MOVING ARMY OF UNEMPLOYED

Care and Disposition of Grave Concern to Officials of City.

OGDEN CHAMBER COMMERCE

Assured Fact—Site for Girls' Cottage for State Industrial School—Court Notes.

Ogden, April 3.—Late yesterday afternoon the officers from the depot district were summoned to an employee's house in the freight yards to drive out some unemployed men who had taken possession of a night's meal of food. The call came from Officer Shumaker of the Southern Pacific company and officers Burke, Toot and Wardlaw responded.

Upon arriving upon the scene the officers found H. L. Eaton, Frank Brown, S. McFarlane, Frank Shattley and Pat Kinney in the house and refused to leave when commanded to do so. A small war of words followed the arrival of the officers after which the men left the building. None of the men who are railroad employees, had weapons of any description upon them when searched.

The question of caring for the unemployed and keeping them from the streets is a grave one and is making the officers do a great amount of thinking. There is not a night that passes but that from 20 to 30 men apply at the depot station for a night's meal of food. The saloons on lower Twenty-fifth street are crowded every night until 1 o'clock when the places close and the men are turned out upon the streets. The officers on the lower Twenty-fifth street beats are in a quandary, they tell the men to keep off the streets but there is no place the men can go. The men are told to leave town but they refuse to do this, as they claim they have been kept on the move from one place to another until now they are very tired and it would require a great deal of money to be driven back to the cattle.

MORAN MUST MAKE GOOD.

From the present indication it appears that P. J. Moran of Salt Lake City will be asked to repair the street paving on Twenty-fifth street between Washington and Wall avenues. An investigation conducted by the city engineer and the street committee was to the effect that the road was rapidly becoming unfit for travel.

It appears that when Moran did the last work upon the street he gave the city a bond to guarantee the work for a certain length of time. The bond has never been released by the city, and it is very probable that the city will hold Mr. Moran to the contract and bond.

OBITUARY.

MRS. ELLEN BUDD.

Mrs. Ellen Budd, wife of the late Charles Budd, died at the home of her daughter, Mrs. Nellie Pickett, March 26, at 10 o'clock. She was born in Sussex, England, in 1834. She was married to Mr. Charles Budd in 1855; from this union six children were born, five of whom survive her. She became a member of the Church of Jesus Christ of Latter-day Saints in 1882, and lived faithfully to its principles. One of her greatest desires was that her children should become acquainted with its principles and partake of its blessings, and one of her greatest comforts in her last moments was that one of her grandsons, Newell, was to depart on his mission to Mexico. Naturally of a frail constitution, few people suffered so much through life as she, and complained so little. Through her entire life her sufferings were borne with patient fortitude, ever thinking of others before herself.

She emigrated to this country in 1883. Besides her children she is survived by 21 grandchildren and three great-grandchildren. She was laid peacefully to rest Sunday, March 28. Funeral services were held at the Twelfth ward meetinghouse, where appropriate remarks were made by Bishop Platt and Judge William H. King. A profusion of flowers gave evidence of the love of dear friends and the esteem in which she was held.

LA GRANDE, ORE.

QUARTERLY CONFERENCE.

Phenomenal Growth and Prosperity Of Mormon Community.

Special Correspondence.

La Grande, Ore., March 20.—Quarterly conference of the Union stake convened in the stake tabernacle at La Grande, Ore., March 14, at 10 a. m., concluding on the evening of the 15th. Elder David O. McKay of the twelve apostles was present.

Considering the fact that it was raining both days, the attendance was good. Elder McKay was the principal speaker, while President Brannell and others also made addresses, replete with good counsel.

Spring is here. The lawns in the city are ready for the mower. A major portion of the land is plowed and seeded. As a matter of fact, there has not yet been a single month since January, 1907, but wheat and other small grains have been planted. The grain sown up to about June 1 was killed last year by frosts that planted later was pastured and is now very promising indeed.

The Amalgamated Sugar company has all its lands plowed and seeding with corn and alfalfa for the next week. The ground is in first class condition and those having land for best culture have fond hopes.

President David Eccles is here looking over his vast properties.

The immigration of the Mormon people looking for a milder climate, etc., are coming in very fast, and they are welcome. No drones are wanted, but there are thousands of good, thrifty people, whether they have much money or not. If they have no wealth they will be helped to make some. Two of the wards nearly doubled in membership last year and still live come.

PRODIGIOUS GROWTH.

Church conditions here are very good. In the seven years since the organization of the stake, 11 meetinghouses have been built and all are paid for except one. A grand stake tabernacle, which cost \$41,600, has also been built and paid for. This is perhaps the very best of all things that have happened to the Mormon community.

BIGGS, CAL.

GROWTH OF MORMON COLONY.

Crop and Other Conditions Favorable for the Settlement of Good Will.

Special Correspondence.

Biggs, Cal., March 25.—The "News"

readers will be interested in the welfare of their compatriots, who have established homes in this part of the state.

From a beginning of 30 souls this colony or branch has grown to over 400 since the beginning of the settlement here last November.

The general health of the people has been good, though there has been some illness and one death.

As a rule everybody has been able to find some employment, though of course there have been periods of idleness. Everybody who owns land has been kept very busy for some time plowing and planting. The season is very forward and the prospects for excellent crops are very favorable.

The colonists have had the pleasure of several visits from President Robinson and the traveling elders, and the Sunday school, improvement associations, Relief society, etc., are all in fine working order and well attended.

President Robinson delivered a powerful discourse on the Articles of Faith in the Baptist church here last month, which was well received and is bearing good fruit. Many are asking when he will be here again, and saying that was the grandest and most sensible sermon on the gospel they had ever listened to.

The residents here are very kind and liberal towards the colonists and mutual good feeling exists.

While the colonists are growing and the members do not feel so lonesome as at first, still there is room for plenty more, and because of their industry, honesty and sobriety, and acquaintance with irrigation, which is new in these parts, the Mormon people are gladly welcomed as settlers and citizens.

The weather is and has been ideal and the fruits and flowers and vegetables are putting forth their best efforts.
