tax for this purpose. If it does not we recommend that the legislature be asked to so amond the charter,

be asked to so amond the beginsture be asked to so amond the charter, as to grant this power. There is another subject connected with the water works to which we wish to call your attention. When the first ordinance was passed regu-lating the water supply, all persons taking the water supply, all persons taking the water were required to pay for the service pipe from the centre of the street to their pre-mises. Subsequently the ordinance was changed and water takers were only required to take the water from the curbatone. We think, in justice to those who paid from the centre of the street that they should be reimbursed, and all persons using the water made as near equal as possible. To accomplish this we present for your consideration the accompanying resolution. Claims and Appropriations-A Rockwood, L Fatt, F M Lyman. Revenue-F M Lyman, D Peery, James Sharp.
