PATH OF UMPIRE IS A THORNY ONE

Few Roses Come to Man Who Works on the Baseball Field.

IS VICTIM OF CROWD'S IRE.

If His Decisions Are Absolutely Just The Best He Gets is Silence From Bleacherites.

How would you like to be the umpire?

If you are a baseball fan, no doubt you have often left the park after the home team had lost a close game and cussed the umpire to your heart's content.

Just why, no one seems to know, but the umpire is the target of abuse from the baseball fan. During the game he is dubbed rotten, thief, burglar, and other like expressions equally complimentary. If the home team wins, perhaps all is forgotten, but should a close decision lose the game, he gets things he never asked for and often the crowd insists on escorting him to his dressing room.

The umpire is a human being, although it would be an easy matter to secure thousand of fans who would be only too willing to testify to the contrary. The umpire makes mistakes like men in every other profession, but in order to escape the wrath of the fans he must be absolutely perfect. Sometimes he can get away with a poor exhibition if things happen to be breaking for the home players, when the play is good and merits and wins great applause, but the best the umpire gets when he is good is silence. That's the greatest compliment you can pay him.

PAY NO ATTENTION TO CROWD.

The umpires in general, and especially those in the major leagues, pay little or no attention to the criticism offered. They realize the fans who attend the games have a right to enjoy themselves as they see fit. They realize that one day the crowd will insist that they are the "best ever" and the next day an "also ran." Umpiring is their vocation, and they take the criticism offered just as business men do their reverses and a hotelkeeper the many objections to the bill-o'-fare.

Umpiring today, however, is not nearly so strenuous as it was ten years ago. President Ban Johnson of the American league is the man the umpires can thank for the present status of the arbitrator. It was he who started the crusade against rowdy ball, and he has succeeded beyond his fondest anticipations. Harry Pulliam, the president of the National league, followed in the footsteps of Johnson for clean ball when elected to his present position. These two men are now making baseball history, and incidentally the life of the umpire is a much more enjoyable one.

MAKE GOOD MONEY.

The position of umpire is a lucrative one. In the big league the umpire gets from $2,000 to $4,000 and expenses, while in the minors he gets from $1,000 to $1,500. In order to stand the work, the umpire must be in the best condition when the season opens, and take excellent care of himself during the six months of labor. In the American and National leagues the judges of balls and strikes travel about 2,000 miles during the season. They are subject to change at a moment's notice, and, of course, have to dine and sleep at different hotels at stated intervals. These features alone test a man's strength aside from the strenuous work on the diamond.

Without a question the most interesting character before the baseball public is John Sheridan, of San Jose, Cal. He is one of the native sons, and to every baseball enthusiast is known as plain Jack. Sheridan will be found with the American league again next season, making his twenty-third year before the baseball public as an umpire. During his long career he has never once missed an assignment or been late for a game. Nearly all competent critics regard him as the premier. On good authority it is stated that he is the highest salaried man in the business, drawing $4,000, and his expenses for six months' work. Sheridan is about forty-five years of age and during the winter time he is associated with his brother in conducting an undertaking establishment at his home, San Jose.

LEHI BEATS APOLLOS.

Lively Basketball Game in the Sugar City—Another Scheduled.

There was a lively basketball game at Lehi last night when the Lehi team defeated the crack Apollo team by a score of 30 to 21. At the end of the first half the Apollos had a big lead over the boys of the sugar town, but the second half the Lehi players got busy and forged ahead with the result stated. The teams will meet again. The teams lined up as follows:

Lehi.		American Fork.
Gardner	R F	Bush
Briggs	L F	Chipman
Sabey	C	H. Christensen
Eans	R G	J. Christensen
Adams	L G	Campbell

One week from next Friday there will be a baseball game between old rivals. The University team has arranged a game with the Agricultural College team and the contest is sure to be a lively one. In the meantime both teams are working hard to get into shape.

ALL HALLOWS WON.

Defeated High School in First League Game of Baseball.

The first High School baseball league game was played yesterday afternoon between the Salt Lake High School and the All Hallows College teams, and the latter surprised the fans by taking the west siders in to camp by a score of 10 to 8. The defeat of the High School came as a big surprise to many but the college boys were confident from the start that they would carry off the honors in the first game. It is the first time the High School has lost the first game and the boys made a hard fight to win. The contest was a warm one and some excellent work was done on both sides.

Up to the seventh inning the outlook was rosy for the High School. It had two runs to the good. The college boys were at bat with two men out and three men on bases. Twohey landed a safe one out in right field for two bases scoring two runs. Wilson came to bat and knocked a scorcher down third base line and Billings let it get away from him. Wilson started for second forcing Twohey to third. The latter then started to run back to second and Wilson to first. The ball was thrown to second and Twohey started for third. Again Billings missed the ball and Twohey and Wilson got home safe. A wrangle resulted but the umpire's decision was in favor of the college boys.

The lineup and summary follow:

All Hallows.		High School.

ONE NEW RULE.

Recalls One of the Most Famous Plays In Baseball History.

One of the new rules adopted by the major leagues at their recent meeting in New York recalls one of the most famous plays in baseball history. The rule referred to is that which provides that if one base runner passes another in an attempt to score while the other is being "tagged" out, the runner who passes shall be declared out.

It is calculated to prevent such stunts as the world-renowned slide pulled off by the great and only Mike Kelly when he was a member of the Chicago team. This happened in the last half of the ninth inning, when the score stood 1 to 0 against Chicago. Kelly was on first base and Ed Williamson was on second, and Anson knocked a fly ball out into right field. At the instant the fielder caught the ball both Kelly and Williamson made a dash for second and third. The ball was simply returned to the second baseman, but Kelly slid in and beat it by a hair. When Kelly arose from the ground and saw Bill Sunday at bat he grabbed his arm, and pretending to be writhing in agony, he signaled to the umpire to call time. Then he called to Ed Williamson to come and pull his arm. While Ed was doing so Kelly whispered to him as follows: "Say, Ed, when the pitcher throws the ball in, I'm going to start for third. This will draw the ball down to catch me, and then you make a dash for the plate, and I'll be right behind you. By this time you get near the plate the catcher will be waiting for you with the ball, but get as near as you can to the plate, then open your legs wide and I will try to slide in."

Oakland, Cal., April 9.—The Portland team suffered a shutout today at the hands of the San Francisco club. NO ELECTIONS IN CUBA BEFORE NEXT YEAR.

Havana, April 9.—That there will be no elections in Cuba before next year was the urgent request made by a committee of the Conservatives upon Secy. Taft today. The members of this committee, among whom are some of the strongest men in Cuba, argued that Cuba today was torn by political passion and that at least one year must pass before these can subside and elections be carried out in a manner creditable to both the United States and Cuba. The only other desire regarding the date expressed by the Conservative committee was that Cuban independence be re-established before the expiration, Dec. 19, of the present reciprocity treaty, in order that Cuba may be in a position to treat for a renewal of this treaty.

The committee urged the importance of holding municipal elections first and the other elections subsequently, separately or together, as Mr. Taft might think best.

Secy. Taft will communicate with President Roosevelt tonight by telegraph and he probably will make a statement tomorrow. Consequently great expectation prevails.

Although the committee of insurgent generals that conferred with Secy Taft yesterday reiterate the statements that Mr. Taft promised them national elections in December, it now appears, as a matter of fact, that the secretary only said he would recommend such action to President Roosevelt.

The legislative commission appointed by Gov. Magoon to revise the laws of Cuba, including electoral and municipal regulations, has been congratulated by Secy. Taft because it had not adopted Anglo-Savor laws, but on the contrary, has made use of Spain's laws, eliminating in some and in others adding what practise has shown to be suitable to the Cuban people.

The secretary highly spoke of Charles Crowder, the American chairman of the commission.

The rector and the members of the faculty of the University of Havana called on Secy. Taft today. This afternoon the secretary went out to Camp Columbia, where he reviewed the American forces under Gen. Barry.

KING ALFONSO PROPOSES TOAST TO KING EDWARD.

Cartagena, April 10.—King Alfonso, at the banquet in honor of King Edward in proposing a toast to the British monarch and Queen Alexandra, said that the whole Spanish nation had deep pleasure in receiving their majesties. The good relations existing between the two countries could only be of mutual advantage and would contribute toward the task of King Edward of strengthening peace and harmony between all states.

King Edward, in responding, in his own name, and that of the queen, thanked King Alfonso for his felicitous greeting. He deeply regretted the absence of Queen Victoria but was rejoiced at the reason which detained her at Madrid.

"We reciprocate the desire that the ties between our two houses and our countries, which are founded not only upon historical traditions but also on community of interests, may be strengthened and drawn closer together by these happy events," said King Edward. Then raising his glass, he proposed a toast to the Spanish royal family and wished prosperity, peace and progress to the kingdom of Spain.

Heart Like a Clock

The pulsation of the heart marks the passage of the blood through the veins, just as the ticking of a clock indicates the flight of moments of time. Palpitation, fluttering or irregular action reveals the fact that the heart is running down—and unless strengthened, is liable to stop at any time under some weakening influence, such as excitement, over-work, or intense mental or physical strain. To regulate the heart action, you should take Dr. Miles' Heart Cure when any symptoms of a weak heart is apparent. It has no equal.

"Sometime ago I had a very severe pain around my heart, and most of the time I had a heavy beating or throbbing of the heart. It would beat so that when I lay down at night it would sound like a small clock in bed with me. I could count the ticking. With every little exercise, or walking I felt like my heart would give out, and I would be so tired I would have to lie down and rest. I suffered quite a while in this way, then I concluded to try Dr. Miles' Heart Cure. I had not taken it long until I began to feel easier, and it continued, and the medicine entirely cured me. I am very grateful for the great good I received from Dr. Miles' Heart Cure."

My Beloved Friend:

It is a pleasure for me to congratulated you on the great success attending your school. I have not the words to fully express the great joy and happiness I have received through your cure of my defective speech. I stammered from the age of four years to nearly twenty-seven years, and I always stammored very badly and could not speak without great effort and at times it was impossible for me to utter a sound. I believe that I was one of the worst stammerers you ever saw. I was under your treatment four weeks and I never stammered on one word after my first lesson. Your treatment is such that an intelligent child of eight years can comply with all your instructions. Oh, I wish the afflicted stammerers would readily believe the truth of your statements, they would flock to you to be cured of their affliction. I will gladly answer any stammerer who may write to me concerning your school and your success, for I am indeed an affectionate friend to the stammerer. I am yours very respectfully. OSCAR PETERSON.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at $1.00 per bottle. Our little book, telling all about this liniment, will be sent free.
