Workmen on Strike—Apprehended trouble.

CHICAGO. — About seven hundred workmen engaged on the Government works at the Des Moines Rapids, have struck for higher wages; one or two hundred who remained at work, were attacked by the strikers and driven off. The sheriff, with an armed posse, last evening, captured about fifty of the ring leaders and lodged them in jail at Keokuk; but the trouble continues and there are fears that the embankments will be cut and the works flooded.

Steamer arrived—News of the Darien Expedition—Damage and Death by the late—Personal of an Actor—Femina getting ready—Poor Canadian—Congress and Claim Agent Swindlers—Villains Arrested—\$400,000 Fine.

NEW YORK.—The Alaska brings Panama and Aspinwall news to the 17th inst., and \$28,000 in treasure from California. Among the passengers is J. W. Caldwell, Minister from Bolivia to the United States.

There has been a terrific gale and rain storm all day and evening.

A Panama letter says that Captain Heine, an American, who claims to know a route across Darien superior to all other routes and by which he can pass from Aspinwall to Panama entirely by water, has chartered a small sail boat at Aspinwall to be delivered in Panama, and has gone to Caledonia Bay.

Efforts are being made to heal the breach of the General O'Neill organization, for a descent upon Canada at three points, namely, Amherstburg, Fort Erie, and some point on the St. Lawrence yet undecided upon. Large quantities of arms and ammunition are said to be stored near at hand.

Gray.—The works of W. A. Wood & Co's mowing and reaping machine company, were partially destroyed by fire this morning; loss, four hundred thousand. Temporary buildings will be erected at once to enable them to fill their agreements promptly.

NEW YORK.—A letter from the Darien expedition, dated March 15, says the officers and crews are all well, except Commander Selfridge, who is suffering from a lame leg, which prevents him from accompanying the party across the Isthmus. A road has been cut three miles into the interior, reaching a river which, it is said, flows into the Pacific. The Indians from the first proved friendly, and assisted the explorers in every way possible, and all are sanguine of discovering an easy route for the construction of a canal.

The naval surveying party of the Darien Canal expedition, with Captain Wolfbridge, left Aspinwall on the 21st of February, with forty natives, and cut their way through the woods from a point a hundred and eighty miles east of Aspinwall. They were three days in cutting their way to the headwaters of the river, which leads to the Pacific ocean. They returned to their ship over the same path one day and were preparing to survey another route in the neighborhood of the same river. The native Indians are not hostile, but extremely timid.

Another Darien letter says that surveyors have secured a fine map of the topography of the country back to the base of the mountains. In some instances, not above four hundred feet up the mountains, there are great quantities of valuable timber, such as mahogany, log wood, india rubber and sugar cane, the finest ever seen. There are no wild animals, but a few large snakes.

During a gale an unfinished house on 40th street was blown over; the frame of a dwelling adjoining was also blown down, and the occupants were buried in

the ruins. They were taken out dead, all but one, a child, which was alive, but both of its legs were broken.

The sale of the celebrated library of John A. Rice, of Chicago, closed last night; 2,700 volumes sold for near \$40,000.

The gale has done considerable damage to trees, buildings, awnings etc.

Two delegates to the colored convention at Nashville, publish cards against Congressional interference, disclaiming any knowledge of crimes against their race.

Governor Senter received a despatch from General Butler inviting him to Washington to testify before the reconstruction committee touching the condition of affairs in Tennessee. If the Governor recovers his health, he will probably leave on Monday.

CALIFORNIA.

Incendiarism—Railroad purchased—Smugglers in trouble.

SAN FRANCISCO, 25.—The burning of the Central Pacific railroad bridge over the American river was undoubtedly the work of an incendiary; the fire was observed in a number of places. FOREIGN NEWS.

GREAT BRITAIN.

Emigration Reports—Subscription for Statue—Cholera at St. Petersburg—The Irish Bill—The Emperor and the Bonaparte case—Stewart Hill on the Education Bill.

LONDON.—Accounts from the principal ports inland show that the emigration to the United States has reopened this season with great vigor.

The Bishop of Peterboro has placed his name at the head of a subscription for a statue to Robert Hall, at Leicester.

The cholera has reappeared at St. Petersburg.

In the Commons to-night the bill for the preservation of peace in Ireland was considered in committee. The clause, forbidding editions of seditious journals, was opposed by Moore, member for the county of Mayo. Several members made speeches adverse to striking out the word "seditious" from the clause.

Forbes, chief Secretary for Ireland, engaged to omit the word and provide that each culpable journal should be entitled to one warning.

Lord John Manners admitted that extraordinary powers were necessary; but argued that they were made so by the mismanagement of government.

Gladstone replied, charging the present situation in Ireland upon the Tories. The clause was revised by leaving out the word "seditious" and was adopted by 27 majority.

Downing moved to amend the clause where it speaks of seditious journals, requiring a preliminary indictment, which was negatived, and the clause as amended, was adopted by 236 majority.

Other clauses of the bill were considered and amendments were adopted thereto.

Correspondents of the English newspapers, at Tours, comment with singular unanimity on the subterfuge of the court to the Emperor's supposed sympathy with Prince Bonapart.

John Stewart Hill has written a communication on the education bill; he objects to the measure, chiefly, because it requires the State religion to be taught at the expense of all.

FRANCE.

Bonapart Acquitted—Discussion on Infallibility—Protest against the Dogma exposed.

TOURS.—Prince Bonapart has been acquitted in spite of a strong appeal from the Procureur General for a verdict of guilty, with extenuating circumstances. The jury was out only an hour. As soon as the verdict was announced the counsel for *la partie civile*, demanded a thousand francs damages.

In consequence of this demand the Prince was not released from custody. He was exceedingly indignant because he was not allowed to leave the court room immediately. He said he wished to show that he was not afraid of the menaces made against him.

In the closing arguments the lawyers for the defence laid great stress on the constant and violent denunciations of the Prince in the *Marseillais*, and other circumstances calculated to exasperate the accused.

PARIS.—The news of the acquittal of Prince Bonapart produces everywhere an intense sensation, and it is the universal topic of conversation.

The strike at Lacroix continues; there have been many arrests, but, as yet, there has been no collision between the troops and the workmen.

It is said at Rome that the French government is engaged in a discussion with the English government on the political aspect of Papal infallibility.

The Bishop of Strasmeier's protest against the proclamation of the dogma is hourly expected.
