TAKES TWO YEARS TO BUILD 8 MILES

Huge Undertaking in Nevada on Main Line of Central Pacific.

THREE BIG TUNNELS IN IT.

Over 8,800 Feet to be Bored Through The Mountains—Big Fills, Cuts And Bridges.

"The Central Pacific is not exploiting to any great degree the vast improvements that are being made between Ogden and Reno, consequently the general public has little idea of the magnitude of the work outside of the Ogden-Lucin cut-off," said a local railroad official this morning.

"Take for instance the work now under way at Ryndon. It has been going on for the past year and will be in progress for another 12 months before it is finished. There Messrs. Erickson & Peterson, the contractors, keep on an average of 400 men at work which goes on night and day. Here the firm has installed an electric light plant, the dynamos being run by a 175-horse power engine, which furnishes light in the tunnels and on the grade and lamps are strung for nearly five miles. There are three big tunnels now being bored, the most westernly one of the three being 2,750 feet in length and is nearly completed. Tunnel No. 2, is the main tunnel of the three and when completed will be 4,460 feet long; of this distance about 700 feet on the west end and 1,400 feet on the east have been driven. The third tunnel, the east one, will be 1,700 feet long; 450 feet has been driven from the west and nearly 100 from the east. All three tunnels are timbered along the same linese as in Aspen tunnel with big balks 10x14 inches, placed close together near the portals and at wider intervals as they go into the tunnels. These are backed up with three inch lagging and present a very neat appearance. Between tunnels 1 and 2 a big steam shovel is at work on a 50-foot cut. In all the firm has the contract for construction on eight miles which includes two big cuts, three tunnels and a heavy fill. In this stretch the line crosses the Humboldt river four times, necessitating as many steel bridges of 120 feet span. By this cut-off the Central Pacific will save four miles, to say nothing of reducing and equalizing grades and eliminating curves. W. R. Fontaine is the engineer for the railroad company and he has his headquarters at the office of the Ryndon telegraph and passenger station which is situated near the western portal of the main tunnel."

W. A. CLARK COMING.

Here on the 20th — Arrived in Los Angeles Yesterday.

Senator Thomas Kearns, who returned yesterday afternoon from St. Louis, states that Senator W. A. Clark will arrive in Salt Lake on the 20th, and that while here the formal transfer of the Oregon Short Line holdings south of Salt Lake to the San Pedro will be made. T. C. Kerens and wife are expected to arrive at the end of next week, and will remain in Salt Lake for some days as the guests of Senator Kearns.

A dispatch from Los Angeles today says:

Senator W. A. Clark has arrived here. The senator has come here primarily in the interest of his steam railroad, and secondarily to "look over the field," as he expressed it and find out where the hitch is that is blocking his electric railway project of which three-cent fares will be a feature.

Senator Clark denied that E. H. Harriman is in any way interested in the electric road project.

R. G. W. LAYING STEEL.

Getting Ready for Heavy Traffic on San Pete Branch.

Travelers, who occasionally go south of Manti, will undoubtedly be pained to learn that the excitement incident to traveling over light rails at 10 miles an hour, is soon to become a thing of the past. The section gang is at work laying heavy steel and has now reached a point below Gunnison with indications that heavy steel into Salina will be a feature in the near future. This move is taken to mean that the Rio Grande is getting ready to push work on the Salina cut-off, and that there will be a general transformation scene on the Sanpete branch this summer.

"Tell me what you *like* and I will tell you what you are."
—John Ruskin

If you had told the great art critic that you *liked* Gorham silver he would have told you that you *were* a person of good taste, for

GORHAM

must have satisfied even Ruskin, not only because it is beautiful in design, but by reason of its inherent truth and honesty of workmanship. It follows another Ruskinian dictum too: It is *useful* as well as *beautiful*.

STERLING

All responsible jewelers keep it

SPIKE AND RAIL.

Russell Harding, the Rio Grande officials and Vice President Kramer of the Colorado Midland, left Salt Lake for Denver on a special yesterday afternoon at 5 o'clock.

C. J. McNitt, auditor for the Oregon Short Line, has gone to Portland on combined business and pleasure. During his absence Chief Clerk Cruickshank occupies his desk.

The equipment of the temporary hospital at Pocatello has been completed with the receipt by Dr. Wright, surgeon for the Short Line, of a handsome chest containing a complete line of surgical instruments to cover any emergency that may arise.

The Rio Grande is doing considerable work on track improvements between Cisco and Price.

FEDERAL COURT CASES.

The case of John Boss vs the Centennial-Eureka Mining company, which was dismissed in the federal court yesterday for the term, has been settled for $6,000. Boss sued for $20,000 damages for injuries received through falling down an ore chute in the company's mine. The case had been tried twice. The first time the jury found for the defendant, and a new trial was ordered; the second time the jury disagreed.

Today Judge Marshall and a jury listened to the trial of the case of Beatty vs Franklin, a suit on a promissory note.

Barzilla S. Harrington of Salt Lake today filed a petition in bankruptcy in the federal court. The liabilities are set forth as being $5,001.15, with assets of $30, in household goods.

Judgment Against Arthur Brown

Judgment by default in favor of plaintiff for $4,558 has been rendered by the clerk of the Third district court, in the case of W. S. McCornick vs Arthur Brown. The action was brought to recover the above amount due on three promissory notes executed by Senator Brown on May 2, 1901, and Feb. 24, 1903.

Two More Divorces.

Martha A. Burns was today granted a divorce from Andrew C. Burns, by Judge Hall, on the grounds of cruelty and habitual drunkenness. The parties were married in this city on May 13, 1899. Mrs. Burns is granted the custody of their five children and is awarded their house and lot in lieu of alimony. She is also awarded all of the household goods. The real estate is described as part of lot 7, block 13, plat F.

Judge Hall today granted Emma Kromyer a divorce from Robert Kromyer on the ground of desertion. They were maried in September, 1889, and defendant deserted his wife on Dec. 25, 1900. Mrs. Kromyer is granted the custody of their two children.

A NEW INVENTION.

Salt Lake Man Devises an Electric Curling Iron.

Asst. Secy. Murray Shepherd of the Utah Light and Power company has invented an electric curling iron that is unique and convenient. The inventor has prepared for the iron a receiver that fits between the switch button connection and the lamp proper, and the current passes through the iron before continuing on through the carbon of the lamp. While the iron is heating in the electrical current, the lamp is dim, but increases in brightness as the iron heats up, until the brilliancy of the lamp is shortly restored. Mr. Shepherd says that a minute and a quarter should suffice for the first heating; and for the second heating, less time is necessary. The heat imparted is just enough to curl the hair, and there is no danger of burning.

A feature about the connection is that where the button connection is of the Thompson-Huston system, there is a special "bushing" that fits into the button cap and connects on with the receiver which is of the Edison system, so that the presence or absence of the one system makes no difference whatever. The curling iron is of convenient style and size, and easily carried about.

RUMORS OF A STRIKE.

It is rumored that the employes of the Century mine have gone on a strike, but the report could not be confirmed this afternoon. Manager P. W. Madsen has gone to the mine.

PENSION FOR P. W. HILSMAN.

(Special to the "News.")

Washington, D. C., May 7.—An original pension, $6 per month, has been granted Philip W. Hilsman, Boise, Ida.

KINDERGARTEN MEETING.

An important meeting of the Utah State Kindergarten association will be held at the Exponent office, Templeton building, Friday evening, the 8th inst., at 7 o'clock.

DONNETTE S. KESLER, President.

Hood's Pills

Rouse the Liver

Cure Sick Headache, Biliousness, Sour Stomach, and Constipation. Sold everywhere, 25c. per box.

Prepared by C. I. Hood & Co., Lowell, Mass.

FAMILY CARES.

This Information May Be of Value to Many a Mother in Salt Lake City.

When there is added to the many cares inseparable from the rearing of children that affliction of weakness of the kidneys and auxiliary organs, the mother's lot is far from a happy one. This condition can be quickly changed and absolutely cured by the use of Doan's Kidney Pills. When this is known the mother's burden will be lighter and her home happier.

Mrs. Jas. N. Haverty, Jas. N. Haverty, carpenter, of 442 north Third West, says: "A case of a child came to my notice some time ago who from infancy had, and probably inherited, weak kidneys. She was under the care of physicians and I know that a great many advertised remedies were used for that weakness known to mothers as bed wetting, but no treatment employed had any marked effect, and as everyone connected with the youngster was anxious to see the embarrassing condition removed Doan's Kidney Pills were procured for it at the F. J. Hill Drug Co.'s store. They gradually strengthened the overexcited and weakened organs until they performed their work naturally. I know from observation and also from conversation with other mothers and guardians of children in Salt Lake City that this trouble is much more prevalent and naturally so than the public are aware. Now, when a remedy which can be depended upon to do its work quietly and thoroughly is within the reach of any mother or guardian I think that remedy should be made known. To say I endorse Doan's Kidney Pills for the weakness mentioned above very mildly expresses the fact."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

STOCK ON UINTAH RESERVE

Hundred and Seventy-Six Permits Issued to Graze 9,797 Head of Cattle and Horses.

Forest Supervisor Marshall Notified—Plans for Ft. Hall Indian School Sent to Secy. of Interior.

(Special to the "News.")

Washington, D. C., May 7.—The secretary of the interior has notified D. S. Marshall, forest supervisor at Kamas, Utah, that 176 permits have been issued to pasture 9,797 cattle and horses within Uintah forest reserve.

FT. HALL INDIAN SCHOOL.

Plans and specifications for the Indian school plant at Ft. Hall Indian reservation have been completed and transmitted by the Indian office to the secretary of the interior for authority to advertise for bids for its construction. There is an appropriation of $75,000 made for the erection of this plant as provided for in an agreement made with the Ft. Hall Indians and ratified by Congress June 6, 1900.

MAIL MATTERS.

A postoffice has been established at Burns, Lincoln county, Idaho, with James F. Burne as postmaster.

The contract for carrying the mail from Heber to Park City, Utah, has been awarded to Elisha J. Duke, Heber.

From Slick Poo to Lapal, Idaho, to Patrick Cavanaugh, Slick Poo.

FOUR METALS MEETING.

George L. Moats Re-elected General Manager of the Company.

At the annual stockholders' meeting of the Four Metals Mining company, held this afternoon, a board of directors, consisting of the following, was elected: H. H. Brandeis, Frank Severance, John Goodlett of Omaha, D. J. Evans, G. L. Moats, of Salt Lake City; Leopold Hahn, Hastings, Neb., and Atlee Hart, Dakota City, Neb. The board organized by the selection of H. H. Brandeis, president; Joseph Giles, vice president; G. L. Moats, treasurer, and general manager, and R. P. Hills, secretary. The total receipts of the fiscal year, including $978.80 on hand May 1, 1902, amounted to 12,995.32. The expenditures were $11,997.01, leaving a balance on hand of 998.31.

The new board is in session this afternoon and will provide ways and means for the erection of a new mill at the company's property in Deep Creek.

AMUSEMENTS.

At the Theater tonight, Miss Mary Mannering will be seen for the first time since she made her big success here in "Janice Meredith." Her new play, "The Stubbornness of Geraldine," is said to be one of the best of Clyde Fitch's creations, and as Miss Mannering has her own New York company, with all the original scenery, she ought to do strong business.

* * *

The Griffiths company closed its season last night, to what was probably the smallest audience that has assembled in Salt Lake for many seasons past. While such a record is regrettable, it must be said in all truth, that Mr. Griffiths is old enough to have known better.

* * *

At the Grand last night the Warde company closed its series of "Othello" performances, and tonight it will present the romantic play "The Lion's Mouth." This will run the remainder of the week, and commencing next Monday the new melodrama entitled "At the Edge of the Grave," will be given its first presentation here.

* * *

The cosy little theater in the Twentieth ward Amusement hall was well filled last night with an appreciative crowd of admirers which came out to greet those four veterans of the drama, Phil Margetts, R. F. Neslen, Mrs. Romney and Harry Horseley. All were given a hearty reception and the little play of "The Chimney Corner" and the hilarious farce of "Mistaken Identity" were well received. In the latter Mr. Young and Mrs. Richardson were the features. Between the acts Mr. Bert Margetts sang a solo, and Sid Clawson and George Margetts gave one of their ebullitions of fun.

LATE LOCALS.

The weather office predicts light frost for tonight, and warnings have been sent out.

The large yard in front of the Auditorium hotel on Third South street has been seeded to lawn and planted to flowers.

Today's local bank clearings amounted to $465,408.79 as against $511,278.26 for the same day last year.

William Roach is being tried by a jury in Judge Diehl's court this afternoon on the charge of befouling the water in Parley's canyon.

It is understood in business circles that the Salt Lake Hardware company is to occupy the entire Central block when it has been rebuilt.

One case of smallpox was reported to the board of health today, that of Harvey R. Brimley, aged 2, residing at 348 west Eighth South street.

The Congregational congress of the Pacific slope convenes at Seattle tomorrow for a several days' session, and Rev. E. I. Goshen of Ogden, well known in this city, is on the program as a speaker.

Elder Royal B. Young will lecture on "American Antiquities" under the auspices of the Seventh quorum of Elders in the Twenty-second ward meeting house on Friday evening, May 8, at 8 o'clock. The general publis is invited.

The cause of electric lamps acting unsteadily this morning was due to some disturbance on the Telluride system which blew out the fuses of the Utah Light & Power company's connections. The trouble was rectified in a short time.

Judge Diehl had a quiet session this morning, only two cases being before him. Pat Marino, charged with assaulting a boy with a deadly weapon, was discharged, as there was no evidence against him. The case against Bray & Schaffer, accused of adulterating milk, was continued indefinitely.

The coroner's jury chosen to investigate the death of the infant found in Jordan river Sunday night met in Justice Clark's office this morning but adjourned until 3 o'clock this afternoon. No autopsy was held on account of the remains being so badly decomposed. The body was ordered buried and the matter will be attended to by Undertaker Evans.

E. W. Smedley of Bountiful has returned with his family from Kansas City, where he has been attending the Western Dental college. He comes home a graduate of that institution and was in Salt Lake today for the purpose of having his diploma registered and securing a state permit to practise his profession. Dr. Smedley will locate in Davis county.

Clarence E. Johnson, irrigation expert, and assistant to Prof. Elwood Mead of the department of agriculture, arrived this afternoon from Cheyenne, and is at the Kenyon. Mr. Johnson is investigating the present irrigation status in this part of the country, to ascertain how much water is being used, how far the water that is used will go and the probable supplies for the coming season.

There are sad stories being told of losses of sheep on the trail from the winter feeding grounds to the summer ranges. There has been a great deal of feeding done the past winter, and the sheep did not seem to gain strength enough from the hay to maintain them in satisfactory condition. So now they are reported dying in large numbers, many of them before lambing. The winter was severe on the sheep.

A troop of the guard was inspected last night, with 31 men present; only two of the roster being absent. The drill was a dismounted one, and the inspecting officer, Captain Sturgis, expressed himself as pleased with the showing. He found the equipment in excellent shape. The signal and hospital corps appear "on the carpet" tonight. Colonel Park had the band practising marching maneuvers for over an hour last night in Christensen's hall, so that the organization will make a good showing when its turn comes.

Ten thousand dodgers advertising the coming school concert in the Tabernacle have been scattered broadcast in and out of the city, giving the array of musical talent that is to participate. It includes Miss Emma Ramsey, Held's Military band, Miss Sallie Fisher, Tabernacle choir, Euterpe (ladies') Quartet, Master Arthur Pedersen, Prof. Anton Pedersen, Mr. Charles Kent, Prof. Thomas Radcliffe, Prof. John J. McClellan, Imperial Male Quartet and the hymn "America" as the closing number by the choir, Held's band, the great organ and the audience.

The Salt Lake stock yards have been a busy place of late. Within two weeks 600 cars of sheep have been received from the winter ranges for shipment to the summer ranges, many going into Idaho. Twenty-seven cars of sheep arrived yesterday from Thomas W. Jones for transfer to Wasatch; and 15 cars of sheep were received from the Deseret Live Stock company and others for shipment to the same place. A. England dropped in today with 29 cars for Kelly, Ida., and John Smith brought in nine cars for shipment to St. Anthony. The movement, however, is nearly over, and 200 more cars will finish up the business.

DISFIGURED WITH ECZEMA

Under Physicians Five Months. Went from Bad to Worse. Could Not Go Out. Cured in One Month by Cuticura Remedies.

I was troubled with eczema on the face for five months, during which time I was in care of physicians. My face was in such a condition that I could not go out. It was going from bad to worse and I gave up all hope, when a friend highly recommended CUTICURA REMEDIES. *The first night* after I washed my face with Cuticura Soap and used Cuticura Ointment and Cuticura Resolvent *it changed wonderfully*, and continuing the treatment it removed all scales and scabs. From that day I was able to go out, and in a month my face was as clean as ever.

THOMAS J. SOTH,
317 Stagg St., Brooklyn, N. Y.

The above letter was received in 1898 and he again writes us, Feb. 19, 1903, "I have not been troubled with eczema since."

The agonizing itching and burning of the skin as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures of the civilized world.

CUTICURA REMEDIES are sold throughout the civilized world. PRICES: Cuticura Resolvent, 50c. per bottle (in the form of Chocolate Coated Pills, 25c. per vial of 60), Ointment, 50c., Soap, 25c. Send for the great work, "Humours of the Blood, Skin and Scalp, and How to Cure Them." Depots: F. NEW, Charterhouse Sq., London, E. C. French Depot, 5 Rue de la Paix, Paris. Australian Depot: R. Towns & Co., Sydney. Potter Drug and Chemical Corporation, Sole Proprietors, Boston.

ABSTRACTS.

Three points to think of when you get Abstracts of Title to Real Estate.

1. Completeness.
2. Accuracy.
3. Responsibility.

The Utah Savings and Trust Co. invites an examination of its complete real estate records, of the methods adopted to secure accuracy, and of its ability to make good any loss caused by error or omission in its abstracts.

The value of an Abstract depends on these three vital points. Insist on an abstract from

UTAH SAVINGS and TRUST CO.
