

to the amount of \$1,000,000 have been presented at the Treasury Department for redemption under the 21st call. This call will not mature until November 1st, but provision is made for the redemption of any bonds embraced in the call prior to their maturity, upon presentation. The call is for over \$32,000,000. Holders are not generally taking advantage of the privilege of the circular, which offers to redeem before maturity.

Treasury reserve to-day, \$154,826,615.

The record of the court martial in the case of Lieut. Col. Ilges has been received by Judge Advocate General Swalm.

The Treasury Department has made a ruling that Canadian tugs cannot tow American vessels from Canadian waters into American waters beyond the first American port at which they make entry.

Acting Secretary of the Treasury New will leave next Saturday for a week's visit to his home in Indianapolis.

Capt. Eads has thus far received \$1,800,000 for his work at the mouth of the Mississippi.

Gen. Robertson, father of Lieutenant Robertson, First Cavalry, the latter charged with duplicating his pay account, became satisfied through telegraphic reports from his son of the entire integrity of the latter, and yesterday made a written request to the War Department not to withdraw the charges already preferred. The father, owing to the publicity given the case, says the verdict of a court martial alone can render complete justice to his son.

New York, 7.—Western Union officials say the cable to Casca was destroyed last night and the cables cut; that 26 Mutual Union wires were rendered useless at Casca, and that the American Union and Atlantic & Pacific routes to Boston were interrupted, with the evident intention of preventing Boston operators from getting full reports of the Sullivan-Blade affair at Madison Square Garden. One thousand dollars reward is now offered for the arrest and conviction of any person tampering with the wires.

St. Louis, 7.—Secretary Shaw stated to-day that the chief object in calling out the railroad operators is to weaken the force as much as possible and compel the railroads to call back their men now working in the Western Union offices, and thus still further cripple the latter. Mr. Shaw also stated that the operators on the Manhattan road, New York, are called out to-day.

Chicago, 7.—The city council last night passed a resolution of sympathy with the striking telegraphers, and holding that the strike should be brought to an end speedily, on account of the damage to business resulting from its continuance.

Moncton, N. B., 7.—The strike of the telegraphers is ended; the men voluntarily returned to work.

Pittsburg, 7.—Noon, to-day, was the time set for the strike of operators on the Pittsburg division of the Baltimore & Ohio railroad, but up to 1.30 this afternoon Superintendent King reported no interruption to business resulting from its continuance.

Superintendent King, of the Baltimore & Ohio, reports that at 2 o'clock but one-third of the operators working on the Pittsburg division quit work and are now out.

Baltimore, 7.—Officials at the main office of the Baltimore & Ohio Telegraph Co., make the following statement: All the operators at Camden station quit work to-day, not one remained. They have heard from nearly every station along the road, and the numbers striking and leaving their posts does not exceed half a dozen, and their places have been supplied. The strike at Camden station, they say, is not of serious moment, as the main office at Baltimore and Calver Streets can be used for all the work at Camden Station.

Richmond, Va., 7.—The strike on the Chesapeake & Ohio Railway causes no inconvenience to the company; only a small proportion of the men have quit work. The places of the strikers between Charlottesville and White Sulphur Springs were easily filled. Everything is working smoothly.

CHICAGO, 7.—There was a sensation at the west end of Lake street. Some persons in a boarding house at No. 61, ate of ice cream, watermelon, green peas and roast veal, and all were seized with violent cramps; the report got abroad with chivers; and a general stampede from the neighborhood resulted. The health commissioner examined the premises, which he pronounced

in a good sanitary condition, and gave his opinion that the sickness was a very severe case of unanimous stomachache, the result of eating the articles mentioned.

Washington, 7.—The Post has a report that William M. Beebe, who was attached to the first expedition for the relief of Lieutenant Greely's party at Lady Franklin Bay, has committed suicide.

Joliet, Ill., 7.—Geo. Kellogg, a convict in the State Penitentiary, from Logan County, at work at a wire drawing machine, committed suicide this afternoon by throwing a coil of wire around his neck and suffering himself to be drawn against the machine. The wire was imbedded in his neck. Just before committing the deed, he went to the boss and said: "I am the man who committed the murder at Atlanta."

An Inter-Ocean Cedar Rapids, Ia., special says: "An old mill used for storing burned this morning, and three unknown tramps sleeping there burned to death. Only one of the bodies has been recovered."

Trenton, N. J., 7.—Five Chinamen who stabbed a fellow-countryman at Paterson for reducing laundry rates, are committed to the State prison, and had their queues cut off. They appealed to the keeper to allow their queues to remain. He explained that the law must be obeyed.

Baltimore, 7.—A special from Roydstown gives the following particulars of the tragedy at Bloomfield, Worthington Homestead, Worthington Valley, two miles from this place: One of the most frightful tragedies was enacted last night that ever shocked the community. The invalid wife of Louis Lawrence Conrad, a well-known Baltimore lawyer, in a fit of insanity, caused by disease, shot her husband, sleeping by her side, through the head, killing him instantly. The affair in all its details is sad and shocking. Mrs. Conrad is a cousin of Samuel Hosen, who recently killed Charles Ridgely, while in Howard county. She is also cousin of John Tolley. John and Richard Johns, who committed suicide, were all suffering from insanity at the time of the tragedies.

San Francisco, 7.—Governor Crittenden of Missouri, interviewed this morning, emphatically denies the statement telegraphed from Kansas City that he had promised Bob Ford \$10,000 reward if he brought in Jesse James alive and \$10,000 if dead. He says he did not know Charlie Ford had any connection with the Blue Cut robbery until after the robbery was perpetrated. It is absolutely untrue that protection was offered Ford. Prior to the robbery, he frequently saw Bob Ford, but refused to make any arrangement other than the announced proclamation offering \$10,000 for the arrest and conviction of each of the James boys.

Judge Phillips, attorney for the James boys, present in this city, declined to converse on the subject.

New York, 7.—Richard Wallace, who arrived here in the bark R. G. Griffiths, is sick with yellow fever, and has been sent to quarantine.

Boston, 7.—There are reports in Lynn this morning of several failures on account of the suspension of Charles W. Clements. Most of the goods made by them were for the Clements trade. Samuel Gale was among those reported embarrassed. None of the failures were affected by it. Clements employs 30 or 40 hands. It is said their suspension will be temporary. The Shaw failure is thought to be more far reaching in its effects upon some of Lynn's business men than the public has been given to understand.

O. H. Ward's statement is thought to be peculiar, and places one of the city's financiers in a position he was not thought to occupy. It is asserted several suspensions will occur among Lynn's manufacturers during the ensuing few days, but it is thought no large amounts will be involved in any case.

The Traveller says: Wm. B. Fowler, treasurer of the Auburndale Watch Company, failed last night; liabilities supposed to be small, although nothing definite yet is learned. The failure will undoubtedly involve the Auburndale Watch Company.

New York, 7.—The Commercial Advertiser says there is a big run on the Second National Bank of Elmhurst, in consequence of its president, D. R. Pratt, saying he lost \$150,000 in a speculation. The bank is believed to be solvent. It says the president is able to stand the loss of 150,000, or \$300,000.

FORT WYSHAKIE, 8.—The President and party left Green River

station on the Union Pacific Railway at 7 o'clock on the morning of August 6th, having spent Sunday at that place. The three spring wagons in which the party was seated were drawn by four Missouri mules to each vehicle, and the first day's drive was made by relays for a distance of 101 miles, to Camp Lord, on the banks of the Sweetwater, a beautiful mountain stream, where an elegant dinner had been prepared under the direction of Capt. Lord, depot quartermaster at Cheyenne. The President enjoyed the ride greatly, being seated on the outside of the wagon with the driver. During the last forty-five miles the road ran over a country which was covered by sage brush, and hundreds of antelopes, sage hens and mule rabbits gave pleasant excitement to the journey. All enjoyed keenly the mountain air and scenery. At 7 o'clock on the morning of the 7th, after a bountiful breakfast, the party left Camp Lord for Fort Washakie, distant 54 miles. The President rode with the driver of the front wagon during the first stage of 31 miles to Little Popoagie. At Miner's Delight, a mining camp between the point of starting and of the first stage, the party stopped to watch the operations of gold washing, and the miners brought to the President a panful of pay dirt and went through the process of washing out the gold, which showed in the pan a small quantity of the precious metal. After lunch, at the end of Red Canyon, a most wonderful formation of cliffs of red ochre, giving name to the valley, the party came to Washakie, reaching their camp at 6:30 p. m.

The Shoshones and Bannock Indians, upon whose reservation the camp is located, turned out to welcome the great father and dashed across the plains around the President's party gaily attired, the squaws especially exhibiting their skill in horsemanship, out riding in the masculine style and not on side saddles, as is the custom of their white sisters. The party will rest here to-morrow and then take horses for the Yellowstone Park. All are well and the President enjoys the trip more than any one in the party.

CHICAGO, 9.—Specials report a severe storm in Shelby, Cass and Pottawattamie counties Iowa last night. Growing crops were leveled to the ground and considerable damage was done to other property. The track of the storm was five miles wide. Near Brayton twenty-two head of cattle were killed by being stampeded and rushing down an embankment. At Loras nine freight cars were blown from the track.

OTTAWA, 9.—Gilman's steam saw mill, near Hull, Quebec, burned last night losing \$100,000.

BOSTON, 9.—Last evening John Fisher, 18 years old, was sailing with two young ladies, when a gust of wind struck the sail, and the boom swinging suddenly around, Fisher and one of the ladies named Winifred Butler, were swept into the water. Fisher was immediately drowned, and Miss Butler died soon after being brought ashore.
