

The following report sent East and purporting to be from the Chicago Excursion Party, came to hand to-day with our regular dispatches from the East. At the time the Excursion Party called upon President Young a conversation took place, as we stated on Saturday, between the President, the members of the party and other gentlemen who were present. With the party came a person who asked several irrelevant questions and made inappropriate comments. It was afterwards ascertained that he was not one of the party, though, under the impression that he was, his impertinence was overlooked, and he was treated with a courtesy which he did not deserve. Several of the gentlemen of the party expressed their regret that he should have been taken for one of them. This conversation elicited forth remarks which were just and true, but which in the report we publish from the party, have not been fairly represented. Had they been reported correctly, all our citizens who were present would have been highly pleased; for there was nothing said that any loyal man would not have endorsed. We cannot think that the members of the party were made acquainted with this report before it was sent, but some person connected with the press has been anxious to get an item and has sent off this partial statement. But whatever the motive, or by whomsoever sent, whether by an individual or by the party, we thank them for the report, for therein is manifested the writer's true feelings. He would do well to ponder upon the words contained in the 20th and 21st verses of the 29th chapter of Isaiah.

Chicago, 12.—The Commercial Excursion Party had an interview with Brigham Young, at his residence at Salt Lake City, yesterday. During the conversation Brigham told Senator Trumbull he would probably hear of some Federal officials being put out of the Territory, and if done, he might be sure it was for good and sufficient reasons. Judge Trumbull advised him, before taking such a step, to make known his grievances to President Grant, who will not permit violations of law to go unpunished; it will not be safe to molest public officers in the discharge of their duties. Young said Grant had removed the only Mormon member in Utah, for no reason except that he was a Mormon. Brigham further declared that he would not obey the law of Congress prohibiting polygamy, because Congress had no right to interfere with that matter. Judge Trumbull replied, declining to discuss the matter; but said the law at all events must be upheld and obeyed. Young's declarations caused considerable sensation among the members of the party. The Mormons treat the expositions with cold, distant politeness, and repeat rather than in the expositions.

NOVA SCOTIA AND BRITAIN.—The reciprocity bill of Nova Scotia, now a member in the Canadian Dominion, is still using every effort to leave the Confederation, sever its connection with Great Britain, and to annex itself to this country. For four or five years past, this little Province, once considered one of Great Britain's most loyal dependencies, has been agitating the question of annexation, and it is feared the power would long since have been a State in the Federal Republic. The cause of the discontent of the Nova Scotians is founded chiefly, if not wholly, upon the fact that sometime during the war, the Reciprocity Treaty, then existing between this country and the British American colonies, expired, and has never been renewed. Under that treaty the Nova Scotians, as well as the people of the other British American colonies, carried on a lively trade with the United States, finding a ready market in this country for the products of their Province, such as coal, fish, lumber, and other things, and receiving in return, from the United States, goods to them, American products and manufactures. Since the expiration of this treaty the Nova Scotians have been able to exchange their products with this country, and what they have had to import for home consumption they have had to purchase from Canada, paying gold, instead of produce, as under the Reciprocity Treaty with America. This, of course, has caused poverty and discontent to be general in the Province.

THE GREAT WESTERN DISSENT.—There is some hope that the causes for the dissent may soon be considerably modified, and that a measure of prosperity will again be enjoyed by the people of Nova Scotia. The intelligence that the financial minister for the Dominion was in Washington, his business there being to consult with Secretary Fish on the preliminary of a new reciprocity treaty, should these negotiations prove successful, trade between this country and the British colonies will be revived, and though it may not be such a advantageous terms for the Nova Scotians before, it will no doubt restore a measure of their former prosperity, and thereby allay their discontent, and for a time postpone the realization of their annexation policy.

Jackson, Miss., 9.—The new organ of the National Republican party appeared to-day; it holds the name of Judge Dent for Governor. The Salutory says it will be truly national in its aims, and will yield hearty support to the administration of President Grant. It urges strict adherence to the reconstruction laws, and will advocate universal suffrage and universal amnesty upon the basis of citizenship and equality to all. Judge Dent's nomination on the Grant platform meets warm approval.

Chicago, 10.—The salutory in the McGarragh case was served on Secretary Cox yesterday, but the New Ida Company has entered an appeal, and in the second place, the Secretary has nothing whatever to do with issuing land patents, they do not bear his signature in any form. The matter was before the Cabinet yesterday, and it is safe to say that a favorable McGarragh's case may be he will not get the patents at present. The case will probably be ultimately settled by Congress.
