Superintendent, Mr. W. H. Roper, have not only proposed to give all the old folks over 70, a free ride to Garfield and return, but to suspend their regular bathing trains on that day, so as to make it a genuine "old folks day."

These annual courtesies extended to those who have borne the burdens of life for over three score years and ten, form bright spots in their experience, and leave, for a few hours, the monotony of their daily existence, and mingle with each other in a free and jovial conversation, singing, music, feasting and other pleasant pastimes that are provided. The committees deem no labor too great to contribute whatever will tend to their safety, happiness and comfort.

The committee (who, by the way, are beggars) nevertheless feel proud to acknowledge their dependence upon the generous patrons of the enterprise, who have during the past nine years availed themselves of the privilege of contributing whatever they thought would be acceptable and appreciated by their aged and infirm friends. They extend the same privilege this year, with a promise that the old folks, if hearty donors, as they arrive at the required age of 70 and upwards, shall not only be welcomed but become the recipients of all the generous and attention of the "old folks excursions."

To save the committee unnecessary labor, contributions sent to C. R. Savage's Art Bazaar, will be duly appreciated. Instructions and other necessary information will be published in a few days. Committee—Geo. Goddard, C. R. Savage, W. Edgington, W. Naylor, W. L. Blader, John Kirkman, Andrew Jensen and Nelson A. Empey.

Regulation Necessary.—Last evening a meeting of arengrocers was held, at which a committee appointed at the last meeting reported a draft of a petition to the City Council, in relation to regulating the peddling of vegetables and early farm products in this city. A committee were appointed to solicit signatures of merchants, and the petition, to be presented at the next session of the Council, is as follows:

SALT LAKE CITY, June 12th, 1885.  
 To the Honorable Mayor and City Council of Salt Lake City:

We, your petitioners, tax, license and rent payers of Salt Lake City, do respectfully present the following for your kind consideration: That, whereas, the present system of peddling all kinds of merchandise, and more especially provisions, vegetables, imported fruits, etc., etc., has grown to a great extent, and

Whereas, that very few of these peddlers pay any license or any other revenue to the city whatever, and the most of them come from another county and not selling their own products, and

Whereas, this system is a great detriment to the licensed dealers of this city, and also a great annoyance to the housewife whose time is greatly taken up to answer their calls, and many other reasons could be given for our complaint, and assuming that we think they ought to be under the same laws or restrictions as ourselves

Therefore, We ask your honorable body to consider the following suggestions: To establish one or more market places, where the producers on their arrival in this city can have the privilege of backing their wares on the sidewalk and selling therefrom, and nowhere else until the hour of 10 a. m., three days per week free of license, except a small fee from each owner of a wagon to pay for cleaning the grounds immediately after their departure, which shall be at the hour stated.

We would also state that we have several times petitioned your honorable body, but as yet nothing has been done, and we now respectfully ask action thereon. As the summer season is upon us, we would respectfully ask for an immediate action on our petition, and at the same time to put our petitioners in duty bound your petitioners will ever pray.

Utah and Wyoming Central Railway.—Yesterday a certificate of incorporation was issued to the Utah and Wyoming Central Railway Company, organized under the laws of this Territory, with a capital stock of \$3,000,000, divided into thirty-five thousand shares of \$100 each. The incorporators, ten in number, have subscribed for 1,100 shares, ten per cent. of the par value of which has been paid up.

The board of five directors to manage the company's affairs, is as follows: E. H. Murray, Wm. S. McCormick, O. J. Hollister, Josiah Barnett and J. D. Negus, of Salt Lake City. The route of the new road is stated to be "from a point within the City of Salt Lake, in the county of Salt Lake, Territory of Utah, thence northerly to the waters of Great Salt Lake, in the County of Salt Lake, or the county of Davis, in said Territory; thence to connect with transfer boats on the waters of said lake, said transfer boats running from thence to and from a point or points on the north shore of said lake in the county of Box Elder, in said Territory; from thence the said road is to run to a point at or near the city of Corinne, in said county of Box Elder; thence through the counties of Box Elder, Cache and Rich in said Territory, to a point on the boundary line between the Territories of Utah and Wyoming, at or near the mouth of Twin Creeks, and as incident and appurtenant to said road, and as necessary for the safety and profitable working and operating the same, for the construction, owning, maintaining and operation of transfer boats, barges and other water craft on the said Great Salt Lake and tributary waters; also for the construction, owning, maintaining and operating the same, for telegraph along said road; the length of said line of road being, as near as can now be ascertained, one hundred and ten miles."

Madame Materna.—The opportunity of hearing the artist of the rank of Madame Materna comes but seldom in this far western country, and should be improved by every music-lover in the city. Her name is one which will be celebrated in musical history so long as the human heart is moved by music, and as long as music is made the means of interpreting the tenderest as well as the most terrible and dramatic passions. The voice of Madame Materna is described as of exceptional power, coupled with a sympathetic quality that sings into one's heart. She is a woman of imposing and majestic appearance; a face as pleasing and a smile as prepossessing as a child. Good nature in every glance causes a peculiar compelling of feelings when one is first ushered into her presence. But her easy grace of cordial welcome makes one feel completely at home, and to think an old friend has been found.

Madame Materna speaks but little English, but she is accompanied by her sister, who speaks it fluently, and through her she expresses herself. Her trip to California and the many strange sights she has seen are uppermost in her mind. She is anxious to see the surroundings of this city and become familiar with much that she has hitherto only heard or read of. The concert to-night at the Theatre will show her to the best possible advantage, as also the company of artists who support her. The house will undoubtedly be crowded.

THE HOPE OF THE NATION.—Children, slow in development, puny, feeble, and delicate, use "Wells' Health Renewer."

DEATHS.—AT SALT LAKE, SERVICER, June 12th, of diabetes, William Henry Gates, aged 23 years.

Madame Materna speaks but little English, but she is accompanied by her sister, who speaks it fluently, and through her she expresses herself. Her trip to California and the many strange sights she has seen are uppermost in her mind. She is anxious to see the surroundings of this city and become familiar with much that she has hitherto only heard or read of. The concert to-night at the Theatre will show her to the best possible advantage, as also the company of artists who support her. The house will undoubtedly be crowded.

THE HOPE OF THE NATION.—Children, slow in development, puny, feeble, and delicate, use "Wells' Health Renewer."
