

THREE VICTIMS OF ASPHYXIATION.

The Son is Dead, Brother-in-Law
Dying, the Mother is in the
Hospital Seriously Ill.

SOMEHOW GAS WAS TURNED ON.

Accident Occurred to a Spanish Family at the International Hotel, San Francisco.

San Francisco, Aug. 26.—One dead, another dying and a third seriously ill from the effects of gas is the record of an asphyxiation case that developed in a room at the International hotel on Kearney street this morning.

The victim of the deadly fumes, whose body now lies at the morgue, was Casimiro Chavez, a lad 12 years of age.

Solomon Chavez, the brother-in-law of the dead boy, is at the hospital with the chances against his recovery.

Mrs. Casimiro Chavez, who narrowly escaped asphyxiation, is at the hotel, under a physician's care. Only one of the calamity that has befallen her.

Chavez lives at Albuquerque, N. M., and he came with his wife and her brother on a business trip to this city last Sunday.

The trio retired early last night and all appeared to be in the best of spirits. At 10 o'clock this morning the odor of gas escaping from the room attracted attention and the proprietor entered the room. The transom was partly open and a window opening on a light was open fully two feet.

On the floor lay the dead body of the lad, and near him Mrs. Chavez tossed feverishly. Chavez lay partly on the bed, and from his posture it is evident that he rose as if to escape from the room, but fell back overcome.

The gas fixture in the room was found to be in perfect condition and after hard work this fact seems to indicate that the gas was turned on after the flame was extinguished, whether by Chavez himself or the dead boy is unknown.

Mrs. Chavez says she was the first to retire, and that the last she heard was her husband and brother conversing together.

"This was an accident," said Mrs. Chavez in Spanish through an interpreter. "We are not used to the gas, and perhaps my husband turned the gas on again after having turned it off. He had no reason to commit suicide that I know of."

MENOTTI GARIBALDI.

His Burial Was a Most Impressive Spectacle.

Rome, Aug. 26.—The burial of Menotti Garibaldi took place today and was a most impressive spectacle. During the night the body was carried on the gun carriage on which it left Rome last night, escorted by cavalry across the Campagna Romana. Amid the darkness would appear from time to time groups of peasants carrying torches, lanterns and characteristic lamps with three wicks, who knelt along the road and called out, "God to bless the remains of their benefactor. A group of cowboys of the Campagna Romana, mounted on prairie ponies and carrying long iron-tipped lances for guiding the cortege, joined the escort around the coffin.

As the dawn burst over the Campagna, a group of horsemen came dashing up from the opposite direction. Their leader, who at first was not recognized, approached the gun carriage and laid an oak branch upon the coffin, at the same time raising his right arm in salute. It was Garibaldi's son, Menotti.

Arriving at Curzio Menotti's estate, the coffin was lowered into the grave by the dead man's relatives and friends, including D'Annunzio, who also delivered a brief and touching eulogy. The earth was then filled in. The grave lies in the midst of a desolate plain.

MUST TAKE THE OATH.

Heads of Divisions in the Government Printing Office.

Washington, Aug. 27.—An order from Public Printer Palmer was issued to the heads of divisions in the government printing office just before the hour for closing today, to appear before a notary public in the office and take the oath of allegiance to the United States, and to be subscribed to by clerks under the civil service laws.

Mr. Palmer said tonight he had issued the order at the suggestion of a government official, and that it was intended to give. He said that its object was to place the per diem employees in the same attitude toward the government as that of the clerks on annual salaries, who have taken the oath of office. He said that every employee of the office would be affected by the order, but to prevent loss of time and confusion the chiefs of divisions were asked to take it today, and that eventually the entire force would have the oath administered.

The issuance of the order created considerable surprise among the employees of the office, especially among members of the Bookbinders' union, who believe it has indirectly a bearing on the issues growing out of the case of A. Miller, the assistant foreman of the bindery, who was discharged from the office because he had been expelled from the local Bookbinders' union, but was afterward reinstated at the direction of President Roosevelt.

Will Work Among Lepers.

Syracuse, N. Y., Aug. 26.—Sister Beata of Louisville, Ky., is at the Franciscan convent in this city making preparations to accompany Sister Mary Leonida to the Hawaiian Islands, where they will work among the lepers.

C. R. I. & P. Freight House Burned.

Chicago, Aug. 26.—At midnight fire started in the freight house of the Chicago, Rock Island & Pacific railroad, situated at Folk and Sherman streets. The flames had secured quite a start when discovered, and by the time the first engine arrived the building, which is 750 feet long and two stories high, was a mass of flames. The firemen from the first had little hope of saving the structure or any of its contents. The loss was principally on outgoing freight and is estimated at \$500,000.

GOLD STANDARD FOR CHINA.

Report of French Commission Indorses the Idea.

Paris, Aug. 26.—The report of the French commission appointed to confer with the United States monetary exchange commissioners has been delivered to Ambassador Barere. It contains a note from Foreign Minister Del Casse saying France is not prepared to express binding conclusions until she has consulted with the powers.

The report indicates the principle of a gold standard for China and other silver-using countries, but it points out

**Renews the hair,
makes new again, gives
new life. This is
what Hall's Hair
Renewer does. An
elegant dressing, keeps
the scalp clean and
healthy.**

Sold for 50 years. If your druggist cannot supply you, send \$1.00 to
R. P. HALL & CO., NASHUA, N. H.

that the plan is possible only under judicious control of the coinage by the government and the creation of an adequate gold reserve.

It favors a coinage ratio for the silver, fixing the face value of silver slightly above its bullion value, similar to the American system in the Philippines. The French commission makes reservations upon the proposed regular purchases of silver, on the ground that it is impossible to foresee the country's need for subsidiary and colonial coinages.

Semi-official advice from Russia indicate that the commission appointed by Finance Minister Witte has made a study conclusion.

The French and Russians considered it preferable to establish a uniform system in China by beginning on a silver basis and afterward raising it to a fixed gold value, but to begin on a gold standard immediately.

CLOUDBURSTS IN IOWA.

Two at Council Bluffs Do Great Damage.

Council Bluffs, Ia., Aug. 26.—Two cloudbursts, one at 5:30 this afternoon and the other at 9:30 tonight, have destroyed hundreds of thousands of dollars' worth of property in this city. The storm at 9:30 turned the streets of the city into torrents, and hundreds of families in the lower districts of the city were removed from their homes with difficulty. Many business houses were flooded by the first storm and the damage to stocks will amount to thousands.

The storm at 9:30 raised the water higher than the one earlier in the evening and many stocks that were not touched by the first flood have been badly damaged, so that the loss in this city alone is now estimated at half a million dollars.

The rainfall here for the 24 hours ending at midnight will amount to six inches.

Omaha reported 4.75 inches at noon, with all streams out of their banks and rain still falling.

The Northwestern railroad is not running a train in or out of the city and reports washouts between Ida Grove and Battle Creek, Ia., and between Mapleton and Castana, Ia. The Rock Island and Milwaukee are both tied up and not running trains in or out of this city. Both roads have had washouts a short distance east of this city.

The Northwestern has reports from its southwestern Iowa points, showing that the fall of rain has been the heaviest ever known over so large an area, and that the damage to the corn crop cannot be estimated.

Street car traffic between Council Bluffs and Omaha has been suspended for six hours.

"LAND BILL VICTORY."

J. F. Finnerty of Irish League of America Issues an Address.

Chicago, Aug. 26.—John F. Finnerty, president of the Irish League of America, has issued an address regarding the "land bill victory," in which he says:

"Ireland in the passage of the land purchase bill, has achieved a brilliant and also a substantial victory, but the greater victory is yet to be won. As the commercial reforms of 1890 preceded the independent Irish parliament of 1902, so does the land purchase bill stand as the precursor of the restoration of that parliament (with up-to-date reforms), so infamously destroyed by the present British legislature."

"Ireland is the Irish nation in Dublin or some other great city of the island. Total separation would call for an Irish fleet, an Irish army, an Irish navy, and at least one powerful ally like France, Germany or America. I will leave to the judgment of my fellow countrymen."

Answer It Honestly.

Are the Statements of Salt Lake City Citizens Not More Reliable Than Those of Utter Strangers.

This is a vital question. It is fraught with interest to Salt Lake City.

It permits of only one answer. It cannot be evaded or ignored. A Salt Lake City citizen speaks here. Speaks for the welfare of Salt Lake City.

A citizen's statement is reliable. An utter stranger's doubtful. Home proof is the best proof.

Edgar S. Hoagley, retired, of 4 Goddard Court, says: "Anyone who has kidney complaint can easily tell it for pain across the back and through the kidneys is so marked that it cannot be mistaken. For twenty years or more I had backache, some of the attacks being so acute that I required assistance to get out of bed. To stoop or do anything which brought a strain on the muscles of the back when the attacks were at their height was utterly impossible, and when trouble with the kidney secretions set in life to me was not a bed of roses. When I procured Doan's Kidney Pills at the F. L. Hill Drug Co.'s store I had been suffering intensely for a week. My surprise was much more easily imagined than expressed when a few doses brought relief and a continuation of the treatment stopped a very violent attack."

For sale by all dealers, price 25 cents. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

VESUVIUS HAS A BRAND NEW MOUTH

One Opened Up a Thousand Feet
Below the Central Cone,
Belching Lava.

ERUPTION CAVE NO WARNING.

No Earthquake, Detonation, or Rain of
Ashes, Nothing but a Stream of
Lava and Red Hot Stones.

Naples, Aug. 26.—The people of Naples and the environs witnessed a remarkable spectacle at noon today. One thousand feet below the central cone of Vesuvius the volcano opened like a huge mouth, out of which belched a fiery stream of lava, which ran down the side of the mountain and at first seemed to menace the observatory. This building, however, is protected in the direction of the stream by a mound of lava 20 feet high, which was thrown out during the eruptions of 1895 and 1900. The eruption occurred without any warning whatever. There was no earthquake, detonation, or rain of ashes, nothing but a clear stream of lava and red hot stones which were thrown to a height of 700 feet, producing an extremely beautiful effect seen from Naples. The stream of lava, which is 15 feet broad at 11 o'clock had covered a distance of 2,700 feet. It deviated later from the direction of the observatory, which is no longer menaced. The only danger is for the new electric tramway up the volcano, which, however, has thus far not been touched.

The eruption already seems to be decreasing, and it is hoped that no damage will result from it. The spectators far enough away not to be frightened, stood entranced at the spectacle, but those nearer to the volcano were seized by panic when the eruption began and rushed from the area around Vesuvius, in order to reassure the peasants and superstitious men who are believed to be in the vicinity of the volcano. The alarm in these villages was somewhat quieted by the fact that the eruption was declared that there was no danger.

The chief of police of Naples has gone personally to take a tour of the area around Vesuvius, in order to reassure the peasants and superstitious men who are believed to be in the vicinity of the volcano. The alarm in these villages was somewhat quieted by the fact that the eruption was declared that there was no danger.

secretary of the Union League club committee, which had the matter in charge. This marked his start in politics. Upon the enactment of a law for the federal supervision of elections he was the first appointee as supervisor in this city. He continued in this post until 1892, when the bill was repealed. It was Davenport's custom to make arrests on the night before election and his prisoners, men of all sorts, were thrown into a cage which he had built in a room of the general postoffice. The use of the cage brought his builder much notoriety.

Davenport, who was at one time accused of a wealthy man, is said to have died in comparative poverty.

CONGRESS OF ACTUARIES.

Already Delegates Are Arriving From Europe.

New York, Aug. 27.—Delegates to the International Congress of Actuaries, which will be held here next week, are arriving from Europe. Among them are government representatives and officers of foreign life insurance companies, whose main object is to study American life insurance methods.

Secy. Cuttelyou of the department of commerce and labor, who is honorary president of the congress, will welcome the foreign delegates on behalf of the government.

Matters to be discussed concern the death rate in various countries in times of war and peace, the scientific and mathematical side of life insurance, old age pensions and workmen's insurance.

Rev. Geo. Leighton Dead.

Wilkesbarre, Pa., Aug. 27.—Rev. Geo. Leighton is dead at his home in Tunkahannock, at the age of 82. In her still five years ago for a widow's share of the estate, a woman claimed Rev. Leighton married her in a small town in upper New York state near Rouse Point. She had no marriage certificate.

The case hinged on Mr. Leighton's ability to prove the marriage. He said he had been married several times, but he could not recollect either names of wives or had no record of the wedding.

DEATH FROM YELLOW FEVER.

Fourteen a Day at Linares, Mexico.

Laredo, Tex., Aug. 26.—A letter was received here today from a responsible resident of Linares, Mex., in which he states that yellow fever exists at that place and that the death rate is now 14 a day.

This information was given to the quarantine officials, both federal and of the state of Texas, and they will take the matter up for investigation at once.

Linares is a small town about three hours' ride from Monterey. The letter further said that people are fleeing from there in all directions as fast as they can get out.

Dr. H. J. Hamilton, United States marine hospital surgeon, received an official notice from the governor of Nuevo Leon today saying that a double quarantine had been placed between Linares and Monterey; that is, two detention camps between those cities, established and passengers from the infected points must run the gauntlet of being detained five days each in both places.

Dr. Hamilton says there are many cases of yellow fever at Linares and Victoria, and that it is increasing at those two points.

WORK OF DEACONESSES.

Methodist Bishops Holding Conference in Relation to It.

New York, Aug. 27.—Five bishops of the M. E. church and over 100 deaconesses of the same denomination are holding a conference at Ocean Grove, N. J., in relation to the work of the deaconesses. The bishops present are E. G. Andrews of New York, Charles E. Fowler of Buffalo, John M. Walden of Cincinnati, J. A. Goodsell of St. Louis and James Fitzgerald. The conference will make to the general conference recommendations as to general improvements to be made in the work of the deaconesses.

HALF THE CREW KILLED.

Of the Bark P. Wikstrom by Beri-Beri.

New York, Aug. 27.—Beri-beri killed half the crew, including the master, of the Swedish bark P. Wikstrom, Jr., just towed here by the French steamer Canaries, says a letter to the Herald from Port of Spain, Trinidad, under date of Aug. 26. The great ship was in the ravages of the disease, are in the hospital.

Chittanooga, from which the Wikstrom sailed, is a place of orders, called by deep sea sailors "The sick bay." The ship was the first to be towed to place in all the east. The ship left the Indian ports April 3 last, and managed to keep in fairly good health until the Wikstrom passed St. Johna. The carpenter was the first to die and his body was committed to the sea. Captain, first mate, cook and sailor followed early in July and the remainder of the crew were too feeble from disease to work the bark.

Drifting helplessly and flying signals of distress the Wikstrom was sighted Aug. 10 by the Canaries, bound from St. Johna to New York. The Canaries signalled but got no response. A boat was lowered and the horrible plight of the Wikstrom's crew was disclosed. After putting aboard fresh food and water the French boat towed it to Trinidad, the helpless vessel and towed it to Trinidad.

CONTRACTOR ROBBED.

Hadley Morrison Relieved of \$1,800 in Greenbacks.

Bozeman, Mont., Aug. 26.—Hadley Morrison, a contractor on the Montana railway, while on his way to this city from Lombard, where his construction crews are at work, was held up by two highwaymen early this morning and relieved of \$1,800 in greenbacks. Morrison is some little to settle that day in Bozeman and he had not proceeded far toward the depot before two men pounced upon him from a bush. Morrison tried to draw his gun but was hit over the head and badly bruised. There is no clue to the robbers.

J. I. DAVENPORT DEAD.

Was Once a Power in N. Y. Republican Politics.

New York, Aug. 27.—John I. Davenport, formerly United States supervisor of elections, whose death has just occurred at Stamford, Conn., was once a power in Republican politics in this city. After serving through the Civil war as a newspaper correspondent at Washington.

In 1868, when Congress appointed a committee to investigate election frauds in New York, Davenport was made the

AN OLD SAYING.

Showing How Cause and Effect Are Never Far Removed.

It is an old saying, "Where there's honey there's bees"—not less true is one which science has coined more recently, "Where there's trouble there's remedy"—and to push the inference still further we may truly say, "Where there's Dandruff there's cure." Dandruff cured Newbro's Herpicide has been at work.

The reason Herpicide's isolation as a genuine cure for Dandruff lies in the fact that it attacks and destroys the root of the whole trouble—a parasite germ which feeds upon the material which nourishes the hair follicle.

Other so-called remedies are not directed at this true cause of the disease. Accept substitute, there is none. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. For sale by Z. C. M. L. Drug Dept.
