

BUSINESS EQUAL TO EXPECTATIONS

There Has Been Good Response
By Trade to the Very Sea-
sonable Weather.

PURCHASING HAS BEEN GOOD.

Country Merchants Buying Liberally—
In Structural Iron From San Francisco
Chief Feature.

New York, April 5.—R. G. Dun &
Co.'s Weekly Review of Trade for to-
morrow will say:

"Trade responds to seasonable
weather, distribution of spring mer-
chandise fully equaling sanguine ex-
pectations and country merchants pur-
chase liberally from wholesalers at
leading centers."

"In structural iron San Francisco
business continues a feature, and
much railway bridge work is contin-
ued."

"Country hides declined sharply and
some further concessions have occur-
red in packers' hides because of the
indifference of tanners, yet the tone
is better on account of the easier
money market."

"Commodity exchanges have re-
sumed normal conditions and prices
show some recovery from the unset-
tled position after the Easter holiday,
which was prolonged abroad."

A COMSTOCK RAID.

Anthony Seizes 35,000 Picture Postal
Cards Which He Says Are Obscene.

New York, April 5.—Anthony Com-
stock today made three raids in which
he seized 35,000 picture postal cards
which he claims are obscene. Four
men were arrested charged with hav-
ing the cards in their possession.

FIRE IN HOMESTAKE MINE.

All Men Withdrawn From the Under-
ground Workings.

Lead, S. D., April 5.—All men have
been withdrawn from the underground
workings in the Homestake mine in
consequence of the presence of car-
bon dioxide gas caused by the fire
which has been burning in the mine
for nine days. Though there has been
no loss of life, many men have been

Talks on Teeth

By B. I. REX, M. D., D. D. S.

NEW TEETH

The world is moving along.

New inventions, new discoveries, new
ways of living follow close upon one
another.

The pine knot and tallow candle
have given way to the incandescent
light; steam, electricity, telegraph, tele-
phone, wireless telegraphy have all
come within the century. Science has
added much to the sum total of knowl-
edge along practically all lines save
one.

She has done very little for dentistry.
There have been no radical changes
from the old, original methods of pull-
ing decayed teeth and plugging those
that were partly gone, and for supply-
ing missing teeth there has been nothing
better offered than a partial plate or
a "bridge," the former a nuisance
and the latter a torture, which was
bound to make trouble before it had
been long in the mouth.

I believe I was the first to offer a
radical departure from these old meth-
ods in over a hundred years, when I
gave my Alveolar Method to the world.
I spent a number of years perfecting
the method before going before several
of the great dental colleges giving
clinical and practical demonstrations of
this new way of supplying missing
teeth without the use of plates or
bridges—but I created a sensation
when I did so!

All that I require is that a patient
have two or more teeth left in either
jaw, and I don't ask that they be tight
or sound, for along with my other dis-
covery I found a cure for the cause of
loose teeth—pyorrhea, which is another
remarkable addition to the sum of
knowledge about dentistry it has been
my good fortune to discover and give
to the world.

The governments of all countries to
whom I have made application have
granted me patents on my inventions,
showing that they were original with
me and considered valuable.

I should like to have you talk with
some of my patients who are scattered
all over this country. Some of them
have come from far away up in Canada
to have this wonderful work done. You
would find an enthusiastic crowd. I
have letters from many of them.

The Alveolar method is saving more
lives and bringing more happiness to
humanity than any other one invention
that has been given to the world. It
carries the message of hope and com-
fort to men and women who have lost
nearly all their teeth through decay or
ignorant dentistry. "Never mind,
you can have new teeth through this
method that will be just as satisfactory
as though a new set had grown in your
jaw!"

A promise of that sort makes the
man or woman who is struggling along
with a partial plate or bridge want to
know more about this new method.

We can't send it to you.
You must come to one of our offices
and have this work done; but what of
that?

What price or cost can be put upon
a beautiful set of teeth so natural in
feeling and looks that your best friend
would swear that you had never lost a
tooth?

You can't measure the value of such
service, aside from the value from
health standpoint. Good teeth, good
teeth.

The work is simple, painless and per-
manent.

Meanwhile, send for Dr. Rex's book,
"Alveolar Dental Method," which ex-
plains the method in full—an illus-
trated book that brings patients to us
from the four corners of this continent.
We send it with book at testimonials,
free.

REMEMBER—In addition to our
B. I. Rex's Alveolar Dentistry (Re-
gistered Lost Teeth), we are experts in
every branch of dental work, viz:
Filling, gold and silver fillings, gold
and silver platework, correcting irregular
teeth, etc. Specialists in each branch
of dentistry at your service.

overcome by the gas. Neither the ex-
tent of the fire nor its exact location
has been ascertained. The Homestake
and Star mills have been closed for
want of ore, but the Amicus mill and
those at Central and Terrville are
being supplied by ore from an open
cut and the Washington tunnel. The
cyanide plants are also operating with
a reduced tonnage.

SABRE AND BAYONET.

General Staff Doing All It Can to De-
velop Their Use.

Washington, April 5.—The general
staff of the army is doing everything
in its power to develop the use of the
bayonet and the sabre among the sol-
diers. This is regarded as a strange
reversal of the position taken by lead-
ing army officers only two years ago,
to the effect that these were obsolete
weapons, as demonstrated by the ex-
periences of the Boer war, and should
be abandoned. Now a general order
issued by the chief of staff declares
that in order to increase the interest
in sabre and bayonet exercises, post
contests with and between these weap-
ons will, wherever practicable, be
held monthly on the same day as
the field or athletic exercises are held,
or upon the day following. Whenever
practicable post commanders will be
present at the contests and do all in
their power to contribute to the in-
terest thereof by extending extra privi-
leges to the successful competitors.

CARNEGIE'S GUESTS AT THE HOTEL BELMONT.

New York, April 5.—Andrew Carnegie's
guests at the Hotel Belmont now number
36 and more are expected in the next few
days. They have been invited to come
from various countries of Europe to at-
tend the dedication of the Carnegie insti-
tute in Pittsburgh on April 11 and a few
days later they will return to New York
to attend the National Arbitration and
peace congress. From the moment they
left their homes until they return to them
Mr. Carnegie has asked them to accept
his hospitality.

Some of the guests have been at the
Belmont for a week or more and nine
others came on yesterday's steamer.
The new comers are: Sir Robert Ball,
former Astronomer Royal; Prof. Rhyss,
master of Jesus College, Oxford; Oliver
Rhyss, provost, and Mrs. McBeth of the
town of Dunfermline, Scotland; the birth-
place of Mr. Carnegie; Sir John Ross,
chairman of the Carnegie Dunfermline
trustees; and William Robertson, vice
chairman, Mrs. Robertson and Miss Rob-
ertson.

Previous arrivals included William T.
Stead, Lieut.-Gen. Von Lowenfeld of the
Kaiser's military household; Lieut. Col.
J. H. D. of the German general staff;
Prof. Friedrich Schaefer, one of the fore-
most sculptors of Germany; Sir William
H. Preece, J. B. W. Van Veen, Herman
Schwartz, the author; Dr. P. Chalmers
Mitchell, secretary of the London Zoolo-
gical society; Theodore Von Meiller and
Dr. R. Koser.

Baron D'Estournelles de Constant, one
of the leading authorities on arbitration,
will arrive on the French line steamer
Sunday and others expected to arrive will
swell the great list of foreign notables to
between 30 and 40. Next Wednesday a
special train will take all the guests then
in New York to Pittsburgh.

CHINESE MOTHERS.

In This Country Very Feared, Hav-
ing 38 Children Apiece.

San Francisco, April 5.—Statistics
prepared by the immigration board at
this port show that according to the
claims of all the Chinese who swore
they are native born, every Chinese
woman in this country must have been
the mother of 38 children. This inter-
esting condition was made known
when the figures collected from vari-
ous points in the country were tabu-
lated.

CHURCH OF DISCIPLES OF CHRIST

Cincinnati, O., April 5.—On the clos-
ing day of the congress of the Church
of the Disciples of Christ, the report
of the committee of 10 named last
year was the final business. Its re-
port favored closer fraternalization, but
it was explained that owing to ill-
ness of the chairman of the Baptist
section, a final report was not now
possible.

QUIT EPISCOPAL CHURCH FOR UNITARIANISM.

Boston, April 5.—It was learned to-
night that Rev. Gustav Tuckerman of
this city, formerly of New York and St.
Louis, has been formally deposed from
the priesthood of the Episcopal church
by Right Rev. Dr. David H. Greer,
bishop coadjutor of New York, with
which diocese Rev. Mr. Tuckerman has
been canonically connected. Mr. Tuck-
erman's relations with the Episcopal
church were severed because he could
no longer accept the teaching of that
communion concerning the doctrine of
the holy trinity and the virgin birth,
and he is now a minister of the Unitari-
an denomination. Sentence of deposi-
tion was pronounced last Tuesday in
New York by Bishop Greer.

In tomorrow's issue of the Living
Church, the organ of the Catholic party
of the Episcopal church in the United
States, an article will appear criticizing
the apparent failure of the ecclesiasti-
cal authorities in New York and Boston
to suspend Rev. Mr. Tuckerman from
the Episcopal body, as some time ago
he left his place as rector of the Church
of the Holy Faith, New York, and took
up work at the Theodore Parker Mem-
orial Unitarian church in Boston. The
article states that Rev. Mr. Tuckerman
is still carried on the clergy list of the
Episcopal church and practically de-
mands his suspension.

An investigation here tonight dis-
closed the fact that last year the min-
ister decided to abandon his orders in
the church, and that six months ago he
so notified Bishop Greer. Bishop Greer
suspended Rev. Mr. Tuckerman, but,
having six months before he was com-
pelled to take final action, did not de-
pose the clergyman until this week.

REPORTED THE CZAR OF RUSSIA WILL ABDICATE.

London, April 5.—The Daily Mirror
claims to be in a position to announce
upon the "best authority" that the
emperor of Russia proposes to abdicate
within a month and that Grand Duke
Michael will be appointed regent during
the infancy of the czar's son. For the
past three or four weeks, the paper
says, events in this direction have been
proceeding with lightning-like rapidity.
An investigation, but the secret has
been well kept.

"Late" says the paper, "the em-
peror's mind has given way even more
completely than he has shown himself
incapable of performing the smallest
duties of his rank."

The lower house of parliament is to be
abolished and there will be formed a
military dictatorship, with the object of
stamping out revolution and putting an
end to anarchy in Russia. The paper
declares further that a marriage has
been arranged between Grand Duke Mi-
chael and Princess Victoria of Schles-
wig-Holstein and that the visit to Lon-
don of the dowager-empress of Russia
was chiefly for the purpose of negotiat-
ing this marriage.

Count Benckendorff, the Russian am-
bassador to Great Britain, in an inter-
view regarding the story published in

the Daily Mirror, expressed surprise
thereat and said he had heard nothing
officially or otherwise to confirm
these statements. He did not believe
them, but on the contrary discredited
the story entirely. Baron Sternberg,
the Russian consul-general here, when
questioned regarding this story, said it
was "all rubbish."

SHOT TWO PEOPLE THEN KILLED HIMSELF.

Chicago, April 5.—Adam C. Rhein, 53
years of age, today shot and fatally
wounded his father-in-law, William
Rommel, and his mother-in-law, Mrs.
Minnie Rommel, and then killed him-
self.

Yesterday Rhein and his wife quar-
reled and she left him, going to the
home of her parents. It was reported
to Rhein that she had commenced pro-
ceedings for a divorce, and he decided
to kill his wife. He placed three re-
volvers in his pocket and went to the
house in which the Rommels lived.
Mrs. Rhein saw him enter and ran out
of the back door. Rhein fired at her
twice but missed her. The other shoot-
ing followed.

At the hospital to which Rommel and
his wife were taken it was said both
will die.

F. J. CONSIDINE REMANDED.

New York, April 5.—Frank J. Con-
sidine, wanted on a charge of murdering
Mrs. Arthur W. Gentry on Jan. 6, 1906,
was arraigned in court in Brooklyn to-
day and remanded to jail to await
requisition papers.

FAMINE IN CHINA.

Relief Fund of \$110,000 Will be Used
To Purchase Flour.

Washington, April 5.—Commissary
Gen. Sharpe of the army, who is su-
perintending the shipment to China of
the food supplies contributed by Louis
Kloppsch of the Christian Herald, today
received \$90,000 from Dr. Kloppsch in ad-
dition to a previous contribution of
\$20,000. The fund of \$110,000 thus avail-
able will be used for the purchase of
3,000 tons of flour which will be shipped
to China on the United States army
transport, Buford, sailing from San
Francisco on April 30. Of the cargo
1,000 tons of flour will be purchased in
Minneapolis and transported free by the
railroad companies to San Francisco,
and the remaining 2,000 tons will be
purchased at San Francisco and other
points upon the Pacific coast. These
supplies will be consigned to United
States Consul Rodgers at Shanghai,
who will have charge of the distribu-
tion to the sufferers from the famine.
In a letter to Gen. Sharpe, Dr.
Kloppsch expressed his appreciation of
the "business-like, intelligent and ex-
pedient manner in which the army
commissary department had co-operat-
ed in bringing to a successful comple-
tion this important stage of the great
life-saving effort."

We can fill orders promptly.

great diversity in style of drawing and
tones of color and you want a large var-
iety to select from. All this is to be
found at Eberly's, 57 Main Street.

The Quality of the Eye

May be lessened by neglecting the
proper treatment at the present. At-
tention to the eye now will make
it of far more value in 10 years
than if you neglect it. Neglect is
the crime of the age, and from the
effects of which there is no re-
sist. To reclaim lost eye pleasure
is follow in the extreme. To at-
tend to them now is wisdom indeed.

WE CAN PRESERVE
GLASSES that will help your
headache, eye strain, that tired
feeling in the eye, and many other
difficulties of the seeing apparatus.
We guarantee satisfaction.

A SURPASSING LINE OF GO-CARTS FOR 1907

Perhaps no one factor in the problem of giving baby the required attention, with the least trouble to the one upon whom this duty falls, is as po-
tent as the one pertaining to the Go-Cart. Likewise it may be said that no one thing has more to do with the comfort of baby himself than the Go-Cart
he rides in.

With these points always in mind the Whitney Go-Cart people have for many years been producing Go-Carts which have been acknowledged by furniture
men the country over, and proved by years of service to thousands of users, to be superior in style, comfort and serviceability.

Our present Go-Cart showing includes a wide variety of Reclining Folding styles, some of which are pictured today, as well as less expensive Folding
and Reclining Carts at \$2.50, \$4.50, \$5.25 and \$6.00. English Carts with wood body enameled dark green and ornamented with fancy striping at \$10.25,
\$22.50, \$24.50 and \$34.75, and Perambulators at upward from \$39.50.

You are cordially invited to visit the store at any time and see our new line of Go-Carts.

 <p>Price \$3.25</p> <p>Reclining Folding Go-Cart pictured above is substantially made, body being of seasoned hardwood, varnished; has adjustable back and dash, green enameled gear, and 10-inch rubber tired wheels.
