Keep the Balance Up.

It has been truthfully said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appe-tite, or to get tired easily, the least imprudence brings on sickness, weakness or debility. The system needs a tonic, craves it, and should not be denied it: and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keep-ing healthy people healthy, in keeping up the even balance of health, gives if the same distinction as a preventiva-that it enjoys as a cure. Its early use that it enjoys as a cure. Its early use has illustrated the wisdom of the old saving that a stitch in time saves nine.
