joined resolution.
(Signed) FRANCIS KERNAN,
THOS. A. BAYARD, The amendment made by the majority in the phraseology of the Bayard joint resolution merely changes the words "United States Treasury notes," to "United States notes."

notes."
Morgan, presented the credentials of Luke Preyor, appointed Senator from Alabama. Preyor, took the A bill to relieve the United States Fressurer from the amount now charged against him and deposited with several States, was taken up.
Thurman opposed the resolution.
The money belonged to the United
States and should be paid according to the original natuerstanding. The morning hour having expired, the bill went over, and Morrill called up for consideration his resolution instructing the finance committe to inquire into the practicability of refunding the public debt at a lower rate of interest than four per cent., and made a speecch

He argued that a lower rate of interest than four per cent. cannot be expected to hold our securities at par, and that it would be for the best interests of the people to place our debt at home at four per cent. rather than at a lower rate abroad Maxey from the committee on postoflices, reported favorably the senate bill for the delivery of dutiable articles in the mails, and for indemnity for lost registered ar-ticles; placed on the calendar. On motion of Davis, of West Va. it was resolved that when the Senate adjourns to day, it be unti Monday next. The bill to establish a new land

Adjourned. WASHINGTON, 15.—After some miscellaneous business, consideration was resumed of the bill requiring one-half of the reserves of the national banks to be kept in gold and silver coin of the United

district in Dakota passed.

of the bill.
In advocating the bill relative to bank reserves, Price declared him-self opposed to any tinkering with the currency, either as to quantity or quality of the paper which was circulating. He was also opposed to taking away the legal tender quality of greenbacks. All prudent men spake in thunder tones, and said "let well enough alone." At the conclusion of a short speech by Lewis, in favor of the bill, the morning hour expired and the bill went over without action. The house then went into a com-

mittee of the whole on the report of the commissioner of rules. Knott, chairman of the committee on judiciary reported a bill amending the statutes as to the jurisdiction of Circuit Courts of the United States, and the removal of causes from said courts; ordered

whitthorne, chairman of the committee on naval affairs, reported a bill which was printed and recommitted, authorizing the equipment of an available of the Arctic ment of an expedition to the Arctic Horr expressed his intention of the part of his committee. The one he represented was the committee on manufactures, which was almost entirely ignored by the new rules. It had been created in 1819, while the committee on appropriations was not born until 1865, and when his committee had brought in its first bill in 18 years it had been taken away and given

to the committee on judiciary. He thought that most of the commit-tees of the House ought to report to the committee on manufactures. the committee on appropriations should report to his committee unfill be found that it devoted a large amount of time in manufacturing to the People of Maine; "political riders" Every work manufactured rider hould its base of the citizen the old committee unfilled in the citizen as the old committee of the state.

railroads should also report to it.
The committee on commerce ought not to report to the committee on appropriations, but to the committee on appropriations, but to the committee on the committee on manufactures first. It need not be sensitive, because it would get used to it. He continued in a very humorous vein, making cuts on various mambers of the House, particularly Cox and Wright, of Pennsylvania, who at the head of the committee had gone in search of general depression last summer (laughter); he (Horr) had studied the history of that search and had followed the committee to Chicago. Chicago had been an unfortunate place to look for general depression, because every industry there was booming.

The committee had taken testing the fusionist branches will proceed to the election of governor to-day. If they do, it will

directed by that committee to report back the joint resolution for the withdrawal of compulsory legal tender power of United States Treasury notes. The committee had made a verbal amendment to the resolution, unanimously agreeing to it and with the amendment directed him to report he resolution adversely. He understood there was a minority report to be presented, otherwise he should ask an indefinite postponement of the resolution. He asked that it be placed on the calendar for the present; so ordered.

Bayard, from the same committee, presented the views of the minority, accompanied by a resolution as follows:

The undersigned, believing the financial prosperity of the country to be enduring and secure must be based upon money of actual and intrinsic value, and that our government has no power, is incompeted to endow its paper obligations with such value, and the United States Treasury notes in existence and in circulation being now redeemable in gold and silver coin at the option of the holder, do recommend the withdrawal of the compulsory legal tender power of such notes and the passage of a subcompulsory legal tender power of such notes and the passage of a subcommittee rose, and Mr. Converse introduced a bill for the establishment of titles in the Hot Springs reservation; referred. Adjourned.

ELETERN. MAINE MATTERS.

H. A. Libby Sheriff of Kennebec County:

Dear Sig.—The services of your-self and deputies are required no longer to protect the public build-ings. You will please dismiss them

Respectfully, (Signed) James D. Lamson, Acting Governor. Sheriff Libby does not recognize Lamson as Governor and refuses to obey the order. He has ordered his deputies on duty to-night.

The following is the communication from Mayor Nash concerning

the police force: To Major General Chamberlain: Sir.—I have the honor to state that I will keep at the Capitol only such a police force as in my judgment events from day to day seem to render necessary for the preservation of peace and to protect the public property. In no case is such a force to annoy any person or interfere with any of his rights and privileges. After this day admission to the public buildings will be confined to the members elect of the Legislature and to those claiming seats therein, and such other persons as you may direct.

Very respectfully,

Your obedient servant,

(Signed) Chas. E. NASH,
Mayot. Sir.-I have the honor to state

The bribery committee of the House held a meeting this afternoon. Clark, greenbacker, the "counted in" member of the House from Nobleboro', testified that about a week before the meeting of the legislature his brother came to him and informed him that a certain tain man wanted him to go and see him (Clark), and tell him if he wanted to resign his position and give up his certificate, he should have a good place in the Boston Custom House as long as the republication of the control of the cont lican party was in power. A few days after, a man came to him, days after, a man came to him, whose name he positively refused to give, and renewed the offer of a place in the Custom House and \$1,000 in money, \$500 down and \$500 more after the organization of the House. He positively refused, and a man wanted him to come afterward to a house in Augusta. The man said the money he offered was his own. Clark was present exceedingly hard to give the man's

ceedingly hard to give the man's Alfred S. Kimball, county attorney of Oxford County, was the next witness. He saw Swann in Augusta on Monday, on the night of the organization, and Swann told him he had been informed that they were making efforts to buy up Representatives; that he was going into it, get some money and expose them. He saw Swann again a noon of the next day, when he (Swann) showed him a roll of bills which he said he had received from Wallace R. White, if he would resign his seat in the House. This is contradictory of Swann's affidavit, wherein he says he went from the Court House where he received money to the Granite National Bank and obtained a draft. The investigation was here suspended for the afternoon.

The great committee on ways and means certainly should because the question of tariff affected every manufacturing interest and should have the benefit of the student of t Augusta, Maine, Jan. 15th, 1.80.

mittee and not be decided by this new founding (the committee on banking). He wanted to appeal to the sense of the House if Congress should pass little bill appropriating \$45,000,000 for the benefit of soldiers who had been obliged to take greaten belong the sense of the House if Congress should be sent from any quarter which bring arow do of men of bolt greaten bring areas and there is considered, and the this city. There is great embarrassment in the policiest safe of finance, and would reduce their to nound clearly the duty of the great committee to which he belonged, and act thought that the configuration we transfer the sense of the hought that the public on the property of the great committee to which he belonged, and act thought that the belonged, and act thought that the belonged and act thought that the belonged and act thought that the configuration of the difficulties before us. Whitever threats are made I have no fears for my personal safety. If our people will all the belonged and act thought that the configuration of the difficulties before us. Whitever threats are made I have no fears for my personal safety. If our people will all the belonged and act thought that the configuration of the difficulties before us. Boston, 15.—The Journal's Augusta special says: The prevailing opinion is the fusionist branches will proceed to the election of governor to-day. If they do, it will not have the significance of yesterday, and will probably be unaccompanied by any idea of employment of force to break down the power of Gen. Chamberlain, as they intend to do then. If they do this, it will be in order to make all progress possible before the decision of the court is reached. The fusionists claim they have never thought of using force against Gen. Chamberlain.

lain.

It is now stated that Gen. Chamberlain refuses to comply with the request of Lamson to diminish the number of police at the State House. If any change is made, it will be to strengthen the force.

The fusionists held a caucus to-night, prosumably to determine upon the course to be pursued hereafter. The meeting was secret, but it is reported that they intend to proceed to the election of Government and State officers to-morrow regardless of what may be the row regardless of what may be the nature of the Supreme Court's decision of the questions submitted by the republicans. It is also said they will await until the decision is rendered before taking this step.

The rumor that Gen. Chamberharbor bill, and was participated in by Messrs. Sparks, Scales, Warner, Kenna, Mills and Reagan. The diversity of the season at headquarters. at headquarters, at over

Difficulties with the Electric Light. NEW YORK, 15.—The Graphic has a report from Menio Park to the effect that the carbon horse-shoes, the main reliance of Edison in perfecting his electric light, have failed, and that in censequence he has decided to suspend Augusta, 15.—The following oratheir further manufacture. Mr. Edison, however, is not downheart.

> The Post, referring to the same subject, says: Some days ago many lamps, which had been burning beautifully, suddenly went out owing to the breaking of the cat-bon horseshoes. Some lamps were found to last not more than an hour and it was decided to suspend their further manufacture. Edison is now at work trying to find out the weak point which causes the trouble. He thinks the heat emitted by the light cracks the blaze at the tie place where the platinum wires enter the lamp and that the air gets in. No change can be found in any of the carbons which have ly 40 days. A new glass blower has been engaged and a modification may be made in the lamp, allowing for some means of carrying off the Exchange Draw heat emitted o

Edison and his assistants hope to overcome the newly discovered dif-ficulties in time to introduce the light into practical use in New York City before next winter. Edison says that he has had hard work in convincing the people that his lamp is yet an experiment only. The Evening Post reporter visited Edison's workshop at Menlo Park yesterday, and found matters at a stand-still, owing to the breaking of fifty of his carbon horseshoes two weeks ago; and failing to detect the cause up to the present time. the cause up to the present time, Edison has stopped manu acturing the lamps hitherto used.
