The latest news of President Garfield is of a more hopeful character give bonds in the sum of \$5,000, renthan has reached us for several days. The prospects of his recovery are materially increased. These are Joyful tidings.

The University of Cambridge, England, has decided by a vote of 398 to 32, to a mit women to its honor examinations on equal terms with men. They are to be published in the regular class lists and receive official certificates of the rank and honors attained.

On the 12th inst., Boston officers made a descent on twenty unlicensed dealers and seized over two thousand gallon + of liquor. If this had been done in Salt Lake City, what a chance those dealers would have had to sue for damages! In Boston it is the dealers' loss and the city's gain.

Maud S. is certainly a phenomenal trotter, if we may believe the reports of her recent achievements. It is said that she will take the track and make her mile in 2.111, when being exercised, without a word, and apparently just for fun. By-the-by, what has become of St. Julien? He seems to have taken a back seat.

It has been generally supposed that Switzerland was a great cattleraising country, but it appears that the production does not equal the consumption. The custom house returns show that there are every year about 80,000 head more cattle imported than exported. Corned beef, hams and pork of the United States largely contribute to the market.

During the month of July, no fewer than seventeen vessels, of an

Dear Sir .- In reply to your inquiry, we will state that we are running the Agitator Thresher, sold by you to Bishop Barton and others. It is doing most excellent work, very easy to feed, capacity very large, have tried it in very weedy and lamp grain, both Wheat and Oats. and never saw a machine with easier iraft on the horses, or run so moothly and do as good work. Many have been to see it run and have expressed the same opinion. No chance for any grain to be carried off with the straw; the Elevaor works like a charm-never saw any to equal it. We are satisfied t excels any machine we ever saw, und we feel exceedingly well pleased Respectfully, with it. LEVI WEBSTER.
