

JUDGE PARKER WILL NOT SPEAK.

Chairman Taggart Issues a Statement Saying Such is His Decision.

HE WILL NOT REVERSE IT.

May Make a Few Talks on Rosemount, Following in This Respect The McKinley Precedent.

New York, Oct. 6.—Chairman Taggart at Democratic headquarters gave out the following statement today.

"Shortly after his nomination Judge Parker set about the consideration of his course of action toward the conduct of the campaign. He consulted many men of large experience in such matters and made an examination of the course of every successful candidate. That done, he decided as it was necessary for him to do, what his course should be and he caused that decision to be made generally known. It was to the effect that he would not go upon the stump; that such speeches as he should deem it desirable to make could be made at Rosemount following in that respect the McKinley precedent of 1884.

"That decision made and announced, he proceeded to work along the lines he had marked out for himself. He believed then—as he believes now—that he decided rightly and to the amount of convincing would have been all that would be required for his life to be devoted to that cause. He was not moved by the fact that the incident is closed and those in charge of the campaign fully approve of the determination of Judge Parker.

Judge Parker, he was unperturbed to speak in various states and today's announcement is designed to prevent further similar requests.
