

## SALT LAKE PEOPLE IN DANGER ZONE

List of Utah Residents Who Are  
In San Francisco and  
Vicinity.

### SOME ADDITIONAL NAMES.

Nearly Two Hundred Above Those  
Printed in the "News" in Last  
Night's Issue.

Additional names to the list printed in  
the "News" of those residents of Utah  
now believed to be in San Francisco  
have been secured. All day yesterday  
and today both telephones in the edi-  
torial rooms of the "News" were kept  
busy answering inquiries of anxious  
relatives. Owing to the extent of the  
disaster in San Francisco, the fact that  
marital law has been proclaimed, and  
it is impossible to deliver telegrams in  
the stricken city under existing condi-  
tions it may yet be several days be-  
fore some will be heard from. As every  
city in the Union has been sending in  
messages to the stricken district, the  
Western Union and Postal Telegraph  
temporary headquarters have been  
swamped with queries, a number of  
which will, in all probability, never  
reach their destination.

## Dainty Foods Demand It

IN EVERY Receipt that calls for cream  
of tartar, soda, or baking powder, use  
the Royal Baking Powder. Better results  
will be obtained because of the absolute  
purity and great leavening strength of the  
Royal. It will make the food lighter,  
sweeter, of finer flavor, more digestible and  
wholesome. It is always reliable and uni-  
form in its work.

Alum and phosphate baking powders—  
some of them sold at the same price and  
some of them cheaper—will make neither  
dainty nor wholesome food.

## THE UNIVERSITY OF CALIFORNIA.

Almost as by a Miracle Buildings  
On Campus Escaped  
Uninjured.

### BERKELEY NOT SO FORTUNATE

No Lives Lost. No Notable Disasters.  
Still Aggregate Damage Is  
Great.

Berkeley, Cal., April 18.—By a seem-  
ing miracle the big university buildings  
standing on the campus elevation es-  
caped harm in the earthquake shock.

Recorder James Sutton of the uni-  
versity said:

"I have made a personal examina-  
tion of the buildings on the campus and  
have received reports from deans of the  
colleges, and it appears that not one of  
the buildings is parted in the slightest  
degree.

"Prof. O'Neill of the chemistry de-  
partment reports that the damage done  
to the instruments in the building will  
not aggregate more than \$50. The Cali-  
fornia has not a mark on it to indicate  
that an earthquake occurred this  
morning. The other buildings appear  
to be in the same condition. The Greek  
theater has not a scratch on its walls."

The town of Berkeley was not so for-  
tunate as the University in the matter  
of damage sustained. No lives were  
lost, nor were there any notable dis-  
asters to buildings, but the aggregate  
damage in the shape of structure, broken  
chimneys and falling walls will be  
many thousands of dollars.

The shock of the tremor did com-  
paratively little damage in Berkeley.  
The most damage suffered was the  
falling in of the town hall and the  
complete ruin of deaf and dumb asy-  
lum. The Berkeley high school also  
suffered some considerable damage, the  
falling chimneys tearing great holes in  
the roof. Most of residence portions of  
the town were damaged only in the  
falling of chimneys and the loss of a  
few odds and ends which were hurled  
around in the interiors.

No casualties were reported.

The First National bank building, the  
tallest structure in the city, seems to  
be unharmed. The Homestead Loan as-  
sociation building is badly cracked.  
The steel girders of the Masonic tem-  
ple, which is in process of construc-  
tion, tumbled over, two of them falling  
through the roof of the University  
laundry building adjoining.
