JAPAN MAKES PROTEST TO FRANCE

Against Use of Island of Madagascar by the Russian Second Pacific Squadron.

TIME FOR ACTION HAS COME.

Charged With Giving Russians Sufficient Assistance to Invoke Angio-Japanese Alliance.

POSITION OF PARIS GOVERNMENT.

Has Taken Every Precaution to Secure Observance of Neutrality in French Waters in Indo-China.

Toklo, April 18 .- Discussing the presence of vessels of the Russian Second Pacific squadron at Kamranh bay, on the east coast of French Indo-China, the Jiji Shimpo declares that the use of the island of Madaguscar by the Russlan squadron was a direct and prelonged violation of the principle of neutrality, but on account of the distance Japan in that instance simply lodged a protest. The paper, however, insists that Russia is now using Kamranh bay as a base for action against her opponent and she intends to use it as the point for effecting a juncture with the remaining division of the squadron.

"If the use of Kamranh bay is continued," the Jiji Shimpo adds, "Japan must regard its neutrality as completely ignored, and Japan will not be obliged to respect Its neutrality. Violations of neutrality in distant ports are not important, but when close to the zone of war it is impossible to view

the zone of war it is impossible to view them with the same leniency."

The Jiji Shimpo further declares that France is lending the Russians sufficient assitance, thus actually joining issue with Russia against Japan and that it is now necessary for Japan to notify Great Britain and obtain her constitution according to the terms of operation according to the terms of the anglo-Japanese alliance. "Protests," the paper asserts, "are usavailing. The time for action has come."

The Nichi Nichi today says France

Habeas Corpus for Alien Denied.

San Francisco, April 18.—Judge De Haven, in the United States district court yesterday denied the application for a writ of habeas corpus made by the Pacific Coast Stemship company in the case of Mrs. Margaret Norrington, an allen who was denied a landing by the immigration officers. Mrs. Norrington left here last February for Victoria to hunt her relatives, about two months after her arrival from Australia. She failed to find her kin in Victoria and was ordered deported there.

She came back on the steamer, and was denied a landing, as she was likely to become a public charge. She was taken to Victoria again, the same process was gone through with in British Columbia, and she returned have the columbia. cess was gone through with in British Columbia, and she returned here on the City of Puebla three weeks ago.

The steamship company, fearing that they had the woman on their hands for an indefinite period, as she was not permitted to land from their steamer at either port, applied for a writ of habeas corpus with the above result.

BIG DAMAGE CASE.

That of Harris vs the Consolidated Gold Mining Co. Still On.

In the federal court today the entire session was taken up in hearing testimony in the case of Harris vs the Consolidated Gold Mining company. The ase has been on since Friday, and it s probable that a decision will be reached by tomorrow noon. Both sides are contesting the case with a great deal of energy as it involves a large cash outlay, and forms a precedent for a number of suits which are to fellow. An unusual feature of this morning's testimony was the effort of attorneys for the defense to perjure one of their own witnesses, T. M. Blacklock, mine foreman. The case hinges on whether Harris was injured by his own careless, ness in the risks natural to the mining business, or whether he was injured through a caving of timbers faultily constructed by the company. On this point the witnesses for the defendants and plaintiffs differ materially in their statements.

The next case on the federal court docket is that of Thompson vs the Utah Consolidated Mining company.

How a Drunken Tailor Got His Meas-Brements, and Result That Followed.

An interesting tailoring mixup occurred recently in this city, involving an alcoholic extravaganza calculated to excite a "smile that won't come off." "What sort of a mon-strosity did you take those measure-ments for?" The tailor at once res-ferred to his books, and stood aghast at the figures spread out there. How-ever, on recovering his breath, he thought the best way out of the dilem-ma was to let the thing go through, and d the damages himself, and he die o for inspection, it would have made stone dog laugh. The "bore" of the ants legs was that suitable for a 10year-old boy, while the waist band would have just fitted the president of the New York Fat Men's association. Then, one leg was shorter than the other. The vest appeared to have been ordered for a man seven feet high and weighing perhaps 100 pounds, and the coat was of the Sunny Jim pattern, and avidently intended for a short, fat man. Moreover, the suit was ordered for win-ter wear, but the material was of such light weight that one could almost blow

The tailor gave one long, lerne, lone, lingering look of utter despair, and then went out and, and—shot himself? Oh no, not at all. He just went out and joined the Salvation Army and signed the two controls. signed the temperance pledge,

St. Petersburg, April 18.-Gradually many interesting details surrounding the recent arrest of a band of about a dozen terrorists are leaking out. The capture which is regarded by the authorities as being of immense importance was accomplished by Kashovsky, he Russian Lecoq, who was dismissed from the secret police several years ago on account of his connection with Philippe, the Spiritualist, who created such a stir at court several years ago, and who, too, went to Paris to live. She was involved in the Nihilist plot to as-sassinate Emperor Alexander II, for which she was sentenced to 15 years in Siberia, but at the end of seven years she escaped to America. Perhaps the most romantic feature the fact that Mile. Leontieff convert-
