TERMS IN ADVANCE.

GEORGE Q. CANNON,
BRIGHAM YOUNG, JUN.,

Editors and Publishers.

Local and Other Matters.

FROM THURSDAY'S DAILY, AUG. 16.

Excursion.—The Fifth and Sixth Wards Sunday school teachers and their friends go to Lake Side next Tuesday.

New Crossing.—The Supervisor is about laying a new cobble crossing from the south-east corner of the Temple Block to the Council House. It is needed.

Exponent.—The *Woman's Exponent* for August 15 is full of interesting items and well written articles and selections. It is a journal that all the ladies of Utah should patronize.

Sevier Horse Herd.—The Sevier Co-operative Horse Herd is to be discontinued. All persons interested should take notice of the advertisement to this effect in our weekly edition.

Sharp.—If Mr. John Sharp, who has a brother, Geo. Sharp, jun., lately of Atlanta, Georgia, will call at President Young's office he will find a letter, addressed to him, of some importance.

Fined.—The butchers who were using the slaughter house west of the 19th Ward, mentioned in yesterday's NEWS, were before Justice Pyper in the afternoon, and fined \$25, for committing a nuisance.

Number Six.—We have received from Messrs. John Daynes and Son, number six of the *Musical Bouquet*. It has "Yes My Darling, Ever Kind," "Opening Hymn," "Re-Union," "Ida Waltz" and "Thorough Bass and Harmony."

Arizona.—Brother James S. Woods, writes from Elder Jesse O. Ballinger's camp, on the Little Colorado, that very fair crops have been raised there this season, and, at date of writing, July 28th, were partially harvested.

Sudden Death.—Yesterday, a little two and a half years old daughter of Mr. and Mrs. G. F. Culmer, was seized with convulsions, and in twenty minutes was a corpse. We deeply sympathize with the parents in their sudden bereavement.

Given Employment.—These are dull times, yet Justice Pyper, yesterday afternoon, gave William Dover a job to work fifty days on the streets. Dover is the young fellow who, as mentioned in yesterday's NEWS, stole sundry articles from a Fifteenth Ward hatter.

Lamentable.—Last Monday William Duke, a seven-year-old son of Mr. John Duke, of Ophir, was shot in the head, at that place, by the accidental discharge of a pistol in the hands of a playfellow. The unfortunate boy expired in about two hours after the occurrence.

Cricket.—The match game of cricket played on Washington Square yesterday, between a Sandy eleven, picked by Mr. F. Day, and a Salt Lake eleven, selected by Mr. S. S. Walker, resulted in a victory for the latter, who scored 117 to 114 by the former eleven.

Fire.—Day before yesterday there was a fire at the Germania Works, Little Cottonwood. The assay office, weighing room and store room were utterly destroyed, with a portion of their contents. The books and scales were saved.

The company purpose replacing the burned buildings with more substantial structures.

Extensive.—It took two large trains to carry the great Forepaugh show paraphernalia to and from Provo. It is a huge concern.

Large Yield.—The wheat crop of Hon. William Jennings, on his farm near Centreville, this season, averaged over fifty bushels to the acre. That's rather hard to beat. Mr. Jennings produces splendid results in stock-raising as well as farming.

Opera.—The Richings - Bernard Opera Troupe will perform again at the Theatre in this City on Friday and Saturday evenings. "Il Trovatore" will be presented on Friday, and "The Marriage of Figaro" on Saturday evening. A matinee will be given on Saturday, when "Martha" will be performed.

Thunder and rain.—There was a loud clap of thunder with several minor rumbles early this morning, and the lightning flared and flashed awhile. There was also a sprinkling of rain, but the much desired and longed for copious shower didn't come. A liberal supply of moisture from the clouds would cool the atmosphere, and enhance the health of the population.

Boisterous.—Last evening John Williams conducted himself in a most belligerent manner, on West Temple Street. He yelled and shouted, and threw rocks at the windows of houses and at sundry pedestrians. When the officers arrested him he resisted them vigorously, but finally brought up at the City Hall. Whiskey was the cause.

Zion's Saving's Bank and Trust Company.—At a meeting of the Board of Directors of this company, held this morning, the following gentlemen were elected to act as officers - President, Brigham Young; Vice-Presidents, Geo. Q. Cannon and David O. Calder; Cashier, James Jack; Assistant Cashier, Heber J. Grant; Secretary, George Reynolds.

A Sensation.—The sensation of to-day in this locality is the great Forepaugh show. Tremendous crowds of people thronged the streets everywhere on the line of march of the procession. The trappings are all on a splendid scale, and show that the exhibition is the most stupendous concern of the kind that ever visited Salt Lake. The daily expense of running such a mammoth establishment must be tremendously heavy.

Excommunicated.—This is to certify that Jehu Blackburn, formerly of Minersville and later doing business in St. George, was this day cut off the Church of Jesus Christ of Latter day Saints for refusing to comply with the decision made by the High Council of St. George Stake of Zion, March 11, 1876, in the case of John Pym and Benj. H. Paddock, vs. Jehu Blackburn.

By order of the High Council of St. George Stake of Zion.

JOSEPH ORTON, Clerk.

St. George, Aug. 11, 1877.

"Let Her Cords be Lengthened."—We are informed that several brethren with their families, numbering, in all, thirty-three souls, who have been working during the summer with Elder D. W. Jones, at Camp Utah, Arizona, intend to start, about the middle of next month to form a new settlement further to the south-east. The names of the heads of families who will form this company are P. C. Merrill, Thomas S. Merrill, Seth A. Merrill, Dudley I. Merrill, Joseph McRae, George Steel and A. O. Williams.

Home Goods.—An excellent way to gain a correct idea of the progress of home manufactures is to drop into the commission store of the Provo Manufacturing Company, in Constitution Buildings, under the management of Mr. John C. Cutler. An examination of the stock will suffice to show that Utah can, in the classes of goods on sale, compete with any of the outside markets. In fact, for the same styles and qualities, the prices of the home articles are lower than the imported. In addition to selling cloths, &c. in the place, Mr. Cutler has commenced the manufacture and sale of gentlemen's ready-made clothing.

Extension—Dispatch.—Mr. W. H. Rowe, boot and shoe manufacturer, is building an extension to his premises.

The other day a gentleman ordered a pair of boots to be made, at four o'clock. At seven, the same evening, they were on his feet, and had been finished and waiting for him fifteen minutes. This shows what machinery can do.

Mr. Rowe is going into specialties, suited to the country. Among them is "Rowe's Cañon Boot." It is an article that is made with an eye to durability.

Watering Trees.—There is considerable complaint just now in some places about a scarcity of water, and many persons, because of this, neglect the trees, thinking they can better go short of the life-giving fluid than some other things. But at the present time this is a mistake. Fruit trees should be well-watered now, not flooded, for this might cause them to make too free a growth, but have a reasonable supply. This is very necessary during this month, because, as we are informed by an experienced horticulturist, the fruit buds for next year are now forming, and if the growth and development of the trees be checked now, they will be more or less barren next year.

Fossil Fish.—Sometime since we had occasion to notice a donation of fossil fish, leaves and insects, collected by Mr. Wm. Bell, of Logan, at Evanston, to the Deseret Museum. This morning we saw some specimens, collected by the same gentleman, which were brought to this city for sale. They consist of varieties of herring, leaves of trees and herbs, insects, embedded in the rock as they died and were buried in the mud of the ancient lakes of the Bear River district. We learn that some of the specimens of fossils have been sent to the Smithsonian Institute, by Professor Hayden, to be identified and returned to the cabinets of the Museum. Mr. Bell has also brought down a small quantity of oil shale from the Bear River country, and it is intended to test it as a gas-making material. President John W. Young has taken much interest in the mineral and fossil discoveries being made by Mr. Bell with a view to their utilization.

Trickery.—As usual the so called "Liberal" party in Tooele County resorted to the most contemptible trickery to carry that County in the recent election.

When the returns were canvassed it was found that N. R. Tuttle, the People's candidate for Selectman, had received 692 votes, and E. C. Chase, the candidate of the "Liberals" 664 votes, making a majority for the former of 28.

The so called "Liberal" canvassers, however, must count their man whether elected or not. To accomplish this they threw out the following precincts, which voted nearly solid for the People's candidate—Vernon, 30 votes; Quincy, 10; Pine Cañon, 33; Mill, 27; total, 60. Thus throwing the majority on the side of Chase.

There was no charge of fraud preferred against the precincts thrown out, they were excluded merely on the ground of alleged irregularities in conducting the election and making the proper returns.

At Stockton the judge of election closed the polls for one hour at noon, contrary to law, but no notice was taken of the illegality, although of a more serious character than the pretended irregularities in the returns of the four excluded precincts.

The New York *Commercial Advertiser* tells of a butcher who would not go into the strike "because he had too much at steak, and it wouldn't have been meat for him to have taken any joint action."

A former resident of New Haven, who, during a recent visit, discovered that some of the elms are dying, has written to Prof. Dana, suggesting that the damage is done by an insect which the English sparrows do not molest, while the sparrows have driven away the native birds which formerly destroyed the afore-said insect.

Correspondence.

Mechanics Wanted.]

BLOOMINGTON, Aug. 12, 1877.

Editors Deseret News:

The people in this vicinity are just commencing their harvesting. The crops are moderate, but better than was anticipated earlier in the season, on account of the grasshoppers. This settlement is composed of, generally, a wide-awake, energetic, go-ahead sort of people. But one thing seems so strange to my understanding. In all the town, there is no blacksmith, no carpenter, no shoemaker, no cooper, in short, literally, no mechanics of any sort or name. How the people manage is a mystery. They depend entirely, I suppose, on adjoining settlements. I am under the impression that a few mechanics could obtain a good living, and at the same time be a benefit to the people by coming here and locating.

I would also like to suggest the propriety of the Y. M. I. A. paying a visit to these parts, to instruct the young people as to conducting meetings and other matters of importance. The young men and ladies also would highly appreciate such a visit.

A gentleman requests me to inquire through your columns, for a remedy for borers that infest shade trees.

Yours respectfully,
S. Y. D.

Tyndall can deny spontaneous generation as strongly as he likes, but when a Rome woman finds seventeen flies in a plate of butter which she has kept under a wire screen and locked in a refrigerator, she wants higher authority than Tyndall's to pin an opinion to.—*Rome Sentinel*.

DIED.

At Pangwitch, July 16, 1877, WILLIAM GEORGE, son of Joseph C. and Louisa Davis.

Deceased was born at Panacea, Lincoln Co., Nevada, September 22, 1859.

Millennial Star, please copy.

At Payson, August 17, of cholera infantum, aged 1 year and 17 days, ROBERT ALMA, son of Thos. R. and Jane A. Daniels.

August 7th, 1877, at Malad City, Idaho, MARY ANN, the beloved wife of William Stubbs, aged 33 years.

She came from Wales in 1861, with her other and a numerous family, settled in Cache Valley, and was married to Brother William Stubbs in 1863. She leaves her husband and many friends to mourn her loss. She died in full fellowship, bearing testimony of the gospel.

Millennial Star, please copy.

In this City, August 15th, at 2 p.m., of convulsions, WINNIE HAYNES CULMER, daughter of G. F. and Annie Culmer, aged 2 years and 6 months.

In the 13th Ward of this City, of general debility, JAMES PEGG, in the 82nd year of his age.

Deceased was a native of Lichfield, Staffordshire, England, joined the Church in Sydney, Australia, twenty-three years ago, and emigrated from the latter place during the present year, arriving in this City ten weeks since. Elder Pegg was a diligent and faithful Latter-day Saint, and was greatly respected by all who had the pleasure of his acquaintance.

In the 5th Ward of this City, August 16, of consumption of the bowels, ANN ELIZA MARSDEN, wife of James Marsden, aged 50 years.

Deceased was born at Rotherham, Yorkshire, England; was baptized into the Church of Jesus Christ of Latter-day Saints by Elder James Marsden, in 1847; and was married to him December 26th, 1849. She was greatly esteemed for her excellent qualities, especially for her kindness to the poor. She was a true and faithful Latter-day Saint, an affectionate wife and an excellent mother, ever imparting such counsel to her children as would lead them in the paths of the gospel.

Millennial Star, please copy.

At Newcastle-upon-Tyne, July 25th, of lung disease, EMILY NEWTON, wife of William McMillan, aged 20 years, 4 months, and 16 days.—*Mill. Star*.
