THE GREAT COUNTRY PAPER

OF THE WEST.

Is issued Mondays and Thursdays and contains all the cream of the Daily and Saturday News.

LOCAL BRIEFS.

A raise was made in butter today, the wholesale price being fixed at 25 cents and the retail at 30.

Coal dealers say there is more coal in the local yards now than they know what to do with, and the pleasant mild weather does not help get rid of it to any great extent.

This being the day set apart as a day of humiliation and prayer, the Union Missionary societies held a special meeting in the First Presbyterian church this afternoon.

Walter McLeod, charged with house-breaking in five complaints, was arraigned before Judge Diehl this morning. He waived preliminary hearing in each case and was held to answer to the district court. The court fixed his bonds at \$250 in each case.

The principals of the city schools were scheduled for a meeting at the Fremont this afternoon. The program consists of an address on "School Gardens," by Mrs. E. A. Powers of the Riverside, and a lecture on "English in the High School and Grammar Grades," by Miss Ella N. Dukes.

Tomorrow evening, Feb. 23, Dr. Thomas and Mr. Lincoln of the class of the First Presbyterian Sunday school will give a Japanese tea in the lecture room of the church building. A good time is assured for all who attend, and the proceeds will go to swell the fund of the new church.

There are so many Catholic workmen and artisans at Picoletto that it is proposed by the Knights of Columbus in this city to organize a lodge of the order there, and a pilgrimage from Salt Lake is promised before long, with that in view. The Knights of Columbus is growing very strong in the west; it is already well established in the east.

At yesterday afternoon's luncheon at the Commercial club by the real estate men, a committee was appointed to draft resolutions to be presented to the city council asking that all real estate dealers in the city be compelled to take out a \$25 license. It was claimed that less than one-third of the bona fide real estate dealers in town are paying license.

The west side high school building has been repaired, and equipped with fire alarms, and assemblies can now be held there without any apprehension. The doors have all been re-hung, so as to open outwards. Principal Eaton made a test yesterday afternoon of the efficiency of the fire alarms, and emptied the building in two minutes, without any difficulty.

The Bell Telephone company will connect up the Utah coal camps and Price with telephone wires early in the year, which will prove a great convenience not only to the Utah Fuel company but to all the industries and the coal offices in the state which have business with the camps. Incidentally, the sheriff's office at Price will be in immediate communication with the governor in this city.

Letters and telegrams received by Gov. Wells from Director General Whitaker indicate that the fair officials may yet rescind their order denying space in the educational building for the Utah educational exhibit. So it is hoped that this state may be given such space for an educational exhibit as is necessary. The next meeting of the Utah commission will be held tomorrow, by which time it is expected that Mr. Whitaker and Mr. Shurtliff will have returned from St. Louis.

There will be an interesting and pleasurable luncheon party in the Eighteenth ward hall on Wednesday night, March 3. Christensen's orchestra will be in attendance. Each couple is expected to bring a lunchbasket and join with friends in a general picnic when the refreshment hour arrives. The occasion promises to be a most enjoyable one and members of the committee in charge and of the ward are looking forward to it with considerable anticipation.

DEATH OF A PIONEER.

B. F. Dewey, Who Came Here in 1847, Passes Away in Arizona.

Word has been received in this city of the death at Chandler, Ariz., Feb. 23, of B. F. Dewey, a Pioneer of 1847, the deceased having come here in company with W. C. A. Smoot, the well known old-time resident of Sugar ward.

Mr. Dewey was born at Westfield, Mass., and left there for Nauvoo in the spring of 1847 with his parents, later joining the advance guard of the Pioneers and arriving in the Salt Lake valley broke out in 1849. Mr. Dewey went to California, but two years later he returned to Salt Lake, where he continued to reside till 10 or 12 years ago, when he went to southern Utah and from there drifted down into Arizona.

He was a brother of John Dewey and Maria Dewey Woolley of Salt Lake, and was in his seventy-fifth year at the time of his demise. As the telegram does not indicate the cause of death, received here, it is presumed it was due to old age. The deceased was a faithful member of the Church and last visited Salt Lake at the time of the Pioneer Jubilee.

GENERAL CHURCH NEWS.

Elder M. F. Cowley will attend the Mutual Improvement conference of the Union stake on Sunday next.

The home missionaries of the Salt Lake Stake of Zion held what will likely be their final meeting under present conditions last night in the B. Y. Memorial hall. The meeting was well attended and remarks of a reminiscent character were made by Elders C. W. Penrose, H. P. Richards, John T. Cairns, David McKee, President Augustus M. Cannon and others. The affair was in the nature of a farewell gathering and those present were urged to be just as diligent in the performance of their duties as the new stakes as they had been while laboring in the stake now about to be dissolved.

Elder W. W. Cluff, a veteran Church worker of Summit stake, was in Salt Lake today.

RIECE MUST ANSWER.

One of Bentler's Murderers is Held to The District Court.

The preliminary hearing of John Rice on the charge of murdering Fred Bentler, was concluded in Judge Diehl's court late yesterday, and as previously intimated in this paper, he was held to await the action of the district court on the charge of murder in the first degree.

The most damaging evidence against Rice, was that given by G. W. Muncy, as published in last evening's "News." Muncy was a party to the crime and made a full and complete confession to Sheriff Emery several weeks ago. On the stand yesterday he repeated his story and gave a clear convincing account of Rice's part in the murder.

The case against Abe Hunter, the other defendant, will be taken up immediately. The testimony will be practically the same as in the Rice hearing.

Amusements

The popular actress, Miss Florence Roberts, who secured so heavily on her previous visits to this city, comes back tonight to commence an engagement of four performances. The opening bill will be "The Frisky Mrs. Johnson."

SOCIAL AND PERSONAL.

Mrs. Emma Ellerbeck and her daughter, Mrs. T. D. Lewis, entertained delightfully at cards this afternoon.

Mrs. Thomas Kearns is expected home the latter part of the week.

Mrs. A. W. McCue and her cousin, Mrs. Ward, were hostesses at a pleasant afternoon affair yesterday, about 60 guests being present.

Mrs. A. E. Walker entertained yesterday in honor of Miss June McIntyre. Mrs. George Y. Wallace returned yesterday from St. Louis.

Dr. and Mrs. F. A. Vincent entertained in formally at their home last night.

Miss June McIntyre was guest of honor at a delightful Kensington given Monday by Mrs. W. L. Nicol.

The ladies of the McKean Relief corps gave an enjoyable "43" party at the McKean hall yesterday, about 75 being present. The prizes were won by Mrs. Charles Van Alstine and Mrs. H. H. Ren.

The members of the joint M. I. associations of the Twenty-second ward, gave a leap-year ball in the ward hall tonight. All friends cordially invited.

Mrs. W. W. Ritter entertained the members of the Orpheus club and their ladies last night at her home, the affair being a delightful one in all details.

Dr. and Mrs. Proulx will entertain at dinner tonight.

Mrs. E. V. Silver was hostess at an informal tea this afternoon.

WINTER WASH A GREAT SUCCESS.

County Fruit Tree Inspector Sorenson Endorses the New Method Of Preparation.

HAS GIVEN IT A THOROUGH TEST

Winter Spraying Destroys Not Only The Insect Itself, But the Egg as Well.

The fruit raisers of Salt Lake county have, no doubt, seen in your paper an account of the new method of preparing the winter wash, formerly called No. 7. As county fruit tree inspector, I thought it best to make a test before recommending it or condemning it. I can say, I have both made and used it, and find it a great success in saving of time and material. If anyone desires to make it, and has any doubt as to how, if he will send word to me, I will call and assist him, free of charge.

Now is the time to commence pruning and winter spraying. As there are no worms or other destructive insects to be seen, some conclude there is no use in spraying. That is where appearances deceive, and people make a great mistake. The insects, though dormant, are still present with us in some form. They get the better of us in the summer, because they are often beyond our reach. Now is our time to get even, as they have to take their medicine, which, if properly applied, will do more effective work than at any other time of the year.

For illustration, if you will take a magnifying glass and examine around the cherry tree buds, or under a pear tree, you will find thousands of eggs will be found, which, in the opening of spring produce ravaging insects to destroy blossoms and fruit. You will also find the pupa of the codling moth larva under the leaf, thereby preventing water spray from reaching them. Every such nest destroyed now will save your orchard from 500 to 1,000 worms in the coming summer.

The great efficacy of winter spraying consists in the fact that it not only destroys any insect you touch, the same as you do with the summer spray, but in winter the spray you can use is of such a nature that it destroys the insect eggs; whereas the summer spray cannot be made strong enough to destroy the eggs. This makes a vast difference between a summer and a winter spray, in favor of the latter. Besides the winter spraying also destroys the sport of fungi, thereby preventing mildew and the decay of fruit.

One objection to the winter spray has been the excessive time and labor consumed in preparing it. This objection is now overcome by the new method of preparation. The winter spray prepared by this new method, should be used by everybody having trees or bushes, as there is no spray to compare with it for general efficiency.

Formula No. 5, lime, sulphur and salt mixture.

The new way to make it is: With a gallon and a half of boiling water make a paste of 10 pounds flowers of sulphur, then with six gallons boiling water slack 20 pounds of fresh lime in a strong barrel, stir with a hoe a minute, now pour in your sulphur paste; cover quickly with an old blanket and a tub up side under the barrel; let it cook for 10 minutes; now stir, so lime don't burn, cover quickly, let stand 10 minutes; dissolve seven and one half pounds of coarse salt with two gallons boiling water; when dissolved put into barrel, stir, let stand 10 minutes; now fill barrel with hot water to make 30 gallons. This is the best of all sprays, as it kills everything, but it can only be used in winter when trees are dormant; but there is no spray to compare with it for efficiency.

Respectfully, JOHN P. SORENSON, Inspector of Pests, Salt Lake County, Feb. 24, 1904.

CHURCH NOTICES.

Attention, Ward Missionaries! Please take notice that the proposed division of the Salt Lake stake does not in any way release you from the labor to which you have been called in your respective wards, and you are earnestly urged to diligently continue your efforts to further the missionary work entrusted to your care until honorably released by the same authority that called you. Respectfully, STAKE SUPT., Y. M. M. I. A.

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency to pneumonia. For sale by all druggists.

Catarth.

Called an American disease, is cured by an American medicine, originated and prepared in the most catarrhal of American countries.

That medicine is Hood's Sarsaparilla. It cures radically and permanently, in that it removes the cause, cleansing the blood of scrofulous and all other impurities. It overcomes all the effects of catarrh, too, and builds up the whole system.

Cured Cancer.

Mr. W. W. Prickett, Smithfield, Ill., writes, Sept. 10th, 1901: "I had been suffering several years with a cancer on my face, which gave me great annoyance and unbearable itching. I was using Ballard's Snow Liniment for a sore leg, and through an accident, I rubbed some of the liniment on the cancer, and it gave me almost instant relief. I decided to continue to use the liniment on the cancer. In a short time the cancer came out, my face healed up and the cancer entirely disappeared. I have implicit faith in the merits of this preparation, and it cannot be too highly recommended." 25c. 50c and \$1.00. For sale by Z. C. M. I. Drug Dept.
