PUBLIC DISPLAYS INTEREST

Much Buying for Outside Accounts Stimulates the Market-Brokers "Short" of Stocks Bearlah.

There was much activity on the mining exchange this morning and the peulfar situation of the market at present was displayed most effectively. While the demand for all the better class issues was extremely large okers "short" of stocks sold still more with a view to breaking prices. The earish movement had some effect upon but which in nearly every instance closed strong and higher. The public is much interested in the present market and the present heavy trading cannot result in any other than a strong builtsh market if it continues, and indications are now favorable for such a

Carisa was steady this morning around 20, with sales aggregating 4,500 shares, while Con. Mercur was weak and Daly West was considerably lower.

Lower Manmoth was again a feature and Daly West was considerably lower.
Lower Mammoth was again a feature and while large interests were thrown on the market insiders were reported to be absorbing the stock. During the regular session 8,700 shares changed ownership and the price which opened at 1.42 was pushed steadily up to 1.51½. Some Mammoth around 1.44 was purchased and Uncle Sam weakened from 7 to 36½, while Century was extremely strong at figures above 1.12.

On the open board Wabash, New Mork, Manhattan and Utah participated heavily and the session closed on the following market:

THE LOWER MAMMOTH.

Condition of the Mine Grows More Promising Daily.

The latest advices from Tintic indicate that the Lower Mammoth is in an extremely promising condition. The ore body on the 500 level continues to hold out strong and rich as ever while on the 600 the same chute is strongly evident. Drifting on the 300 to the ore chute is now under way and if the body of ore is encountered there the Lower mammoth company will soon be in a position to free itself from debt. DROWNED IN SNAKE RIVER. DAILY JUDGE AFFAIRS.

Thing Will Be in Readiness

An arrival from Park City last eve-ing stated that the Daly-Judge man-gement is rapidly getting things into

and entirely remodeled, while develop-ment is being pushed on several levels. The remodeled mill will soon be in condition to receive all the additional machinery and Manager Daly is still in the east hurrying the manufacturers to

push things forward.
On the property are no fewer than 200 men while all labor saving devices and plans are being put into effect. The great quantities of ore will all be lowered to the Anchor tunnel level and carried direct to the mill or railroad spur, which has been surveyed and will

soon be under construction.

The McSorley tunni is steadily being pushed forward towards the Bonanza blat country and is said to look fine.

Boy Drowned in Snake River-Power

Dam Dynamited. Boise, Idaho, Sept. 10,-The fact leaked out last evening, says the Statesman, that nearly a month ago the dam at the Rossi mill ditch was badly wrecked by dynamite. The dam was constructed of concrete, laid on the berdock and

as withstood the wear and tear of high waters and the jamming of the logs which have been brought down to the sawmill, which is situated near by, for the past seven years.
From information gathered it seems

the dynamite was placed under the cribbing, in which tons of rock had been plied, and discharged, throwing the timbers pell mell and almost completely wrecking that section of the dam. The damage is estimated at \$1,500.

As the ditch is used only for power purposes it seems difficult to find a mopurposes it seems difficult to find a mo-tive for wanton destruction of the dam. Since the occurrence workmen have been busy and the dam will soon be as good as before it was dynamited. An med guard now patrols the property.

The sad news has just reached here from Payette of the drowning of little Peter Boutin in the Snake river, near the railroad bridge, yesterday. The body has been recovered. Peter and a smaller companion were wading in the river and without any warning the for-mer went down in a place 15 feet deep.

THE LIST GOING WITH IT.

Caused by Less Confident Feeling Regarding Coming Dividend-Bond Market Irregular.

New York, Sept. 11 .- Yesterday's late liquidation of stocks was not resumed this morning, prices on the contrary showing a generally higher level with the improvement running to over a point in Reading, B. & O., Missouri Pacific and Denver & Rio Grande. Opening advances were not long maintained as the room traders realized freely all through the list. Declines from the best ran to about a point in Reading, Missouri Pacific and Southern Pacific. A later upward movement in Louisville, Southern rail and Illinois Central infused a better tone generally in the southern and southwestern groups, and a rally in the general list was assisted by a rise in Reading to 761/2. St. Paul was sold freely on the rally and when it eventually broke 2% below yesterday's final price to 189, the entire market fell back sharply and in some cases, well under last night. Rock Leland, Great Northern preferred, Pacific Coast and Cotton Oil declined a point or more and year, little trace recific Coast and Cotton Oil declined a point or more and very little trace remained of the early advances in various stocks. The break in St. Paul was ascribed to a less confident feeling regarding the rumored increased dividend on the stock to be declared today. Py noon St. Paul had worked upward on short covering to 199, but the recovery elsewhere was unimportant. covery elsewhere was unimportant. The bond market was irregular with large transactions in semi-speculative

against Prince Francis Joseph of Braganza and other men, took place in the Southwark police court early in July, and attracted much attention. Six Edward Clarke, the former solicitorgeneral defended the prince. The prosecutor altered the charge from "felony" to "misconduct" under the criminal law anjendment. Six Edward intimated that the defense would be conspiracy to rob and blackmail. Strict secrecy was observed by the court officials regarding the exact nature of the charges.
