Romances of Mining Days.

overcoat, light or heavy, as the occa-sion requires. It must not, however, sels cleared with wheat, while this JAMES THOMSON. So many misconceived notions are be forgotton that just in proportion as year up to this time in September but ntertained about frontier mining owns and the bloodthirsty disposition the garment superimposed upon the ten cargoes have been shipped. ordinary clothes is effective in pro-ducing a sense of warmth, it acts by of details tabulated by Mr. Montpelier, of the inhabitants, says a writer in the from memory scenes that, while they may not counteract this belief, will, to a certain extent, show that romance and tate have a great deal to do with the promulgation of this notion. In 1867 one of the most productive mines discovered near Leadville, Colorgdo, was tound by a Mr. Long, who, hungry, emaciated, and with a large old English iladelphia Press, that I have recalled maciated, and with a large old English evaporation recommences, and the our informant, even if he had th penny in his pocket, "for luck," as he called it, went out shooting for a breakbody is placed in a "cooler" construct- ability. Such general facts would ed on the principle adopted when a seem to convince any mind, given to damp cloth is wrapped round a batter the most moderate calculations, that dish, the vapor passing off, abstracting the wheat market, however gradual in ast. A deer was his first shot; the animal died hard, struggled, kicked up the earth and eventually subsided in a particularly rocky spot. Long hastened to its side, and, instead of a dead deer, the wheat market, however gradual hits movements, must tend upward. the heat, and leaving the contents of the cooler refrigerated. It would have been a great satisfac-tion to have obtained a prediction as The point to make clear is that the overcoat, let it be fashioned and vendiscovered evidences of gold dust to the near future of the market, from ong informed his partner, a Mr. Derone who bears no speculative relations tilated as it may, does not prevent the to the wheat product, but Mr. Mont , and they possessed themselves of cy, and they possessed themselves of the spot and became rich. That was before Leadville had become what it is make the moisture accumulate therein. pelier would only say, that with this array of facts, and to'day's repor from Europe of the increasing firmness -day. Hardly had six months passed. This is proved by the sense of genial when news rehashed, magnified, and made sensational by Eastern journalof the market, he should be surprised if wheat did not advance some dollars warmth felt while the overcoat is worn and the evidences of perspiration, easily perceived under the arms and at ists, went traveling over the country easily perceived under the arms and at that two camblers, notorious characper ton before the 1st of January. Salifornia Patron.

composed of a lady and three men, removed. Moreover, we take off the assaulted them, and, killing them, found coat when we enter a warm house, and n their pockets evidence of a rich gold precisely at the moment when muscu-lar activity is suspended. A very little mine and pre-empted it. Wilbur F. Storey, then in the height of his power consideration will suffice to convince is a journalist, had seen the story. He the common sense thinker that nothing knew Long, examined into the truth of the tale and gave a true version of it. can well be worse managed than this process, both as regards its nature and the time and conditions of its op-A BOY'S LUCK.

eration. It is opposed to all the can-ons of health to allow the clothing to The Eberhardt Silver Mine was disbecome saturated with perspiration, covered in 1868, near Elko, Nevada, by and then to take off the external coverboy who was working for a gaug of ing and suffer rapid cooling by evaporanen entling ties for the Central Pacific Railroad, then in course of construction; while, if it were designed to do this at the worst possible time, prob-ably none worse could be found than on. Elated with his success he dis-losed his secret to a man who was when muscular exercise has been dis-

oreman of the gang. The foreman pre-empted it and sold it, as guardian ontinued. The suggestion we have to offer is of the boy, to an English company of that it would be far better policy to apitalists, for a large sum of money some friends of the youth, who were Germans, became interested in the natter, and found he had been de-tranded of his rightful dues and they instituted suit against the company to make whatever change may be necessary by removing a thin coat and re-placing it by a thicker one when going placing it by a thicker one when going out of doors, and the reverse when coming in. If, instead of wearing overccats, people would wear coats of different thicknesses, according to the people. The statement of others, who est their claim. The company com-romised with them for some \$500,000, and another sensational story came last, was published first in Boston, of weather and conditions generally, they would avoid the danger of cooling by ie kidknapping of a boy by bloodevaporation; the garments saturated ject, is that women seldom fail to pay thirsty cow-boys, who asked a ransom with moisture would be removed, and or him, as he was the owner of a dry off the body instead of on it. We avail themselves of the bankrupt act, believe no inconsiderable proportion they prefer to hold themselves legally venithy silver mine, and what gave additional color to the matter in Masbelieve no inconsiderable proportion of the "colds," attacks of lumbago, achusetts at the time was the death of and even more formidable results of what are popularly called "chills," i immensely wealthy gentleman, who eft his entire property, amounting to may be traced to the practice of wearmillions, to his son, a minor, who was missing for a few days. I believe it ing overcoats which arrest the ordinary process of evaporation, cause the vas through the efforts of a Mr. Bacon lothing within to be saturated with + Boston journalist, that the matter was investigated and the truth proaccumulated perspiration, and are then removed, when rapid cooling takes place. The avoidance of this

peril is to be attained by such change of coats as the conditions require. -THE CAMP BIRD MINE. Some six ago Mr. Ernest Ingersoll

published in Scribner's Monthly a very ong article on Leadville, and I remem er he mentioned the finding of the

Flower Language in Japan. 'Camp Bird Mine'' there by the Galla-

her brothers, two illiterate sons of a Ragrald Isle, but, as he never told In houses wherein resides one or more daughters of a marriageable age an empty flower pot of anornamental cueracter is encircled by a ring and suspended from the window or veranta by three light chains. Now, the Juliets ow they discovered it, and the sensa-ion it produced East subsequently, I fill relate it. These Gallagher brothers, Dan and Michael, were exceptioners, Dan and Michael, while contained by three light change of source, attractive, good security. Men as a rule protected of sevent sevent, and their Romeos as anxious as these say they have not the means at hand. But instead of sevents of some will prevaricate, giving almost superstitions. One day, together they started out with a hope of getting some index by moonlight and other delicate any reason for refusing to lend rathar started out with a hope of getting some for other rands. But filstead of sere-employment, and, in crossing a piece of country contiguous to the silver mine, Dan stopped to the his brogans, or army shoes. "Oh, Mickey, here's luck!" he ex-claimed, picking up a small sized silver on artz.

for a little serious reflection on the subjects of overcoats. Nothing seems area it has five times the papulation of the weather by the addition of an the United States. From California in August and Septution where class statistics have been preserved.
