Pan-American Business.

New York, Nov. 1 .- Now that the Pan-American exposition at Buffalo is at an end the railroads are figuring up just how much profit they derived from the exposition travel, says the Times. The exact figures have not yet been compiled but it is known in a general way that the general results were high-ly satisfactory to the roads. The weather during the first two months was inlement and restricted travel during those months. The assassination President McKinley was also an unfa-vorable element. Of the three rates made from New York by the roads, the highest and lowest being \$16 and \$9 respectively, were not the most pror-ductive of revenue. The best returns

were received from the \$13 rate, which was good for two weeks. The \$5 rate was good for two weeks. The \$5 rate of the last few days is said to have been a success, the Lackawanna road alone carrying 1,824 persons on this rate.
