

# MINING, BUSINESS AND STOCKS

## BUSINESS LIGHT ON EXCHANGE.

May Day and the New York Bonanza Were the Most Active Stocks.

## THE LATTER MOVES UP AGAIN.

No One Wanted Ontario—No Call for The Dals—Closing Quotations and Sales.

Business was not very brisk on the floor of the Mining Exchange today, but prices, with a few exceptions, maintained a good level. May Day was the first stock sold, the initial lot going at 25 cents. This was followed by others going at a slight reduction, but a recovery came on the open board. Silver Shield went at 36 and Butler-Liberal remained firm with sales marked up at 13 1/2 cents. New York Bonanza displayed considerable vitality and the stock closed several points higher, it selling up to 52 cents. None of the other Park City stock participated in the trading, and all the Dals were weak in the bidding. Ontario, offered at \$3.50, received no response, and no sales of Nevada stocks were reported. The closing quotations and sales were as follows:

**MADE BIG SUCCESS.**  
On investment of \$70, Ogdenites Will Draw Down \$1,000.

W. J. Dalmore, the well known Ogden man, was in the city yesterday afternoon. Mr. Dalmore was among the fortunate ones who got in on the 22nd issue of the Standard claim at Goldfield. Out of an investment of about \$70, Mr. Dalmore says the shareholders will draw about \$1,000. Up to date each shareholder has received \$500 in dividends, and it is expected at least \$200 more will be received.

The company, which was organized shortly after the lease was acquired, has secured other properties and indications are favorable for another big success.

Mr. Dalmore expects to leave for the gold camp sometime next week.

### MANY HARDSHIPS

Being Experienced by Gold Hunters Crossing Mojave Desert.

The Mojave desert between Mojave and Keeler is said to be the scene of much trial and tribulation for those who are following that route to the section of the country in the pursuit of fortune, says the Tonopah Bonanza. The road is said to be thickly lined with every sort and description of conveyance imaginable, and as far as the eyes can reach, one continuous line of fortune hunters can be seen. The section of the country is said to be thickly populated, the few living along the trail making a scanty living by supplying to travelers their change of horses. The cost of all necessities have materially advanced since the great stampede commenced, and bread is now selling at 60 cents a loaf. Meat costs from 75 cents to \$1, and it costs 10 cents a head to water stock.

The recent heavy storms have wrought much hardship upon travelers by that route, and the roads are in many places impassable for even light wagons. Heavier wagons are constantly being mired to the hubs, and the number of dead horses by the roadside testify to the scarcity of feed and bad conditions of travel.

Two carloads of burros recently left Arizona to come to this section by the route indicated, and it is doubtful if

### INDUSTRIALS

#### MADE ADVANCES

Heavy Sales of U. S. Steel Preferred and Common at Higher Figures.

### RAILROADS ACTED QUEERLY.

Some Sold Below Yesterday, Showed Strength, Went Ahead, and Then Fell Back.

New York, April 6.—Industrial stocks took a prominent place in the opening trading today and showed some striking advances. There were running sales of 8,000 shares of United States Steel preferred at 100 1/2 and 100 3/4, compared with 99 1/2 last night, and the common rose an extreme half on the transfer of 15,000 shares. Car made a gain of 1 1/2 and Locomotive, Lead, Federal Mining preferred and Brooklyn Transit about a point.

Buyer speculation in a number of specialties and ordinarily inactive railroads that have been for some time features of interest failed at first to stimulate the recognized standard stocks, and some of them actually sold below yesterday's closing, after the effect of the opening rise wore off. It was not until St. Paul was taken in hand and marked up 3 points that some other railroads began to show strength. Union Pacific was rapidly lifted a point, American Smelting preferred, St. Joe and Grand Island rose 3/4, and Federal Mining 1/2. There was a halt in the buying reaction running 1 1/2 in Smelting, 1 1/2 in Atlantic Coast Line and 1 in Missouri Pacific, Lead and Smelting preferred. The quick subsidence of offerings at the lower level led to an early recovery. United States Steel preferred showed renewed vigor on the rebound to 100 1/2.

Bonds were steady at noon.

An almost insatiable demand was manifested for the following on Salt Lake, which advanced it to its record figure of 10 1/2 by 1 o'clock. Except for the interest, attached to the growing strength and importance of the industrial and specialties as market factors little developed that attracted attention. A number of medium and low priced railroads improved materially, but the higher priced leaders held only steady at the noon level. Federal Mining got up 5/8, St. Joseph & Grand Island first preferred 4, Locomotive 3, General Electric and C. A. preferred 3/4 and Texas and Westinghouse Electric and Toledo, St. Louis & Western 2.

A sharp fractional reaction accompanied a drop in New York Central to over a point below last night, but the dullness of the market, and the fact that the market was a rally, United States Steel preferred held relatively firm and rose again to 100 1/2.

Profit taking affected prices in the final hour in spite of the strong advance of 3/4 in Atchafalpa and 1 1/2 in Canadian Pacific. St. Paul, St. Louis & Western, and Illinois Central 3/4. Federal Mining 1/2, United States Rubber preferred 1/2 and Kansas & Texas Com. and Rubber Goods preferred 1/2. Tennessee Coal was forced back to more than a point under the heavy selling, the general reaction ran to a liberal fraction. A number of specialties lost a point or more and Union Pacific, which was the closing was very active and irregular.
