receipt of a lately issued map of the Searchight, Nevada, mining district, compiled by M. L. Cook, a well known mining engineer of the "Camp Without

point. Haste shown in realizing in Read-ing and Amalgamated Copper discouraged the buils for a time. Moderately large or-ders were sent in for the Hill stocks and St. Paul and their quick response, to-gether with the report that \$2,00,000 gold had been secured in London for New York caused a vigorous rally all around. Quite a number of the favorites sold well beyond last week's final. The improve-ment reached 5%, in Great Northern pre-forred. 2% in St. Louis Southwestern pre-forred. 2 in Delaware & Hudson, 1% in Reading, 1% in Pacific Mail, 1% in St. Paul, and about a point in the Pacifics, Atchison, Amalgamated Copper and Unit-ed States Steel.

New York, July 16.-Sugar, raw, steady, Fair refining, 37-32; centrifugal, 56 ten, 123-32; molasses sugar, 2 31-32; Refined-Steady, Crushed, 540; 20wder, ed. 4.80; granulated, 4.70, Coffee-Steady, No. 7 Rio, 774. Atchison, Amaigamated Copper and Unit-ed States Steel. Efforts to cover and the energy of the bulls caused a good deal of enthusiasm in certain stocks, which had a beneficial ef-fect on the market. Union Pacific, South-ern Pacific, St. Paul and Amaigamated Copper rose 2, Great Northern preferred extended its advance to 74, Northern Pacific 3, Reading 3%, Northwestern, U. S. Steel 1 to 1%. Michigan Central sold 11 points above its preceding sale. Trading became duil but top prices were being well maintained at 2 o'clock. Michigan Central sold at an extreme ad-vance of 25 points. Amaigamated Copper gained 3, the United States Steel stocks, Pennsylvania and Missouri Pacific % to 1%. Liverpool, July 16.-Close: Wheat-Jeb, 6s Stad: Sept., 6s 75d; Dec., 4s 3d. TAKING THE CENSUS Enumerators Start Out to Get Statis. Prices made slight recessions, but the selling pressure was unimportant and there was a recovery to the top. The 40 census enumerators, appointed by the city board of education to take the census of school children in this city, commenced their work today and will conclude the census by July 31, at which time the school population or the city this year will be known, Last year the census only showed an increase in school population over the

previous year of 80, but when school opened the increase in attendance was over 800. This year the enumerators will endeavor to get all families in the city so that their returns will be cor-rect. The following instructions have been given to the enumerators to aid

them in their work: "You are requested to list all children between the age of 6 and 18 years, and all deaf, dumb and blind children between the age of 5 and 39, with name and postoffice address of parents or guardian.

"If you find a house vacant or closed you should return before making your final feturns and see if then occupied. "Parents or guardians are required by law to furnish list of children was

can Mining Congress Will Fight Fake Mining Promotors.

BUREAU

fare to be Started Augainst Ille-

The American Mining congress has taken up the fight against fake promoters and mining concerns and at a recent meeting of the executive committee of that organization determined upon a vigorous and unceasing campaign of purification.

For the protection of the mining investors of the United States, secretary James F. Gallbreath, Jr., secretary, has written, that it is the intention of American Mining congress to establish a bureau of inquiry through which information can be obtained as to the condition of the property and the standing of the company that has asked or is asking for the money of the investor.

The American Mining congress is a national organization of mining men, the directors of which are men of the highest standing in their own states, whose only interest is the uplifting of the mining industry. To this end, and among other things, the organization is working for the creation of a de-partment of mines and mining as a separate department of the national government, and for the enactment of laws in the various states making the concealment or misrepresentation of any material fact concerning a

In order that its board of directors may be kept in touch with the gen-eral sentiment of the mining world an annual session is held to which delegaes are sent by the president of the United Statets, the governors of the several states, the mayors of cities, and the commercial bodies of America. At its permanent headquarters at Den ver, Colorado, under the direction of its secretary a regular force is constantly employed in carrying on its work, no small part of which will be the protection of investors against mining frauds, to the end that mining may be placed more and more on an investment rather than a speculative

This bureau of inquiry will be ab-solutely impartial in its findings, its sole purpose being to prevent ill-ad-vised mining investments and to save the west from the disgrace which fol-lows dishonest mining promotion.

In order to thoroughly eradicate fake promotion, the American Mining congress is pledged to give to inquir ing members information absolutely unhiased, collected from unprejudiced sources, largely its own trusted cor-respondents, and to have but one end

age to the enumerators. Anyone refus.

in view-the protection of the investor, its belief being that every dollar improperly invested is a damage to all legitimate mining, and that the high-est good of the mining industry may be served by warning investors against all improper investments and furnishing such information as will guide them to channels which give promise of success.

DULL MARKET DAY.

Nearly All Stocks Called During Forenoon Calls Suffered Declines.

The week opened with a dull mar-The week opened with a dull mar-ket for mining stocks. Scarcely any business at all was done during the regular call, but on the open board, there was quite a display of activity for a time. But everything sought a lower level except New York and South Columbus, which closed at a slight advance. Columbus Consolidat-ed sold down to \$7.45 and Daly Judge was let go at \$11.27%. WILL BUILD SMELTER.

Asmus Boysen Company Will Establish Plant in Wyoming.

(Special Correspondent.)

Thermopolls, Wyo., July 12 .- The Asmus Boysen Mining company will es-tablish a large smelter in the Copper Mountain mining district, southeast of here, at once. The exact location has been decided upon, but in all probability it will be built somewhere on the 640-acre tract recently filed upon by Asmus Boysen in the landoffice at Lan-der. The land is about 13 miles from Thermopolis. Mining men who have visited the 640-acre tract say that it is one of the richest pieces of ground one of the richest pieces of ground in the west, and that unless all signs fail a second Cripple Creek will be estab-lished there in a few years. The survey for the extension of the Burlington's Franule-Denver line passes

through this tract, and directly by the proposed site of the smelter. The Big Horn river furnishes an abundance of water and there are large fleposits of coal within a few miles.

VALUABLE LANDS INVOLVED.

(Special to the "News.") Cheyenne, Wye., July 12 .- The Wya-ming agent of the Asmus Boysen Mining company was today served with a subpoena citing him to appear in the United States circuit court here on Aug. 6 and make answer to the complaint of william J. Broatch, Harry T. Clarke, Jacob E. House, Robert C. Wertz, Thomas Couglin and Charles Wood-hurst, plaintiffs in a suit instituted some time ago against the company. The point involved is title to valuable minimul lands in the Shokone Indus mineral lands in the Shoshone Indian reservation upon which Boysen filed rediaw cently.

SECRET GETS ORE.

Another New Shipper Comes to the Front at Alta.

Some good news was received at the office of the Secret Mining & Milling company today from Supt. R. W. Clough, who has charge of the devel-opment work on the Secret property at Alta.

The superintendent in a communica. tion to the secretary of the company, states that some sensational ore has seen struck in the tunnel and that the first shipment from the property will be made in about two weeks, and from that time on it is expected that the mins will be a steady shipper.

MINING IN NEVADA.

Prove, July 16.-John Warwick, cashler of the State Bank of Prove, has returned from his vacation spent at his mines near Luning, Nev, about 10 miles second of the state of the state of the second se 10 miles nerwest of Tonapah. The mines owned by Mr. Warwick and associates promise to develop into bo-nanzes. In doing development work ore has been taken out and shipments made which brought returns of 258 cunces sliver and \$12 in gold.

VISITS OLD SCENES. Robert J. Coleman, Former Manager

the

able. Eggs are rising as Utan hens decline to rise to the occasion and lay, so the retail price is up to 25 cents. There is a slight fall in cheese, also in the wholesale price of lamb. Grapes are in the market, at 25 cents for two pounds. The prevailing prices today are as follows: Samuel Newhouse in this state, return-ed to the city this morning and was greeted by r any old friends during the day. Mr. Coleman is on his way to Los Angeles, which is now his home, are as follows: after a business trip east, and after making an inspection of the properties RETAIL.

of the Lluyis de Oro Gold Mining company, situated in the state of Chihun-hua Mexico, with which he has been identified since leaving this state sev-Alfalfa eral years ago.

At a recent meeting of shareholders Mr. Coleman was named as general manager of the Lluvia de Oro mines, succeeding H. E. Carey, resigned. At the same meeting James Campbell, the well known St. Louis capitalist, who is Flour, high patent, per cwt2.40 known to Utah people through his con-nection with the Telluride Power company, was elected to the presidency of the company. Mr. Carey, who is a for-mer Utahan, has also retired from the beard of directors, but is still identified the company as a shareholder

Mr. Coleman is getting ready to in-rease the production of the mines and has his engineers at work on plans for a 100-ton amalgamation mill, to be folwed by a slimes plant of equal daily mpacity.

The company has been operating a 20-ton mill very successfully for some time past, which has been running

Mr. Coleman was with Mr. New-house at the time of the launching of the Boston Consolidated enterprise of Bingham, and he was much interested in hearing of the great work that has been undertaken by that corporation in the new world famed copper camp. Mr. Coleman will leave for Los Angeles this afternoon and expects to remain there nly one day before proceeding to Mexico again.

MAY BE TROUBLE.

Possibility of Labor Difficulties in Tonopah and Goldfield.

A private dispatch from Goldfield indicates that there is danger of a min-ers' strike being inaugurated in that camp and Tonopah on Aug. 1, when the new schedule adopted by the Mine Owners' association goes into effect, notwithstanding that there is little change from the Miners' Union sched-ule. It is said the mine owners will stand pat if, trouble comes; that the mines will be closed rather than make any concessions.

ORE FROM GOLD BUTTE. Finest Specimens Ever Brought From

Nevada Mine Reach City.

A box of ore from the property of the Nevada Gold Butte Mines company at Gold Butte, Nev., was received at the offices of the company on Saturday last. The lot contained the finest specimens of high grade gold ore ever brought in from the Gold Butte mine. It would be no trouble to get assays running up in the thousands of dollars

The box also contained samples of the ck through which the tunnel was heing run at the time the shipment left camp, being an altered Granite showing a liberal sprinkling throughout of iron sulphides. This rock was obtained at a point in about 180 feet.

HE LIKES RENO.

C. L. Dignowitty Believes it a Coming Mining Center. Charles L. Dignowitty, the well known

mining engineer who was active in the early development of the camp of Mer-cur, came in yesterday from Reno. Nevada, where he has established his western headquarters. He represents a great deal of eastern capital which is

annual meeting, but it is not believed that the trust wants the plant. In any toes, cucumbers and other vegetables, the tomatoes taking the place of the event the great steel plant at Pueblo will continue to run, whether it is own-Texas article, which has become ed by Gould, the people or the trust. There is too much money invested to close the plant down, and under the management of F. J. Hearne the steel venerable for exportation. Utah, also, works is being brought up to such a degree of shciency that it is only a mat-ter of a short time when it will be a good paying investment.

GARDNER DAILY STORE NEWS.

THE LIGHTEST OF THE LIGHT COATS.

For the man who is determined to secure the very coolest garments, but who must necessarily wear a coat of some sort, these are just the thing.

ALPACA AND

BLUE SERGE COATS

The Alpacas are the thinnest coats made, and we have them priced at \$1, \$1.50, \$2.50 and \$4.

Very light weight blue Serges come next. We have the Coats only at \$4 and \$5; coat and vest, \$5 to \$7.

For the man who might want something out of the usual in color, we have some light Serges in gray and stripes.

If driving or traveling, where clouds of dust are present most of the time, a Duster Coat would afford great protection to your dress suit, and you would have a better appearance at the end of your journey. They are priced at \$1, \$1.25, \$1.50, \$2.50 and higher if you want.
