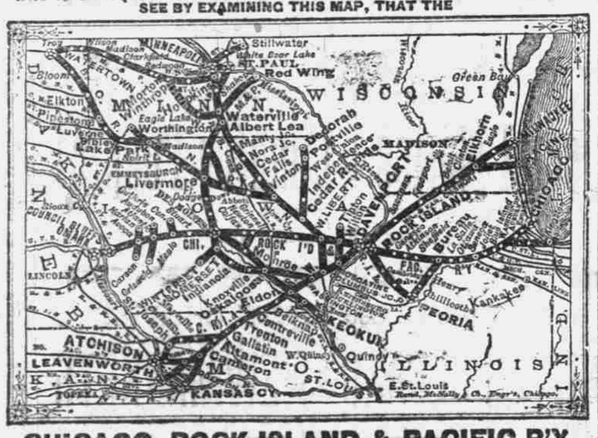
A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and —between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

A SURE CURE FOR THE PILES—You need not suffer from this most distressing disease again in all your life. Email's Balm acts as a poultice and lubricator, absorbs the tumors and allays the intense itching at once. No caustic, no acid, no pain. A. McGibbons Esq., 19 Poplar street, Allegheny, Pa., writes: "I had itching and bleeding piles so bad I could not sit, stand or walk without intense suffering. I doctored with many physicians, and tried all the (so called) cures that I ever heard of, in vain (paying out hundreds of dollars), until I used Email's Magic Balm, or Ointment. After the first application I enjoyed the best night's sleep I had for ten years, and two boxes have cured me completely." Wherever introduced Dr. Email's Balm takes the lead, and has the largest sale of any Pile remedy in the world. Sold by druggists everywhere or sent by mail, 50 cent boxes. CRITICAL ANALYSIS.

UNIVERSITY OF DESERET,
Salt Lake City, June 8th, 1887.

By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from **Alum, Starch, Flour, Bone Ash, Ammonia and White Earth;** and that it consists essentially of Cream of Tartar and Bi-Carbonate of Soda.

The Baking Powder examined I purchased at Barnes & Davis, in this city.

J. T. KINGSBURY, Chemist.

MANUFACTURERS, CHEMISTS, GOVERNMENTS, PRINCIPALITIES OR POWERS

are unable to disprove the Statement on every can of DeLand's Chemical Baking Powder **"Made of Pure Grape Cream Tartar and Bi-Carb Soda only.** No filling whatever."

CAUTION—Use one fourth less of this Baking Powder, and one-half less shortening with all recipes than with other Brands. d

EVENING NEWS.

Thursday, - - August 11, 1887.

CONFERENCE IN NEW ZEALAND.

Progress of the Work Among the Maories.

Editor Deseret News:

A conference of the Mahia District was held at Kahutara on April 30th and May 1st. Although it had been raining hard for nearly a week before, we were blessed with fine weather during the conference, which was appreciated by all the Saints, as there had been a tent erected for the occasion which was rendered uncomfortable and cold by the rain.

Quite a number of the Saints gathered from all parts of the district; also the local Elders, M. S. Marriott and B. W. Young, and also President Wm. Paxman with his traveling companion Elder Elias Johnson.

After the opening exercises President M. S. Marriott made a few introductory remarks, explaining the object of meeting together, and advised all to take care of themselves that no sickness and colds might come upon us through exposure to the weather.

Next the several branches were reported by their Presidents as being in a

FAVORABLE CONDITION.

President Paxman then addressed the congregation, Elder Elias Johnson acting as interpreter: I feel pleased to meet again with the Saints of this place in the capacity of a conference. If we have gathered together with pure intent the Lord will pour out His Spirit upon us, and we will receive the light of that Spirit within our hearts to guide us. He has done so formerly and He will do so again.

We should guard against any spirit that comes not from God. Whenever there is a spirit of fault-finding we may at once put that down as the spirit of the evil one. Let every one pick the beam out of his own eye before he tries to rectify his brother. As Saints we should live unitedly, and by so doing we can accomplish whatever we desire. It is the duty of the stronger to help the weaker and to save all that can be saved.

AFTERNOON SERVICES

were begun as usual. The statistical report was read by President M. S. Marlott. A few of the native brethren then spoke, bearing their testimonies.

Elder B. W. Young spoke a few words to the Saints, exhorting them to faithfulness. He indorsed what had been said, and bore his testimony to the truth of the Gospel.

Conference was then adjourned till Sunday morning.

A Priesthood meeting of the district was held in the evening in which the members were instructed concerning their duties and labors.

Sunday May 1st: Conference was again commenced at 10 o'clock. After the opening exercises the sacrament was administered.

Elder E. Johnson was the first speaker. He spoke of obedience to those who are in authority, and said it was necessary to do as we were advised by the servants of God. If any try to obtain salvation by any other plan than has been laid down for us in the Scriptures he is a "thief and a robber." Referred to the false prophets traveling around in our midst, and advised the Saints to have nothing to do with them, for they come but to deceive us.

President Paxman again addressed the Saints on the love of the Gospel. It is by this love that we obey the requirements of the Gospel and leave our homes to carry the message of peace to the world. Without this we would be afraid to face the dangers before us. Spoke of the promises to the obedient, and the temptations of the devil from the early period of the world to the present time, and gave much good and wholesome instruction. Morning meeting was then dismissed and a meeting called in which there were 22 ordinations to the priesthood.

PRESIDENT M. S. MARRIOTT

was the first speaker in the afternoon. Said he: I indorse all that has been said by the former speakers, and especially about false prophets. Satan is trying his best to deceive the people of God and if possible will deceive the very elect. My reason for thus speaking is because we have already some in our midst who have left the power of the priesthood to follow one of these prophets in the persuit of health, but they found it not.

The authorities were next presented and unanimously sustained.

Several natives then bore their testimony after which conference was adjourned.

Your brother in the cause of truth,
M. S. MARRIOTT.

A Two-Inch Miss.

The colonel had contributed fifty cents at Decatur, a quarter at Birmingham, 30 cents at Verbena and 35 at Bessemer—all for the rebuilding of "colored churches destroyed by cyclones," and when we got to Sheffield and an ancient darkey struck him again with the same old chestnut, he turned on the old man with:

"See here! Where is that church?"

"Bout ten miles from heah, sir."

"When did the cyclone hit it?"

"Las' September."

"I don't believe it! I believe you are lying to me! Now, then, will you tell the truth for half a dollar?"

"Y-yes sah."

"Very well. Was that church building blown down by a cyclone or not? I want a straight and truthful answer."

"An' you'll gin me fo' bits!"

'Yes, I will. You only wanted two bits for the church, while here are four for the truth."

"Den, sah, I shall let the church slide an' stick to de troof and hope fur de Lawd to forgin me! Dat sighclone just missed de church by two inches, but I fought dat was clus 'nough to collect a few dollars on."—*Detroit Free Press.*

Sea Gull Eggs.

These eggs, which are known in the San Francisco market as Faralone eggs, are largely used for cooking purposes at hotels and restaurants. They are gathered from the rocks, on the Farralone Islands, by Italian egg pickers, who understand scaling the precipitous rocks, and also how to elude the lighthouse keepers, who give them a lively chase when discovered. The plan pursued by the men is exceedingly exasperating to the officers of the government. A party of six, eight or twelve drop in one night unobserved and keep out of the way as much as possible. When cornered they readily agree to go away and vacate for awhile, but they invariably return and resume the picking. The precipitous character of the islands makes it a difficult matter to round up the men very often. The season for these eggs is very short comprising, only July and August.—*California Cackler.*

ELECTRIC MOTORS.—Many will be surprised by the statement that more than 2,500,000 passengers are carried annually in this country on street cars moved by electric motors. In Montgomery, Ala., electricity is used on 11 miles of road, and the cost is reported by the general manager to be only one-half the cost of horse power. Roads on which electricity takes the place of horses are found in Baltimore, Los Angeles, Port Huron, Detroit, Scranton, Appleton, Wis., and Denver. Electric railways are either in course of construction or under contract in 12 other cities, and 37 companies have been formed or other steps taken for the building of such roads. Upon none of the roads now in operation in this country, however, is force supplied by storage batteries attached to the cars. In most cases power is communicated by an overhead conductor. *Electrical Review.*

The Buffalo *Courier* suggests that it is too much trouble to keep up this row forever and that we ought to give the earth to Jay Gould and the Standard Oil Company and let them settle it between them. They are bound to get it eventually anyhow.

I was afflicted for several years with disordered liver, which resulted in a severe attack of jaundice. I had as good medical attendance as our section affords, who failed utterly to restore me to the enjoyment of my former good health. I then tried the favorite prescription of one of the most renowned physicians of Louisville, Ky., but to no purpose; whereupon I was induced to try **Simmons Liver Regulator.** I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health.
