

GOLDFIELD SUN DEFIES THE UNION

"Come on, You Cowardly Curs."
And Offers Them Any Kind
Of a Fight.

SOME HIGH HANDED OUTRAGES

Objectionable Printer Escorted Out of
Town—Western Union Notified
Not to Furnish Telegrams.

Goldfield, Nev., Sept. 2.—It is probable that tomorrow's fight carnival will not end with the Nelson-Gans contest, but that there will be another fight of another kind between the Goldfield Sun and the Industrial Workers of the World. This organization, which is composed of cooks and waiters, saloon employees and kindred workers, has declared a boycott on the local daily paper, the Sun, and has notified the staff of the paper to join their union or leave town. The Sun is owned by Lander C. Branson, who also owns the Tonopah Sun. In this latter paper, Branson, in an article headed, "Come on, You Cowardly Curs," defies the union and offers its members any kind of a fight they want.

Yesterday the Sun was sold on the streets of Goldfield by hasty men connected with the paper, but beyond some rather plainspoken comments on the part of the boycotters, there was no demonstration. Tomorrow, however, will be a holiday, and there will be a big crowd in town.

Threats have been made that if the Sun is published tomorrow, every man connected with it will be run out of town. The Sun people say they will publish and that they will put up a fight if any attack is made on them.

The boycott on the Goldfield Sun was declared, not because of any offense committed by the Goldfield paper, but because the Tonopah Sun criticized the policy of the I. W. W.

Efforts have been made to purchase the Goldfield paper from Branson and he is reported as being willing to sell. The union will not remove the boycott, even if the paper changes hands, as it does not want Branson to benefit by the purchase money.

It is stated that the miners' union and other industrial unions here are not in sympathy with the desires of the Industrial Workers of the World.

Tonight Frank Horton, a printer and a member of the Typographical union, was kidnapped by four members of the I. W. W., and escorted out of town. Horton's brother is a prominent banker here, and no time was lost in getting the sheriff and a force of deputies after the men. They were overhauled and Horton was brought back to town.

The pickets of the union have been taking snap shots of every person visiting the Sun office and the photographs have been posted on a bulletin board in the union headquarters.

Men bearing placards are parading the streets warning people that anyone who patronizes the Goldfield Sun will be boycotted.

The mineowners and merchants of the camp are not in sympathy with the I. W. W., but as yet they have taken no action.

Tonight the Western Union Telegram company was notified by the walking delegate of the union that no wire telegraph messages should be delivered to the Sun. The office of the paper is under guard day and night.

MINERS HOOTED STRIKE-BREAKERS

Hazen, Nev., Sept. 2.—Serious trouble occurred here this afternoon at the junction of the Southern Pacific and Goldfield & Tonopah railroads when the second section of the train carrying strike breakers to San Francisco arrived. A number of union miners met the train and hooted the strike-breakers. Finally a stone was hurled through a car window and it was answered by a shot. A number of the men on the train jumped off, and for a time a serious riot seemed imminent. The conductor gave the go-ahead signal, but the strike-breakers stopped the train and delayed it 30 minutes. A hundred or more dismounted and brandishing revolvers hurled defiance at the union men. A crowd congregated about fifty or more delegates to the Republican state convention at Tonopah and a crowd on their way to the Goldfield prizefight took to the streets.

"NO SURRENDER" IS PALMA'S POLICY

Havana, Sept. 2.—The hopes of those who on Saturday night tentatively suggested a proposition of mutual concession as a means of ending the rebellion were shattered today when President Palma called Gen. Cebreco, one of the proposed peace commissioners, to the palace and informed him that the government had no concessions to offer or accept and no intention other than fighting the matter through and suppressing the insurrection. Gen. Menocal, who headed the list of the proposed commissioners, sent word to the promoters of the project that he would have nothing to do with it unless he could approach the insurgents with a definite offer of some kind from President Palma. The promoters, however, are not entirely discouraged, and another meeting may be held later.

The Associated Press learned today from a source ordinarily absolutely reliable, that the inner circles of the government had about reached a tentative understanding that if the government was unable to control the insurrection by Sept. 15 it would ask for the assistance of the United States, but when this assertion was broached to the members of the government it was met with such emphatic denial as to leave no room for doubting that whatever the government may have decided, it has decided to see the thing through.

by all the force of arms it can command and abide by the results.

While the publication of the peace project today caused much discussion there was little hope evinced that it would succeed as it was conceded on all sides that the government, in the present temper of the masses, would lose any elections which might result from it. Besides, since the government is unwilling to relinquish the idea of central governmental control of municipalities, this would be a serious stumbling block to such a settlement.

One of the main reasons why the government feels encouraged to pursue the fight to the end by force is, as outlined by the Associated Press this evening by Pont Sterling, secretary of the treasury, its abundance of money.

"We have \$19,000,000 on hand," said the secretary of the treasury. "Don't

overlook that. And we have a monthly income of five million dollars. The August receipts and customs duties were greater than ever before. We will not need to negotiate loans for some time to come at the least. Yes, most of what we have has been appropriated by congress, but these appropriations must wait. We shall use the money in putting down the rebellion."

The number of daily enlistments is not known as the work is being carried on in so many different places, but the expectation is to have 5,000 men in the field, inclusive of regulars and volunteers.

What is beginning to disturb business interests more than anything else is the increasing evidence that tobacco plantings, sugar cultivation and crop preparations will begin so late as to be ruinous to the coming winter's crop. The plant-

ers see no prospect either of getting men to do their work or of borrowing money for developing the crops.

War preparations in Havana are unceasing. A machine gun corps this afternoon left Castillo de la Punta, and four companies are stationed, one at La Puerta castle, in front of the palace, two at the arsenal, and one at Vedado Shore fort. The men are not drilled or disciplined.

Up to tonight no new fights between government forces and insurgents have been reported.

El Economista, the leading financial weekly, says that the revolution besides costing millions of dollars to industries which are operating on foreign capital will, should it last for several weeks, cause ruin to the Vuelta Abajo tobacco crop amounting to from \$12,000,000 to \$15,000,000, besides a year's loss to the

farmers. The paper says that the loss to the cattle interests will be from \$20,000,000 to \$30,000,000. Concerning the sugar crop, it says that a continuation of the trouble for two months will mean a loss of from 100,000 to 200,000 tons on account of the lack of labor. The paper reckons the losses to the fruit crop at about \$4,000,000 and says all these losses can be most only be partially remedied unless there is a prompt effort for peace or the immediate assistance of the United States is requested.

GOLDFIELD MINER KILLED.

Goldfield, Nev., Sept. 2.—J. J. Burns, carman in the combination mine, was killed by an electric shock on the 200-foot level in the mine last night. He was 26 years old, and came from Hall-

ey, Ida. A brother, Ed. Burns, lives at Eureka, Utah.

TAGGART GETS NO LETTER.

French Lick, Ind., Sept. 2.—Thomas Taggart, chairman of the Democratic committee, said tonight he had not received as yet a letter from Charles A. Welsh, resigning as the member of the national committee from Iowa, and prior to its receipt could not discuss it.

Accidents will happen, but the best-regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts.

One word, "MOUNT'S," will receive for you the most select Pickles of any variety.

Beginning of the Busy Season

If you were to go from the first floor of the store into the basement and thence through the tunnel to the warehouse and shipping department you would instantly be convinced of the near approach of Fall.

Out there big vans are unloading Fall and Winter merchandise. Receiving clerks and helpers are busy. Big boxes and crates are being trucked into the warehouse. Others are being unpacked. Long rows of clerks are intently marking new goods. Trucks are hurrying them into the store, and to stock rooms. Already the store is fresh and bright in its new, attractive Fall raiment. An air of style pervades the aisles. Shoppers manifest keenest interest in the latest trends of capricious Fashion. From now on the transformation will be rapid. Soon this store will be a veritable exposition of new Fall things beautiful beyond description.

Feminine eyes throughout Utah, Idaho, Nevada and Wyoming look to this institution for authoritative style reflections.

Handsome New Silks and Dress Goods

This week the Silk and Dress Goods Section makes its first big showing of new goods. And a beautiful stock it is. There are such exquisite shades and patterns, such a wide range of assortments that it is difficult to refer to any special weave.

Plaids for waists and suits are certain to be the vogue. Parisian and Pompadour patterns for gowns and waists will be wonderfully strong this season.

TWO SPECIALS IN NEW FALL WAISTINGS

24-inch all-wool plaid waistings will be made a feature at 39c a yard.

27-inch white with embroidered waist and plaid effects—especially desirable because it washes—65c a yard.

Beautiful New Suits, Skirts, &c

Interest centers in our suit department. Naturally the ladies are anxious to get a glimpse of the newest ideas. While nearly every article of merchandise possesses certain individuality and style they are more particularly expressed in women's ready-to-wear apparel. And the new showing is full of distinctive style-features. Many striking modes are exhibited. They reflect the genius of able designers. The range of styles is broad and comprehensive.

IN REGARD TO New Waists.

The first showing of new fall waists is awakening lively interest among particular dressers.

In the purchase of the new stock attention has been paid to correct style, patterns, quality of materials and superior workmanship.

New fall waists are arriving daily. Linens in tailored styles in wool batiste and fancy silks, lace and nets. Latest style effects.

Summer Waist Bargains

TAILORED AND FANCY WAISTS.—Plain tailored linen waists with long sleeves, finished with neat cuffs, plaited front. These waists sell regularly for \$3.95. Your choice \$2.95. Suitable for fall wear.

Another line of linen waists, with long sleeves, hand embroidered fronts. The \$4.50 waist will sell for \$3.45; the \$5.75 value for \$4.95; the \$7.50 for \$5.95; \$9.75 for \$7.75.

Women's and Children's Handkerchiefs

Plain linen at 10 cents each. These are especially nice for school.

Children's colored bordered handkerchief at 5 cents and six for a quarter.

Women's unlaundered initial handkerchiefs at 12 1/2 cents. Also an embroidered initial handkerchief at 12 1/2 cents and two for 25c.

Women's plain hemmed and embroidered corners at 8 1/3 cents and 3 for a quarter.

The Mannish Tailor-Made Suit

Among the new arrivals the mannish tailored suit known as the Prince Chap stands out conspicuously. It is handsome and snappy and there is every likelihood of it being a strong favorite. Made up in gray mixtures and broken plaids. The materials are superb and the workmanship fine. The suit will sell at
