Position of Graduate Manager of Athletics Abolished for Next Season.

JENSEN IS SELECTED.

Will be Manager While He Continues His Undergraduate Work in The University.

with the closing of the present school year the first change in the management of University athletics in seven seasons Coach Maddock will then vill occur. divide with John Jensen, now editor of the Chronicle, the authority at present exercised by George Riser over athletic meets and finances.

selection of Mr. Jefisen is a departure from the long established system of a graduate manager, as Jensen is a junior in the arts department and will of a graduate management and will infor in the arts department and will continue his school work in addition to be gridicon duites. The change in policy comes as the result of confidence in Mr. Maddeck and his ability to arrange ath-site means, set dates for even is and sim-site means, set dates for even is and if the faculty athletic council will be materially lessened in the new plan, and more liberty will be given the students in controlling undergraduate affairs. The proposition to abolish the position af graduate manager was made by Presi-cent Kingsbury at a meeting of the Uni-restity advisory committee composed of p. O. calledan, Dr. C. G. Plummer, R. C. channing, George Esaton, and Frank An derson, in connection with the Univer-sity athletic board, and was concurred in without dissent. At the same meeting the selection of the new treasurer was made.

Made. Mr. Jensen, who was chosen for the posl-ion, has been chiefly conspicuous at the University during the past year as editor and manager of the U. of U. Chronicle, and a strong advocate of the new spirit pervading the college grounds. He is con-idered the logical man to handle ath-site, as outside of Manager Riser him-ited as outside of Manager Riser him-

on the 17. Last night Schreck sparred for the Elks of Chicago, and had to run from the en-tertainment to the depot in order to catch his train for Salt Lake. He feels confident of beating Gardner, and his option is seconded by desize Siler, the famous referee and sporting write. Siler says that Gardner will have to be in the beer condition of his life or Schreck will beat alm sure. Word comes from Ogden today that Gardner is working like a beaver and will be in tip-top shape for the match. This morning he took a localie run and this afternoon he worked in the gymna-sium punching the bag and sp ring. His work was watched by a large and dimin-ing growd of fight fans who will be at the figside expecting to see Gardner win Gardner's sparring partner is a big fellow named Jack Dunn, who is regard-ed as a fast and clever mat.

Many people owe their present good health to the fact that they consulted Dr. Pierce by letter, giving him all possible in-formation about their condition, symptoms, etc., and received in return good medical advice which cost them nothing. Write to Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Dr. Pierce by no means confines himself to prescribing his well-known medicines. He tells you in the most common-sense way what alls you, what you ought to do, what line of treatment should be followed out in your particular case, and if your case to possible method of improving your health. Dr. Pierce treats many chronic cases at a distance, through the mail and all you have to do is to write him your symptoms. to do is to write him your symptoms. "During my two years of married life I have not bad good health," writes Mrs. Daisy Stud-dard, of 608 8. Esplanade Avenue, Leavenworth, Kans. "I was all run-down, and my husband got me to write to Dr. Pierce. I got an early reply telling me what the trouble was. I com-menced taking Dr. Pierce's Favorite Prescrip-tion, and also the 'Piesaant Fellets,' and now can say that I feel like a new woman. I do all my work and do not feel tired out like I used to. Vancouver, B. C., April 4.-The Hall Mining & Smelting company closed down its operating loadstack today for want of ore. Of the two loadstacks owned by the company only one has been used since Feb. 25. The trouble has arisen from over estimates of the probable output of the mines.

#### Leo Fleishman Not Found.

Leo Fleisnman Not Found. Los Angeles, Cal., April 4.—Stories published today to the effect that Leo Fleishman, the missing 6-year-old New York boy, whose friends have expended a fortune searching for him, had been found in South Pasadena, are incor-rect. It is true a boy of that name was found in South Pasadena, but his home is in Los Angeles, and he does not in any way resemble the boy for whom a search is being made. The local po-lice are satisfied that the Leo Fleish-man in Pasadena is not the one sought man in Pasadena is not the one sought by New York persons.

Frank Suess, a catcher from the coast, is another arrival to the local baseball scene. He at once joined Reilly's cunch and was on hand this afternoon to loos-en up some. He was with the Spokane team and Reilly says he is a good man. Reilly should know; at any rate, we will take his word for it. Harry Quiek, a pitcher, is another addition to the team, and he is making good.

# Retily's crowd, including Riggs, a crackerjack outlielder, was at the Theater last night as guests of the Red Feather Opera company. The management of the company invited the local ball tossers t-see the show and the latter did not besi-tate long in accepting. They occupled a couple of boxes. This new main Riggs is from Manila and had a chance with the San Francisco team, but when he heard Reilly was here he came on at once and joined the fat one's forces.

At the Lafayette school this afternoon there is a meeting of those interested in the organization of the Grade Schools Basebai league. At this meeting the for-mation of the league will be completed and it is likely that a schedule will be adopted. The meeting was called at promptly 4 o'clock.

The ball grounds are rapidly drying and in a day or two will be in fine shape. Red Norton, groundkeeper, is working like a beaver to get the grounds in good shape, and the crowd that watched the local bunch work out this atternoon were surprised and pleased at the condition of things.
