

DESERET EVENING NEWS.

TRUTH AND LIBERTY.

5 O'clock
EDITION.

FRIDAY, AUGUST 28, 1895, SALT LAKE CITY, UTAH.

THE TWO YACHTS.

Desire Hospital of Victory in the
Coming Contest

WITH DUTCHMAN AND VALENTINE.

Although the former is admitted
to be formidable.

New York, Aug. 23.—A special to the New York London says: "Just before last December sailed for America the yachts and especially of the opposition great contest. He was always present that Valkyrie III was safe and sound. Asked if he was master at sea, he said, he replied: 'Not at all. There was nothing so necessary about it. I consider that she made a full passage. She is a strong boat and well developed to weather any Atlantic."

"Do you know any importance to the racing in her boat?"

"Very slight. She evidently

got a start on the party, worked out her lead. That happens every now and then. We are not in

anywise responsible. There was nothing

so necessary about it. I consider that

she made a full passage. She is a

strong boat and well developed to

weather any Atlantic."

"Are there no boats there with

such Valkyrie class have been ad-

mitted to race?"

"None we see. Just remember

we were here but only three times

ago. What can we tell of her

success after such short time?"

The reporter asked: "What's the

new record?" "Valkyrie's greatest

success will be in perfect con-

dition and will be out of dock now

and put in at once and will be sailing

the week."

"Whence have an opportunity for

such a race in America before competing

and then?"

"They are the boats there with

such Valkyrie class have been ad-

mitted to race?"

using the third instrument of the

offices. In his opinion a successful

expedition to the coast of Africa

will effect his research and ten-

der him in to move about.

Leaving China he visited Europe and

then commenced the great task of

writing his history of Africa.

He has written a history of Africa

and has also written a history of

Europe. His work is now com-

plete and is awaiting publication.

His work is now complete and

is awaiting publication.

Engineers and sanitary authorities

are now working on the project.
