TO MINERS, FARMERS, MUNICIPAL CORPORATIONS & RAILROAD COMPANIES.

THE NEW LIGHT WEIGHT WATER PIPE.

Fig. 1.

SHOWING PIPE COATED
AND READY FOR USE.

AMERICAN PIPE CO'S
NEW LIGHT WEIGHT PIPE.

E. SCHUTZ

Fig. 2.

Is Superior for Hydraulic Mining, City
Water Works, and all other pur-
poses for which iron or wood is used to lay pipe now
manufactured. It combines

LIGHTNESS WITH STRENGTH,

Being from $\frac{1}{2}$ to $\frac{1}{3}$ the weight of iron, and

CHEAPNESS WITH DURABILITY.

It is made of the best Oregon Pine, and is sparingly bound with wrought
iron of suitable strength to sustain any required pressure.

The whole exterior is completely protected from rust
or decay by a thick coating of asphaltum,
while the interior being constantly

in contact with the water.

WELL LAST FORE GO X MARKS.

It is from 50 to 75 per cent. Cheaper than the Iron Pipe, and will sustain
a gravity head of 700 feet over 300 pounds pressure to the square inch.

It is already in use in many of the leading cities of the Pacific Coast, and is rapidly taking
the place of iron pipe along the lines of Western Railroads. It is used for Gas, Oil and
Water. For full particulars, prices, etc., address

JOSEPH A. WEST,
Ogden Junction, Ogden, Utah.

DAVID JAMES, Plumber,
Salt Lake City, Utah.

SIMPCTY SUPPLIED.

Improvements September, 1876.

North America's Strongest
and Longest Lasting
Reaping Machine.

One of my best
machines, having a
considerable claim for its great simplicity,
and a wonderful addition to the strength and
combination of labor and quality. It is
a beautiful specimen of mechanism. It has
been made with the highest skill and care,
and is strong enough to hold up any demands for
our market.
