terial in the rough.

It goes without saying that England's home market is necessarily a mere speck compared with the necessity for outside outlet for her wares, and even that is invaded by exterio: competition. As ian instance, when the writer was in England nine years is ample: ago American manufacturers of cottons prints were laying down in Manches ter, the great mart for that commodity, goods in that line one-half of a cent per yard cheaper than the English makers could afford to sell it. This difference was partly offset, howover, by a slight difference in quality was present, tried his nand, and likein favor of the British article, but there, as else where, the chesper product generally commands the market. . It will not be astonishing to those familiar with this subject to learn of the husdreds of thousands of cotton spinners, iron-workers, cutlers and , other operatives being out of employi ment in the great cities of the "Tight ment in the great cities of the "Tight Little fale," at a time. The immense demonstrations of myriads of starving werk-people on Trafalgar Square, London, and in other populous parts work-people on Trafalgar Square, London, and in other populous parts with some foreign substance.
