

## Salt Lake's Premier Residence Section

HE nearest approach to the ideal possible to obtain. Cement sidewalks, curbs and gutters, petrolithic paved streets which are noiseless, mudless and dustless, *twelve inch* water mains, connected with both City Creek and Emigration Canyon water. Sewers throughout property. A view that surpasses any thing in the known world above the smoke and overlooking the city and industries of a commonwealth and yet only ten minutes from the Post Office.
