MASON & HAMLIN

ORGANS

Have been decided by the

HIGHEST MUSICAL AUTHORITIES

In Europe and America to be the

VERY BEST MADE

In every respect, and the **Standard of Excellence.** Wherever they have been exhibited in the United States and in Europe

They have always received the HIGHEST Awards.

More than **600** of these Magnificent Instruments are scattered over the Territory, and during the past fourteen years they have been subjected to the extremes of our climate, and

In no instance have they failed to prove that they are the most durable Organs made.

WE ARE ALSO AGENTS FOR

OTHER ORGANS!

And herewith submit their prices, and respectfully solicit a comparison with other dealers:

	Maker's Prices and Freight.	Our Prices and Freight.
Bay State Organ Co's Organ, are celebrated for their charming sweetness and pipe-like quality of tone, elasticity of touch, and extraordinarily quick utterance, thoroughness of manufacture and beauty of design, *Style* 22, - - -	$246	$165
Burdett Organ Co's, *Style* 3, - -	239	165

SPECIAL NOTICE.

To the Jobbing Trade and Retail Dealers of Utah.

Z. C. M. I.

WOULD CALL THE ATTENTION of its regular customers, as well as the Public in general, to its immense lines of all classes of MERCHANDISE, arriving daily and on exhibition, in its various Departments.

The RETAIL TRADE of the Territory can best serve their interests by replenishing their stocks from this source, and for the following reasons:

The business is conducted on the strictest principles of economy, hence the closest market prices can always be relied on.

The new goods coming in were purchased with special reference to the Fall and Winter Trade, and surpass all previous efforts.

Our abundant facilities and experience enable us not only to distance all first-class competition, but to offer inducements unrivalled in the Wholesale Trade of the Territory.

We are sole agents in Utah for many popular brands of Groceries and Hardware, which cannot be purchased elsewhere in this market.

Competent and experienced Salesmen are on hand in each Department, and the Public can rely upon having orders promptly and faithfully executed.

Last Night's Dispatches.

EASTERN.

The Hayes Perjury Case.

WASHINGTON, 17. — When the safe burglary case was resumed this morning, Judge Humphreys enquired if Hayes was in court, and was informed that he went to New York on Saturday night. The Judge said he had fully considered the subject, and had written out his statement, which he would submit. He then recited the circumstance of the arrest of Hayes, which he characterized as an extraordinary proceeding and an attempt at lawlessness and intimidation almost unprecedented. He claimed that this court had sole jurisdiction of the case, and had entire control over Hayes. These remarks were made to show the enormity of the proceeding, and that the offence was almost without parallel. He would treat the whole proceedings as a nullity, and order the release of Hayes and his bondsmen, and thus wipe out this attempt at obstruction towards getting at the full facts in the case. The question of contempt would be considered when the return was made to the notice issued yesterday.

Report of Indian Commissioner.

The report of the Indian Commissioner, for the last year, says that the statistical returns therein embraced, offer unmistakable evidence of advancing civilization among nearly all the different tribes of Indians, being evinced by a material gain in all material property, increased interest in and facilities for education, and the growing general disposition of good will towards the government. He sums up the Indian population under three classes, first, 89,813 wild and scarcely tractable to any extent beyond that of coming near enough to the agents to receive rations and blankets, of whom 9,057 are Apaches in Arizona and New Mexico, and 1,000 Shoshones, Bannocks and Piutes in Oregon; second, 51,429 convinced of the necessity of labor and experimenting with the assistance of the government; and third 35,695, who have come into possession of allotted lands, and other property in stock and implements belonging to landed estate. To the latter may be added, modified somewhat, 4,800 Penias and Maricopas, and 6,000 Papogoes, in Arizona, and a majority of the 500 of the Mission Indians in California, who have always been self-supporting and have only recently been furnished by the government with an agent and a few employees; and if it had been possible at any time during the last generation for them to have received suitable lands in severalty, they would have been in as tolerable a condition of comfort as their white neighbors. A fourth class is summarated as roamers and vagrants, numbering 14,000, and embracing 5,000 Diggers in California, 3,000 Indians on the Columbia river, Oregon, 2,000 Utes in Nevada, Utah and Arizona, and 2,000 Yamas in Arizona. The success of the feeding policy in keeping quiet during six years, such a powerful and warlike nation as the Sioux, is cited as a demonstration that it is cheaper to feed than to fight wild Indians. The commissioner says the first requisite in the treatment of all Indians of this class is firmness, and outrages should be promptly followed by punishment at any hazard and any cost, any leniency which prevents this is expensive and mistaken kindness. The necessity of making war on the Cheyennes and Comanches in Indian territory resulted largely from a failure to observe this rule. For a second class, or half civilized Indians, upon whom the greater part of the labor of the bureau was expended last year, a large increase of civilizing agencies is recommended, and towards all classes a stricter compliance with treaty obligations than heretofore. The necessity of establishing a government of some form, for the Indian territory, or at least a United States for these people, is manifest, and the commissioner recommends the subject to Congress for consideration. The secretary sees no reason why large portions of that territory, now unoccupied, except by roamers, should not be opened to settlers, provided these roamers can be induced to remove east of the 96th meridian. At the Hoopa Valley, California, Colorado River, San Carlos, and White Mountain agencies, Arizona, the commissioner thinks the efficiency of the service in the introduction of civilization would be largely promoted by the removal of the troops outside of the reservations, and at Hoopa Valley, the substitution of five deputy marshals for troops is recommended. He also states, as a general proposition, that the substitution of deputy marshals for soldiers in the vicinity of a majority of the agencies would be sufficient with the aid of employees and friendly Indians to preserve order, at a great economy over the present system, namely the employment of troops. To this proposition he only excepts the Sioux, Apaches and wild tribes of the Indian territory. The relations of the bureau to religious societies, in accordance with whose nominations most of the agents have been appointed, have been harmonious, and it is believed mutually helpful. The present schedule of salaries of agents, the commissioner styles expensive parsimony; he says the government can't afford to appoint men to this duty who are not both able and upright, and can be kept strong in their integrity; for such men the present pay is insufficient, and the commissioner recommends an increase to $2,000 per annum for eastern agencies, and $2,500 for the more remote. In conclusion the commissioner expresses the conviction of the entire feasibility of Indian civilization, and that the difficulties of that problem are not so inherent in the race, character and disposition of the Indian as in his anomalous relations to the government and in his surroundings, affected by the interests and influence of the whites. The record of the past is not pleasant to recall, and can't be rewritten. Much of the administrative mistake, neglect and injustice is beyond repair, but for those now living much of protection, elevation and salvation is still not only possible but feasible, and highly promising, and will be if we are wise enough to make the most of the opportunity left to deal justly and humanely with these remnants of the first American people.

A Card Reception.

The President and Mrs. Grant gave a card reception at the Executive Mansion this evening, to Col. Fred. Grant and his bride; the attendance included the members of the cabinet, Senators and Representatives, army and naval officers in full uniform and the members of the diplomatic corps.

Dispatch From Garland—Santanta and Big Tree.

Gov. Garland telegraphed, to-day, to President Grant, from Little Rock, that he would resort to no force unless forced to it; everything was quiet, and Smith was not to be found.

The Secretary of War has received a dispatch from General Sheridan, giving him the first intimation that Satanta had been sent back to Texas to be delivered to the government, he having broken his parole, but that Big Tree was not returned, as it was not certain that he was alike guilty in that respect.

Severe but Just.

Postmaster General Jewell, to-day, issued an order discontinuing the pay and services of John S. Callaghan, special agent of the department, for loaning to his brother an annual pass from the Missouri, Kansas and Texas Railroad Company, which had been granted to him solely upon the ground that he was an accredited special agent of the post office department.

Strike Ended.

ST. LOUIS, 16.—The strike of the miners in St. Clair county, Ills., which has been in progress some days past, virtually ended to-day by the adoption of a resolution at a mass meeting near French village, allowing all the union men who can get four cents a bushel for digging to commence work to-morrow; the object of the strike was thus defeated.

Robbery Confessed.

CINCINNATI, 17.—Monroe, Black and Hackney, all three American Express robbers, have made a confession that they committed the robbery. The safe has been recovered with a few valuables, but no money, but hopes are entertained that it will be secured to-night. A plan was arranged for all three parties to meet in St. Louis to-night, and go thence to Oregon.

$30,000 Fire.

BOSTON, 17.—The American House was damaged by fire to-day to the amount of $30,000.

Fatal Boiler Explosion.

NEW YORK, 17.—The steam tug *Lily* exploded her boilers this afternoon, near the Government Works, killing five of the crew and fatally injuring Captain David A. Havens.

Fatal Accident.

WILKESBARRE, 17.—An extensive cave occurred at Seneca mines, Pittston, to-day; five or six men were at work when the roof gave way with a terrible crash, killing Elias Davis and Henry Jenkins, and dangerously injuring John S. Williams.

Brutal Murders.

Lawlessness in the coal regions continually increases, and outlaws go unpunished. At Carbondale, on Saturday night, or Sunday morning last, two men were murdered and three severely assaulted, one of whom will probably die. Patrick Padden, a miner at Culbrooke colliery, was found upon Dundoff Street, on that Sunday morning, two bullet holes in his head and badly pounded about the body. His head was frozen to the ground, his hair having dragged in a pool of blood and water, which had congealed. He was not quite dead when found, but expired in the afternoon. He had quarreled with some parties on Saturday afternoon. Michael McNally was found dead the same morning upon the railroad bridge near Lookout, in the same city; he was about twenty years of age. His body had evidentially been put there. Other murders as brutal have also been perpetrated recently.

Arkansas Matters.

LITTLE ROCK, 17.—A bill was introduced in the Senate to-day, and passed to its third reading authorizing the Governor to offer a reward of $1,000 for the apprehension of the parties charged with conspiracy to overthrow the government. Nothing is yet heard of Smith, nor has there been any demonstration in his behalf by anybody in any part of the State.

Judge Poland, of the congressional investigating committee, left for Washington this evening; Ward, of the same committee, remains here. It is reported that Judge Poland was summoned to Washington by the Attorney General.

Governor Garland, to-day, received the following dispatch from A. B. Robinson, colored, sheriff of Phillips county, dated Helena, 17: "The dispatch from Little Rock, stating that troops are being raised here to support Smith, is false; everything is perfectly quiet." Robinson was elected under the new constitution by the republicans.

The Express Robbery.

CINCINNATI, 17. — Edward J. Hackney, the third confederate in the American Express robbery, who was arrested to-day, denies all knowledge of the affair, but is recognized as one of the men who carried the trunk out of the office. George Black, the other man who assisted, confessed this afternoon; he said that he and Hackney were paid $300 each by Monroe to carry out the trunk and safe. He went with the officers this evening to the back of Covington, where he said they buried the safe, but the ground was so wet that they gave up digging for it, and returned to the city without it. The search will be continued to-morrow.

U. S. Troops Removed—The "Empire" Disaster.

NEW ORLEANS, 17.—The U. S. troops were withdrawn from the State House this morning, and about thirty policemen took their place.

It is still not known how many lives were lost by the sinking of the steamer *Empire*. The captain insists that she was not too heavily loaded, and the cause of the disaster is still a mystery.

Later.—Captain Jean Franc, who lost four children with the *Empire*, states that the boat did not break in the middle, and was not overloaded; he cannot understand why it sank. He cannot number the passengers, but supposes the victims number about thirty-five. The bodies found are Mr. Walter Fribble, engineer of the Magnolia plantation, and two children of the innkeeper. An attempt will be made to-morrow to raise the bodies.

The returning officers have elected Arroyo, dem., to fill the vacancy on the board; he took the required oath and was seated.

TO PARENTS AND GUARDIANS.

An Evening Class of Young Ladies and Gentlemen will be opened this week in the 13th Ward, for the study of the "French Language."

PROF. J. R. WHITE is a native French Teacher, a graduate from one of the leading French Universities. His testimonials from various Academies, Universities and Private Families speak of him in very flattering terms.

Prof. White warrants to every pupil, in six months' study, a knowledge of the language that shall enable them to read, write and speak fluently, with a pure Parisian accent.

An Evening Class is also being organized for the study of "Book-keeping." Classes can also be formed at private residences. Terms reasonable.

For further particulars, address: Prof. J. R. White, care of Geo. Goddard, P. O. Box 474, Salt Lake City. d282
