

DESERET EVENING NEWS

THE SEMI-WEEKLY NEWS

THE GREAT COUNTRY PAPER OF THE WEST

Is Issued Mondays and Thursdays and contains all the cream of the Daily and Saturday News.

LOCAL BRIEFS.

Mrs. Lowe and daughter of Bangor, Maine, are guests at the Kenyon and are taking in the sights of the City of Zion.

There will be a meeting April 23 next at Blackfoot, Idaho, of the Gessas creditors, when the bankrupt will be examined, and claims allowed.

Local contractors report a great deal of small business in prospect, and say there is no reason why any good mechanic should be out of work.

Contractor P. J. Moran has resumed work on east South Temple street, and as soon as the grading is done, he will begin laying concrete for the asphalt.

Through travel going west is very light, but going the other way it is very heavy. Eastbound travelers are finding it difficult to secure Pullman accommodations.

The warehouse of the Scott-Strevell hardware company was broken into Monday night and a quantity of giant powder was taken. The stuff was not missed until yesterday, when the master was reported to the police.

The Utah Fire Clay company has a \$2,000 contract to supply 65,000 vitrified brick for the roadways around the Federal building. Samples were sent on to the supervising architect's office at Washington and were approved after the usual test.

The police have been informed that Callahan's book store on Second South street has been burglarized and about 100 fountain pens stolen. Entrance was made through a rear door. No cash was taken and the thieves seemed to be greatly in need of pens.

The officer who is to inspect the National Guard next week is Lt. Col. Frank D. Elmer of the Twenty-ninth Infantry at Fort Douglas instead of Lieut.-Col. West of Major-General Summer's staff at Oklahoma. The inspection begins Monday evening next.

Quite a crowd of people went out to Saltair last evening, on the occasion of the dance given by Hansen's orchestra. Each purchaser of a railroad ticket was given a chance for one of two session tickets, and the latter were drawn by G. F. Gray and James Forsythe.

Local brick makers report all the yards running, and putting out a daily production of 250,000 brick, so that there will be no shortage of the article this spring. An attempt will be made to ship brick into California, if the San Pedro will give a rate that will enable the Salt Lake manufacturers to enter the market.

The Utah Light & Railway company will remove the poles from the center of State and Temple streets, and new changes being made are completed there and erect ornamental metallic poles at the sides of the streets, from which cross wires will hold up the trolley wires. This will leave the street free from all unsightly encumbrances.

Local union musicians claim that the Ogden band men have no just cause for growling because the latter failed to go to Los Angeles with the Woodmen and that the Ogden musicians had no call to come into the Salt Lake jurisdiction and bid for business anyway. The Fort Douglas band wanted \$4 per man per day, for the Hall. Held was willing to take the job for \$3.

Attorney-General Breeden is in command of the state prison, who want clemency extended to them. Joseph E. Wilkinson, paroled, sentenced from Sevier county, to two years' imprisonment, Sept. 28, 1904; John T. Indals, paroled, sentenced from Logan to one year's imprisonment, Nov. 18, 1904; William Brown, pardoned, sentenced from Salt Lake, for house breaking, to 10 months' imprisonment, Sept. 5, 1904.

The funeral of the late Chester Nason was held yesterday afternoon, from the residence of his uncle, W. H. Battaroff, 1207 east South Temple street. Dead Edith of St. Mary's officiating. The pallbearers were F. G. Schramm, Henry L. and McCormick, Ernest Bamberger, C. Williams and James Conlisk of Ogden. The remains were left for the present in the Masonic vault at Mt. Olivet, preparatory to removal to Wichita, Kansas, for final interment.

Zion's Savings Bank and Trust Company was organized in 1873, and now opens an average of more than 10 new accounts every day. We want YOUR business. Jas. P. Smith, President; George M. Cannon, Cashier.

C. S. MARTIN COAL CO.
Rock Springs, Cumberland, Castle Gate, and Clear Creek lump, nut and slack.

Why be pestered by all the ills of a party line when you can get perfect individual service on the Independent for two dollars a month? Answer me that.

SHOSHONE PROJECT.

That in Wyoming Being Pushed With All Possible Speed.

Special to the "News."

Washington, D. C., April 14.—Numerous complaints have been received by the director of the geological survey, that the illegal sale of liquors on lands withdrawn for the Minidoka irrigation project in Idaho is seriously interfering with the work.

A short time ago the secretary of the interior issued a circular warning setting forth the personal responsibility of the sale of liquors on their homestead filings that they would lose the same. It is probable that the department of justice will be called upon to enforce the law, and that the general land office will refuse to issue patents to entrants who have accorded saloon keepers the use of their land.

Mr. H. Newell, engineer in charge of all railroad work, in speaking of the shoshone Irrigation project in Wyoming, said: "On account of the favorable weather which prevailed during the month of March, excellent

progress was made on the preliminary work upon that project. The diamond drift plan has kept constantly at work on the dam site. Tunnel No. 2 on the road through Shoshone canyon has been completed. This tunnel is 89 feet long, with cross sections 9 feet by 12 feet, and penetrating hard granite. An average force of 27 men was employed on road grading during the month, and the road up to the dam site is now practically completed."

BUTCHERS AND GROCERS.

They Take Organizational Action for Seven and Sunday Closing.

Seven o'clock and Sunday closing, and enforcement of the license ordinances in regard to peddlers, were the demands formulated at a meeting of the Retail Butchers and Grocers' Association last night. The seven o'clock closing, Sunday closing, members will be labored with by the association, while the chief of police and the treasurer will be urged to take action in regard to the licenses.

At the meeting several grocers called attention to the fact that the license for peddlers provided that they carry a minimum amount of goods, and that they display the number of their license both on their wagon and on their hats, and that these provisions were being disregarded constantly. The peddlers were spoken of as a nuisance and a source of illegitimate competition, as they paid but little for their privileges, and often were able to undercut the legitimate merchants by giving short weight.

The association has rented as permanent headquarters the hall of the Woodsman of the World, at 21 west First South street, and will meet regularly after this week on Tuesday evenings.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mother buy it for groups of children, railroad men buy it for severe coughs and elderly people buy it for colds," says Mrs. Elton, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over all other cold and chronic remedies. There is no question but that this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures quickly. Sold by all druggists."

EXHIBIT OF UTAH FRUIT.

Portland Fair Commission May Ship Carload from Grand County.

At a meeting of the Lewis and Clark commission yesterday afternoon, A. H. Snow and Morris Peterson of the State Horticultural society submitted a proposal to ship a carload of Utah fruit to Portland for free distribution on Utah day. Utah day comes on Aug. 24, at the end of a session of the Irrigation congress, and for that reason an advantageous display of Utah fruits could then be made. As the northern country would not be able to furnish the display, it was proposed that Grand county furnish the carload, Moab being suggested as the point of shipment.

Mr. Peterson is from Moab and he states that the fruit in Grand county is fully worthy of being displayed alongside of the best grown in California and Oregon, or any fruit raising state. It is probable that the proposition will be accepted, although at present it is under advisement.

A telegram was prepared and sent to Manager Clawson, authorizing him to make contracts for the Utah building, and to rush it through for the reception of exhibits by May 25.

Fred J. Kiesel of Ogden submitted a proposal to send the Ogden Tabernacle choir to Portland to participate in the celebration of Utah day.

Charles Sacco will have to accompany an officer back to Chicago to stand trial for attempting to murder a policeman in that city some time ago. His petition for a writ of habeas corpus was denied by Judge Ritchie late yesterday afternoon and he was remanded to the custody of Chief of Police Lynch to await the arrival of the Chicago officer. Sacco's attorneys claim that he was arrested without warrant and that the complainant against him was void for the reason that it was not sworn to before a committing magistrate as required by law and did not contain facts sufficient to show that he was a fugitive from justice. These contentions were not sustained by Judge Ritchie, who denied the writ.

Serofita, salt rheum, erysipelas and distressing eruptive diseases yield quickly and permanently to the cleansing, purifying power of Burdock Root Bitters.

FIDDLER HAD TO PAY.

Cost Skelton Just Five Dollars for Threshing a Brother Musician.

Prof. George E. Skelton, the violinist, was mulcted five whole notes in yesterday afternoon's police court for having ruffled the bosom of a brother musician's pants with a neatly executed pedal obbligato in staccato, and made him resemble a chord in the diminished seventh, dismantled by a half storm.

He paid the fine cheerfully, remarking that he had made a bonafide offer to the complainant at the time of the musical cloudburst, of four guineas, Bank of England notes, if he would stand up to before a committing magistrate as re-

quired by law and did not contain facts sufficient to show that he was a fugitive from justice. These contentions were not sustained by Judge Ritchie, who denied the writ.

Serofita, salt rheum, erysipelas and distressing eruptive diseases yield quickly and permanently to the cleansing, purifying power of Burdock Root Bitters.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is therefore, a bold statement to make, but Chamberlain's Pain Balm, I believe, enjoys an extensive use and may be the best remedy for the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. What a relief Pain Balm affords such quick relief and costs but a trifle! For sale by all druggists.

A Warning.

To feel tired after exertion is one thing; to feel tired before is another. Don't say the latter is laziness—it isn't, but it's a sign that the system lacks vitality, is running down, and needs the tonic effect of Hood's Saraparilla.

It's a warning, too, and sufferers should begin taking Hood's at once.

BLOOD ATONEMENT.

Subject of Address Last Night by W. H. Paden.

Rev. Dr. W. H. Paden preached last evening, in the revival services at the First Methodist church, on "Real Blood Atonement." before a large congregation. His text was from John 1: 46: "This is He that came by water and by blood." The speaker said in part:

John, the beloved, did not for one moment overlook the inspiration to be found in the sinless life of Jesus. Nor may we. The white dove of purity which abode upon Him bore constant witness that He was indeed the Lamb of God, who took not sin upon Him, nor any spot upon the waters of Jordan.

He could not be satisfied with saying of his Master, "In Him was no sin." He must also tell of his willingness to sacrifice for such as were saturated with sin. He must tell of his sacrificial love as well as of his unapproachable holiness. And so must we. We need a loving Savior as much, yet even more, than we need a strict example. To see such a Savior, come now, look beyond Jesus, the servant with His towel and basin, to Jesus the crucified with His bleeding body and His broken heart. Not by water only did He save and assure sinners, but by water and blood.

This Day In History.

APRIL 19th.

WYOMING'S SHEEP TAX.

State Levies One of Three Cents a Head on Transient Herds.

John C. Mackay has returned from attendance on the organization of the Wyoming Sheep association at Cheyenne, and says that the state has levied a tax of 3 cents a head on sheep from other states pasturing within its borders, in addition to the regular tax imposed on foreign sheep.

Delegates from 12 states will be with Gov. C. M. D. Smith, who will be urged to take action in regard to the license.
