Make your Pacific Railway Company vs. Andrew children happy by planting olive trees, and they will, in the near future, bless you for having done so -Arizona trial for a couple of days past and Gazette

Bound Over.

Yesterday afternoon the examination of Henry Shafer, of West Jordan, on the charge of attempted rape, was held before Justice Pyper. The victim of the defendant was a little girl ten years of age. It was also shown that Shafer, had made a similar attempt on a twelve year old girl. The details of the cases are revolting. Shafer claims that he was out of his mind through sickness at the time of his diabolical attempts. He was held to await the action of the grand jury on both charges, bail being fixed at \$1,500 in each case. In default of bonds, he was committed to the custody of the Sheriff.

Probate Court.

In the Salt Lake County Probate Court yesterday, in the matter of the estate of E. H. Murphy, au order was made appointing the time and place for the settlement of final accounts, and to hear a petition for the distribution of property.

An order was mids appointing the time and place for a settlement of the figal accounts, and to hear petition for distribution of the estate of Frans Bromander, deceased.

An order for the sale of personal property was made in the matter of the estate of Elizabeth DuBois, daceased.

An order for confirming the sale of real estate, in the matter of the estate of the guardiauship of Daulel W. Moifatt et al., minors, was make.

The tip of this harpoon is is fitted into this groove, and then the weapon is thrown with double force. The native can strike a fowl in water fully one

hundred feet distant. A hunter usually carries with him a number of these harpoons of various sizes. -N. Y. Mail and Express.

Making Buttons Out of Blood.

The country is learning to utilize waste. Making buttons of blood is in this direction. There is a large factory in Bridgeport, near Chicago, employ-

ing about 100 men, boys and girls, in which waste animal blood is converted into buttons. The same firm "has another large factory e.sewhere. A man named Hirsch was the first to the streets or public places in the city introduce the business in this country some years ago. He lost \$16,000 the first six months, but stuck to it, and now he is immensely wealthy. There are a number of similar factories in

England. From 8,000 to 10,000 gallons of blood are used in the Bridgeport factorr every day. Nothing but fresh beef blood is used. Considerable of the blood evaporates

during the process of drying, but what remains is pure albumen. Some of it s light in color and some dark, according to the chemical treatment given it. These thin sheets of dried lood are then broken up, and are ready to be worked into various shapes and sizes. Large quantities of the blood sheets are used by cloth manu-facturers for "setting" the color in calico goods. Not only are buttons made from blood in this way, but tons of earrings, breastpins, belt clasps combs and trinkets are made annually there from blood. It is a queer, odorlferous business, but a paying one.-Philadelphia Bulletin.

A Kemarkable Railroad.

The New York Central, Hudson River and Orange Railroad Company, is the very long name of a very chort any place of worship while worship is being held therein); nor within 300 the state, the corporation was files of feet of any building any occupant of September 1, 1884, for the purpose of which notifies him or them to desist, carrying freight to and from the Fort Orange paper company's works, situ-ated wear Castleton, Rensselaer Coun-ty, and also carrying and delivering to 5. Every license herein provided for shall expire on the first day of Sep-tember next succeeding its date; the States postal cards, the same being manufactured and printed at their suid works." The report also furnishes a description of the lilliputian road and its equipment, that is most entertaining. Its main track is less than one mile in length-in fact, but 3,168 in length-in fact, but 3,168 to be accurate. The rolling feet, stock consists of one locomotive, costing \$2,400, and one passenger coach, which is leased. The cost of construction is given as being about \$2 000. Gross earnings from operations for year ending September 30,

1886, were \$2,280; operating expenses for same period, \$2,224.21, leaving a surplus of \$55 79. The wages and salarles paid amount to \$1,225 69 per can-num. The cost of fuel for the locemotives was only \$36.50; general office. expenses and supplies, \$4.50. Its pro-portion of the assessments levied upon the various railroad corporations to pay the salaries and expenses of the
