

UNIVERSITY OF UTAH.

The Rev. James B. Eddle addressed the students during the chapel hour on Wednesday. His subject was "Six Days' Shalt Thou Labor."

At the regular meeting on Monday afternoon, the faculty voted to have a bulletin for church announcements placed in the halls of the university. This provision is made to accommodate the various religious denominations of the city, who wish to announce their meetings to the students.

On Wednesday Dean Eddle of the Episcopal church was shown through the departments of the university.

The students in physics I and II began their laboratory work on Monday.

Today the University football team ran an excursion to Ogden, where they lined up with the Ogden High school eleven this afternoon. Tonight the boys will be given a ball by the Ogden High school.

Next Monday the students of the preparatory school will meet to elect officers.

On Wednesday, Oct. 7, the department meeting of the state teachers' association will be held in the university buildings. On that day all classwork will be suspended, the laboratories and library remaining open.

The faculty committee on state fair, consisting of Profs. Bennion, Evans and Arnoldson, are arranging for a photographic exhibit of the university work. The photos will illustrate the equipment and products of the school of arts and sciences, state schools of music and state normal school.

Yesterday the Zeta Gamma elected the following officers: George J. Larson, president; J. M. Carlson, vice president; H. F. Syndergaard, secretary and treasurer; T. M. Reese corresponding secretary; F. D. Warlton and Earl Thompson, program committee.

Mr. Joseph Howell, son of Congressman Howell, and a student of the school of mines here last year, left on Wednesday for Columbia university, where he will continue his studies.

The Chronicle staff for this year is as follows: Editor and manager, S. J. Claridge. Literary department, Nellie Goss and Della Cole.

School of mines, E. E. Meyer. Normal school, David Leek. College women, Helene Critzer. Exchanges, Garnet Atridge. Circulation, Jared Russell. The first number of the Chronicle will be issued Tuesday, Oct. 13.

On Wednesday Mr. James Beless, Mrs. Cheswick, his sister, and Miss Cheswick were visitors at the University. Mr. Beless is the oldest engineer on the R. G. W. Miss Cheswick is a graduate of the Boston University and a teacher of English in the Dartmouth High school.

Mrs. Rebecca E. Little, one of the regents of the University, was a visitor one Thursday.

The fourth year normals met on Tuesday and elected the following officers: President, E. D. Warlton; vice president, Ethel Thompson; secretary, Jennie Hill; treasurer, J. M. Carlson; executive committee, Amy Layman, Kate James, Emma J. Savage, Clella MacCreedy, W. J. Lowe, and Earl Thompson, property man, Evan H. Garnett.

The '04 normal girls met Thursday and organized a club known as the "Bachelor Maids." Miss Emma Savage was elected "Exalted Ruler." The organization will be perfected next week. The purpose of this club to provide amusements during the school year.

The number of students now registered in the university is greater than it has ever been at the close of the second week of school. In the arts department there are now five courses in German, three in French, three in Greek, six in Latin and the English classes are overcrowded. In the school of mines there are registered 65 freshmen engineers. The sophomore junior and senior classes are also much larger than they were last year. There are 235 first year normal and preparatory students. The second, third, and fourth year normal and preparatory classes are about as they were last year.

President Kingsbury went to Cedar City Wednesday on official business connected with the Branch Normal. He will return on Monday.

SALT LAKE CITY SCHOOLS

Salt Lake—Supt. D. H. Christensen has done considerable visiting during the past week among the schools. The whole school machinery seems to be in full motion and appearances predict the banner year in education for this city.

Important among the recent adventures of the school system of the city is the manual training. This department is to receive special emphasis and has the decided advantage of an excellent corps of supervisors.

The Fremont school is to be the headquarters not only for woodwork, but also for sewing.

During the past week the boys of the wood department have been visiting different lumberyards, where the distinction between machine and hand work has been carefully noted, also the materials used have been made a subject for observation. According to the plans developed by the supervisor, the most important cabinetmakers' places and lumberyards will be visited, by which means it is expected that the boys will familiarize themselves with the practical side in their line of work.

The making of blue prints and the study of the structure and uses of the grindstone have occupied the attention of the department this week. A great interest in whitening, according to the Swedish method, has been manifested this year by the boys.

The Fremont school is filled to overflowing.

The transient officer has already been called out to attend to cases of "hook-eye."

High school reports show an enrollment of 590 on the west side and 110 on the east side.

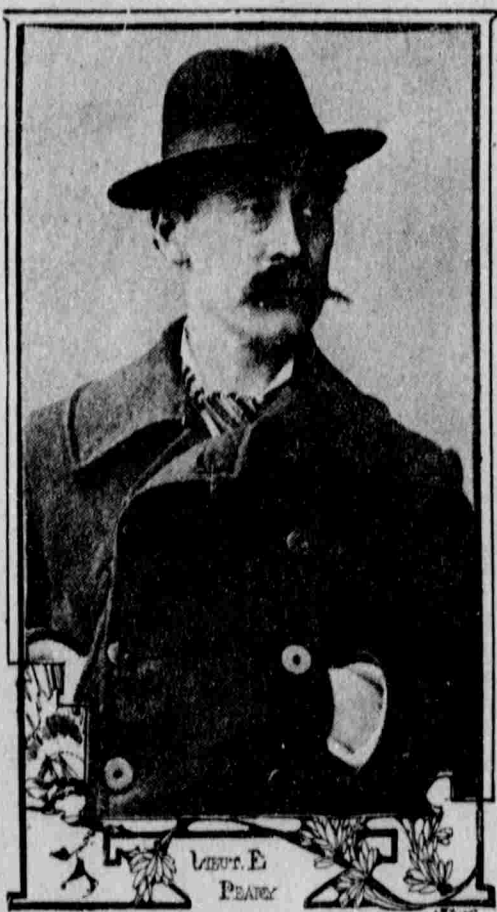

Miss Jennie Davis has resigned her position at the Lincoln, but will continue as substitute teacher in the grades.

An Indian curio corner adorns the room occupied by Miss Davis at the Washington school. It is a loan by one of the patrons of the school and will be made a subject of pleasant discussion and stories in that department.

Outings will soon be instituted by grade teachers, as the recent cold snap has prepared City Creek canyon for the throng of children who will be gathering fall flowers and leaves under the supervision of the teachers.

Mr. John S. Welch, late of the Chicago schools, Miss Crabbe and Mrs. Peary to find the pole.

PEARY TO FIND THE POLE.

Commander Peary is the most persistent of all Arctic explorers who have sought the pole, and he starts out with a new enthusiasm to reach the objective point. His possibilities are strong. It will be his last effort to reach the pole, but he believes he will reach there.

Stocking are supervising department work at the Fremont.

Exceedingly complimentary letters, lauding his work done in Floyd, manifesting a high degree of satisfaction regarding his comprehension of manual training have been received by Prof. Doxey from the renowned schools in Naas, Sweden, and Leipzig, Germany.

Miss Pratt of the Utah school has in charge the singing for the primary department at the coming State Teachers' institute.

Mrs. Lovina V. White, formerly Miss Van Cott of the Grant, is doing substitute work at the Franklin in lieu of Miss Fries, who is ill.

The following meetings were held last week: Miss Pollock met teachers of beginners' and first B departments Tuesday, and Wednesday last she conducted a lesson before the third grade teachers. Mr. Parrett held a meeting for the fifth grade teachers on Thursday.

The following appointments are scheduled for the coming week: Tuesday, at Fremont school, beginners' teachers by Mr. Witzell, at city and county building, sixth grade teachers by Mr. Parrett.

Wednesday, first A and second grade, at city and county building, by Miss Pollock.

Thursday, first grade, at Fremont building, for first grade by Mr. Witzell.

L. D. S. UNIVERSITY.

Salt Lake City.—The evening missionary class will begin on Monday, Oct. 5, at half-past 7.

The business college night school begins its work for the year on the same evening.

Prof. Stephens addressed the English classes on musical interpretation this week. He and Prof. McClellan are arranging a recital for L. D. S. students.

Prof. Kent sang in the devotional on Monday morning. His selections were "The New-born King" and "Just in the Same Old Way." Both pieces were beautiful. Our obliging friend, Mr. Alvin Beesley, was the accompanist.

A well remembered former student, Miss Edith Edmonds, paid us a visit on Wednesday morning. She sang "In Sunny Spain," "Last Night" and another ballad, to an enthusiastic encore. Miss Lizzie Thomas was the accompanist.

Brief remarks were made in morning exercises this week by Profs. Peterson, Mills and Geddard, who treated the subjects, earnestness, method, and habits as related to student life, and by Dr. Miller, who gave practical hygienic rules for students.

The conductors' training course for choir leaders and singers, will be commenced by Prof. Evan Stephens on Wednesday, Oct. 7. Those who take this work should be present for the first lessons. A special circular describing the course has just been issued.

The Normal society held a meeting on Wednesday and organized with the following officers: Robert H. C. Marchant, president; Laura Devett, vice president; and Inez Field, secretary. Regular meetings will be held hereafter.

Six hundred and forty-three students, not including the kindergarten, is the enrollment in the third week of this year. This is the largest opening attendance in our history. Of these students 22 are preparatory and eight are missionary; so that we have over 600, in the normal, high school and business courses.

The Sunday school kindergarten class for city teachers will begin on Friday, Oct. 9 and will be held weekly thereafter. It is expected that each Sunday school in this county will send one or more teachers to take this training.

Mrs. Donnette S. Keeler will conduct the course.

The department of wood work has made a good beginning. The number now at work at the benches is 25. The students who entered first are now doing practical work, making tables for the physical laboratory, tables for the mechanical drawing classes, hard wood rulers for the classes in mathematics,

Fourth year class, Articles of Faith, Jas. E. Talmage, James H. Anderson. The school is organized especially for the accommodation of students of the U. of U. and of the L. D. S. U. who are not associated with any of the ward Sunday schools, though any persons temporarily residing in the city are respectfully invited to attend. School convenes at 10 o'clock every Sunday morning.

AGRICULTURAL COLLEGE.

Logan, Sept. 25.—The poultry and hog houses, the foundry and carriage shop and additions to the mechanic arts building are rapidly nearing completion.

The first carload of new machinery for the mechanic arts department is being unloaded. In the consignment is a 200,000 pound Riehle machine for testing strength and elasticity of materials. This is the most improved machine made and is both automatic and autographic. There is also a Handry power hammer, and a 15-horsepower gas engine, labeled for the purpose.

Prof. Jensen and his able corps of assistants are rapidly putting things in order in the additional rooms provided for the mechanic arts and engineering courses.

Prof. Hutt came up with the excursionists from Ogden, where he had been classifying the fruit exhibits at the Irrigation congress.

Miss Smith, the expert cataloger, has completed the classification of all the books in the general library, preparatory to cataloging and indexing them.

Miss Moeuch has organized large classes in elocution, and practical public speaking. The latter course is being given for the first time and promises to be very popular.

Prof. Bexell of the department of commerce has already gotten his work well in hand. He comes to the college thoroughly equipped for the work, being a graduate with the degree A. B. and A. M. from Augustana college and having been a graduate student at the University of Chicago and the University of Minnesota in economics and commerce. For the past nine years he has been occupying a chair in Augustana college. Prof. Bexell will have charge of the work in banking, finance and accounting, and will be ably assisted in the department by Dr. Engle, who will have the work in political economy and Prof. Robinson, who will have the work in political science. Prof. Bexell is arranging for a course of lectures to be given by prominent business men of the city on topics of especial interest to commercial students.

Prof. Hutt will take an exhibit of fruits to the state fair next week.

Prof. Wilson, head of the department of modern languages, comes to his work here fresh from a summer of post-graduate work at the University of Chicago. He is not a stranger to the educational interests of our state, as his work in the Ogden High school during the past seven years, as instructor and principal has given him a reputation as an educator more than state wide.

Prof. Engle spent the entire summer at the University of Chicago in post-graduate study along the line of economics.

Prof. Merrill reports the registration in the agricultural college the largest in the history of the college.

The A. C. Woman's club held its first meeting last Monday at the home of Mrs. Champ. The work this year will be the history of sculpture. Mrs. Dail was appointed to represent Mrs. Fleming, president of the club, at the U. F. W. C. and Mrs. Champ was elected as a delegate. These two accompanied by Mesdames Kerr and Oestlin will attend the annual meeting of the federation at Salt Lake next week.

ASPIRANTS FOR RUSSIA'S THRONE.

GRAND DUCHESS VLADIMIR

Owing to the sickness of the czar's brother, Grand Duke Michael, it is considered a strong possibility that Grand Duke Vladimir will succeed to the throne if the czar should die without a male heir. He is acknowledged to be a believer in the theory of Peter I. that Russia may rule the world.

University Sunday school was organized Sept. 29, in room 33, of the Young Memorial building. Elder George Reynolds and George D. Epper of the general Sunday School Union Board and Elder Seymour B. Young, one of the first seven presidents of Seventy, were present. The following officers and teachers were sustained: Superintendent, Milton Bennion; first assistant, Bryant S. Hinkley; second assistant, Joseph L. Horne.

First year class, Book of Mormon, J. M. Mills.

Second year class, Modern Church History, P. J. Jensen and Maude May Babcock.

Third year class, Bible History, Joseph F. Merrill.

Prof. J. W. Jensen has been unable to meet his classes during the past week on account of sickness.

Mr. McLaughlin of the station staff went to Tooele last Thursday to plant the dry farm and prepare for the fall planting.

Dr. Vodel has a large class in general chemistry and says that several elective courses not given in past years, have been called for and will be given.

Prof. Bell will give an exhibition at the state fair of spraying appliances for the codling worm.

Prof. Peterson has two classes in ge-

ology and one in physiography.

Among the new college songs is a very catchy one composed by Prof. Upham to the popular air, "Hawthorn."

The physical culture work begins next week. Miss Moeuch has been engaged this week in taking measurements for the anthropometric charts of the girls.

Prof. Campbell and Capt. Jardine are working with new men on the gridiron. Egbert and Madsen fight and left tackle of last year, will not play this year. There is much good timber in sight, however, to make a winning team.

The delegates of the National Irrigation congress who visited the college last Saturday gave unstinted praise of the equipment and work at the college.

BRANCH NORMAL.

Cedar City—President Kingsbury, with some of the board of regents, is expected here Friday. They come in the interests of the school and new building.

Principal Porter and instructors Lewis, Ward and Briggs made a canvass of the four southern counties in the interest of the school. They arranged to meet at Knolls, from where, in company with Dr. Middleton and John Fuller, the latter acting as guide, they started for a visit to the Grand Canyon of the Colorado. They endured much and saw more, so felt well paid for the time occupied in the trip.

To facilitate the business of the faculty, committees have been appointed by the principal from among the faculty, one to look after student organizations, one on registration and credits, another on school government and still another on chapel exercises.

The new building is going up slowly. It is expected that the work will be hastened when the kiln of brick, now being burnt, is ready.

Registration has been a little slow, owing to the heavy crops to be gathered throughout the south; but each succeeding Monday shows an increase in numbers, and from the reports that reach us, have every reason to suppose that the enrollment will far exceed that of last year.

WEBER STAKE ACADEMY

Ogden—Our school year has begun with many of the old students, together with an increase over last year of new students. The registration for the second week shows an increase over the same period for last year of 10 per cent.

Two new names appear in the register of the faculty: Mrs. Sarah T. Evans, who has charge of the domestic science department, and Thos. E. McKay, who just returned home last Thursday from a mission to Germany, and who will have charge of the preparatory department and Sunday school course.

The course of the missionaries commences on Oct. 12. The night school commences on this date also, and its sessions will be held Monday, Wednesday and Friday evenings of each week. Bishop Barnard White has presented to the laboratory a large pelican, which he captured on his farm at Perry a short time ago. The body has been stuffed and makes a valuable contribution to the cabinet.

The geological collection has been enriched by a number of valuable specimens of fossil fish, presented by Prof. L. F. Moeuch. The fossils are almost perfectly preserved and occur embedded in a light brown shale.

Dr. J. M. Tanner, superintendent of Church schools, visited the academy on Thursday.

Miss Nettie McKay has obtained a year's furlough and will leave for the east next Monday, where she will study at the University of Chicago.

making and art needle work. A class in dressmaking will be organized next week. The rooms assigned to this department have been papered and carpeted, and with new furniture, sewing machines, etc., are very attractive. Every student enrolled is working earnestly and faithfully to make this department second to none in the state.

The sight singing class, under Prof. Hallantyne's direction, begin the season's work with a fairly good enrollment. At the close of last year's work, many of the students in this class could do practical sight singing work.

The missionary and choristers' training class will be united this year and a large male chorus will be drilled in part chorus work. Practical work in the art of conducting will be a special feature of this class. Prof. Hallantyne has been engaged to attend the morning opening exercises; this will result in the organization of a choir to do special work, so the prospects of music in the academy this year look exceptionally bright.

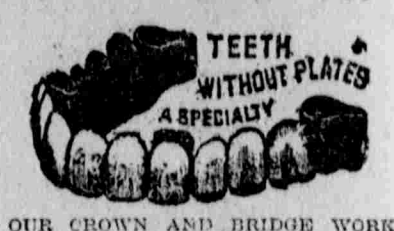

Last Friday night the Weber stake S. S. board and members of the faculty arranged a brilliant surprise for Miss McKay. The domestic art rooms were specially decorated for the occasion, a delicious supper was prepared by the ladies of the organization, toasts, sparkling with wit and pathos were given, and everything done to make the evening a memorable one for Miss Jeanette. Among the invited guests present were: Dr. Tanner and Elder George Reynolds of the Union board, and members of the stake presidency.
