

LOCAL AND OTHER MATTERS.

THEATRE.—Last night we are sorry to say that "Phyll" had a very slim house at his benefit. Owing to some cause or other, hot weather, lack of the needful, satiation, or all combined, the most sly theatrical bill of fare that can be served up has failed lately to secure a good attendance at the Theatre. We have heard it said formerly, that dull theatrical times were caused by the absence of "stars," that home talent was played out; but this certainly cannot be urged lately, for there has been a large amount of excellent imported talent; but their failure to draw good houses is certainly more complete than ever was that of the home stock company. It seems as if the people are tired of the imported article and want to return to home manufactures again. "Stars" have been so common here, that their lustre vanishes upon treading the stage of Salt Lake Theatre, and like the most ordinary mortals they fail to draw full benches and to secure full prices. Repetition of satiation may be the cause of this, and a few weeks' fast may whet the appetite of the great public for theatricals again, and a revival of the drama in Salt Lake City be the result.

Last night the bill provided was sufficiently varied to suit every taste. Music and the drama, the grave and the ludicrous, were well represented, but, notwithstanding this, every one felt the force of that "grandiloquent" speech made by "Phyll," when, called before the curtain at the end of the first piece, he said, "If I ever appear before you again on the occasion of a benefit, I hope money will be more plentiful and there will be a great many more people in the house."

We were extremely sorry to learn that Miss Lockhart was unable to appear last evening on account of severe indisposition; the part she was to have played was played on very short notice, by Mrs. A. Clawson. To-night, which is positively the last night of the season, the "Gentleman in Black," to be followed by an operatic concert by Miss Geraldine Warden, concluding with the fairy extravaganza of "Beauty and the Beast."

A CALL.—We had a call this morning from John P. Candee, Esq., editor of the Bridgeport, Conn., Standard, who, after a year's absence, has returned to his editorial duties, having taken a month's holiday for the purpose of traveling through the West by the U. P. R. and visiting this point. He is an old friend and schoolmate of our pioneer citizen Bro. Burr Frost. We wish him a pleasant sojourn among us.

PERSONAL.—Mr. Frederick Knowland, of New York, Agent of the passenger traffic of the Pennsylvania Central and its leased lines, including the Pittsburg, Fort Wayne, and Chicago and St. Louis railways in all this region, arrived in the city yesterday afternoon. His agency, we understand, includes thirteen States and Territories. Mr. Knowland has been for several years the general Western Agent of a portion of these lines in New York, and is said to be a young man of rare qualifications for such a position. His present visit is a preliminary one to examine the field and learn what is needed. He expects to establish agencies in every town on a plan that cannot fail to be successful. The railroad business, now that these western States and Territories are opened to railroad travel, must become an important interest here.

THREE MILE HOLLOW.—We wish the gentleman whose duty it is to keep the roads in good condition on the west side of the Jordan could have been in our office this morning to have heard Bishop Fred. Kesler's description of the wretched and almost bottomless condition of Three Mile Hollow and the reasons for its immediate repair. The Bishop waxed eloquent on the subject, and it was evident that he thinks it a disgrace to the county. It is nearly impossible for a loaded team to cross there. The Bishop travels the Tooele road as frequently as any person, but he says, "I cannot find the spot where the road crosses that rough, and he has tried many places both up and down. It should be repaired."

LEFT OUT.—A press of matter has compelled us to leave out some advertisements. We trust our advertising patrons will overlook the omission.

MESSAGE FOR C. E. ROBINSON.—There is a message at the Deseret Telegraph Office for C. E. Robinson, from Mount Pleasant.

RAIN.—Last night there was a slight shower of rain, and to-day the horizon is overcast, and a slight sprinkling of rain has fallen.

Burnett's Cocoa has received strong certificates of its virtue as a hair preparation.

Burnett's Cologne is unrivaled in richness and delicacy.—Baltimore American.

Burnett's Kallitron removes Tan and freckles and imparts a velvety softness to the skin.

Burnett's Flavoring Extracts are unlike any others, and they are called the best.

Dr. President Martin Van Buren and his Physicians testified to the wonderful efficacy of Jonas Whitcomb's Asthma Remedy in his own case.

POSTAL CHANGES.—In consequence of a change in the schedule time of the arrival at and departure of the mail trains from the terminus, A. W. Street, Esq., postmaster, wishes to notify the public that until further notice the mails for the East will leave the Salt Lake City post-office at 8:30 p. m., and will arrive at 4 a. m., and will arrive at 12 m.

Through mails will close an hour earlier and Territorial mails half an hour earlier than the times above specified.

DAN CASTELLO AT SAN FRANCISCO.—Dan and his circus gave their first performance at San Francisco on the 29th inst. The S. F. Times says "It is undoubtedly the largest, best selected and most perfect company that has ever visited the Pacific Coast." The highest encomiums are paid to the performance. The Times says "The one single act of a daring equestrian, jumping through a hoop, the rim of which was pierced with knives, the joints extending several inches inwards, deserves especial praise, and which for boldness and coolness of execution on the part of the performer, we have never seen equalled."

Hundreds were unable to obtain admittance to the second performance, given on the evening of the 29th, the enormous booth being crowded to its utmost capacity.

We are glad to hear of the success of Dan and his circus, but seeing that the folks of Salt Lake City treat him handsomely, we think it hardly fair that he withhold some of his best tricks, the hoop and knife, for instance. We certainly must have that sensation if he ever pays us another visit.

MURDERS.—On last Wednesday a restaurant keeper, at Carter, on the U. P. R. R., shot and killed a railroad employe, named Summers, in a dispute about a meal ticket. The man was arrested and taken to Laramie by the Sheriff of Laramie county.

On Monday a man was mysteriously killed at Granger. A partner of the deceased is in custody charged with the murder. Three days previously two Germans got into a dispute at Bryan, and one of them stabbed the other with a small penknife, causing instant death.

Richmond.—The State Journal publishes a letter from General Butler to a citizen of Virginia, with regard to requiring the test oath of the members of the Legislature. Butler's opinion, it is quite clear, is that it is within the power of the Government, and within the requirements of the law of Congress to see aside men who cannot take this oath. Butler adds that Congress is the only power which can remove the necessity of taking the iron clad oath.

Washington.—Nothing has occurred to show that the President will interfere with the coming election in Mississippi, but he has expressed his determination that it shall be a fair one. The District Commander has been ordered to appoint a Board of Registration in each county, composed of one Radical, one Conservative Republican, one army officer.

The Rev. James Lynch, a colored minister of Mississippi, says he has had a most cordial interview with the President, in which he assured the President that the colored people of all that constitute rapidly improving in all that constitutes safe citizens; they look to the Republican party as the fountain and bulwark of their recently conferred rights, and therefore will sustain it. That all classes in Mississippi had responded heartily to his famous words "Let us have Peace." The President expressed his gratification at the information, and said they should vote from the promptings of good judgment. He intimated that he had a great desire for the ratification of the Fifteenth Amendment.

Messrs. Joffard & Moorman, of Mississippi, to-day, addressed a note to Judge Dent, calling his attention to the published reports of his intention to decline the nomination for Governor of Mississippi, and asking for a definite statement as to the authenticity of the report. Judge Dent replied, saying, that while he could not decline what had not been formally proffered him, he would certainly accept the nomination if tendered; he had not authorized any person to state otherwise. He concludes by saying that he earnestly desires the restoration of the Southern States, with constitutions and laws which will effectually secure the civil and political rights of all persons.

Gentlemen just from Mississippi represent that the Conservative Republicans, similar to the Walker party in Virginia, are making accessions from the extreme Radical wing.

Philadelphia.—Wm. Michler, of Easton, has been appointed chairman of the State Democratic Committee.

Hon. Asa Parker has addressed a formal letter of acceptance to the committee appointed to notify him of his nomination for Governor. He pledges himself, if elected, to labor to secure the preservation of the State credit and the reduction of the expenses of the State to the lowest practicable point; to encourage liberal systems of improvements for intercourse and trade, a just execution of the laws involving cautions in sparing the use of the printing powers, the promotion of all educational enterprises, the restoration of purity and character to our government by putting down or preventing

special and corrupt legislation, and all improper uses or management of the public funds and a careful attention by the Government to the interests of labor. He concludes his letter by saying that inasmuch as his pursuits and training have not qualified him for speech making or the solicitation of votes, he will not be expected to undertake the performance of the active duties of the campaign, but refers the public to the record of his life, conduct and character already before them. Judge Hershing has also written a letter of acceptance of his nomination as supreme judge.

Arizona advises say the Indians attacked a mail carrier and escort, consisting of three soldiers, July 17th, between La Paz and Prescott; all the soldiers were killed; the mail carrier escaped, but was badly wounded. The Indians also captured and destroyed a wagon-load of provisions between Sulphur Springs and San Pedro. Three men were with the wagon, two of whom escaped from the savages, but died of fatigue and thirst. Arizona papers contain a touching appeal for more troops.

Reports from the Japanese colony in Eldorado county are favorable; the colonists have been sick of the acclimating fever, but are now recovered. The tea nuts which they planted are now up a finger's height. They are all tea gardeners and tea makers, and intend to make tea their specialty, and have no doubt of their success. They also planted some mulberry trees, all of which, were varieties from Japan. Next year, rice will be planted. The colonists are delighted with their location, and have written letters to Japan, earnestly entreating their friends to come to this country.

MORNING DAILY PAPER.

At the request of many citizens and patrons of the Salt Lake Telegraph, the undersigned has concluded to publish the Telegraph in Salt Lake City, as a Morning Paper, commencing at the earliest possible date. It is proposed to furnish the Telegraph to subscribers by carriers, who will collect according to subscription, and whose interest it will be to deliver the paper with punctuality and regularity at the houses of their patrons. The credit system which has heretofore prevailed in publishing papers in this country has been ruinous to the publisher and unsatisfactory to the patrons of the paper. Believing that the growth and advancement of the city demand it, we design, if the public will support us, to issue a paper that will contain the news of the whole world, and make such improvements in conducting it as our past experience will enable us to do; and to obviate the credit system we will receive subscriptions by the week, month, quarter, half-year and year. Subscriptions can now be handed in to the office of the Salt Lake Telegraph, in this city, at the following rates.

Table with 2 columns: Term (1 Year, 6 Months, 3 Months, 1 Week, Single Copies) and Price (\$12 00, 7 00, 4 00, 1 50, 10)

MAILED TO ANY ADDRESS: 1 Year, \$10 00; 6 Months, 6 00; 3 Months, 3 50

Any person sending the names of ten subscribers, with the money in advance, will receive a copy free; and proportionately for a larger number of subscriptions. T. B. H. STENHOUSE. d227-1f
