SUB BILL IS WHAT LIQUOR MEN WANT

Some Brief Interviews on the Badger Measure from Prominent Citizens.

Issued Mondays and Thursdays and Contains All the Cream of the Daily and Saturday News.

PROHIBITION COMING SURE.

People of the State and the Republican League Will be Satisfied With Nothing Less.

On the theory that half a bad is better than no bad those in favor of prohibition are swallowing Badger's substitute bill with reluctant grace. In addition to the sentiments of prominent citizens on the subject already printed in the "News," are the following:

Nophil L. Morris—The bill is what the liquor interests want. Knobler is reported to have said that he had got all he wants. The people of the state and the Republican prohibition league will not be satisfied with anything short of absolute prohibition, which they will get soon or later.

Ex-Councilman E. E. Rich—I'm in favor of prohibition and I would much rather see that because it would at once kill the saloon snake, while the Badger bill means putting the saloon to death slowly, by degrees. I prefer prompt and sure execution.

Bishop Jules West—That bill is all right, put it through. It ought to kill off the saloon.

Ex-State Treasurer Chapman—The bill strikes me as on the whole a pretty good thing, although a few features might be changed. I don't think Salt Lake and Ogden ought to be made separate to the county local option feature, there is really no reason for it.

W. S. McCook—Seems to me the proposed law is terrible, noticeably in the matter of hour of closing, seven o'clock to two early; but I approve of closing in tight on Sundays. The other features of the measure are not objectionable, and particularly desirable is the provision against treating. This causes more drunkenness than anything else.

E. H. Love—I don't like the Badger bill in its present form—Mr. Love failed to see the consistency of necessity in exempting Salt Lake and Ogden from the general county local option feature. He believed local option is the best way to reach up to prohibition which is the ultimate aim of the Anti-Saloon league, but was ready for county local option as a step in the right direction. I would not except Salt Lake or Ogden from the operation of the county option provision. As to closing the saloons at 7 p. m., I am in favor of shutting them off altogether, why the earlier they are closed the better it suits me.

Russell Tracy—I am heartily in favor of prohibition; but I think the house bill was too radical. The Badger measure I consider as ideal.

Judge Miles—I should be glad to see whisky wiped off the face of the earth.

Ex-Councilman Crabtree—I think the hours are all right, excepting the hours of the saloons.

Col. J. A. Brown—I think it would be a good thing if the legislature could adjourn for four years, and thus give time.

The American boys are great lovers and gear fighters."

Very likely the basement of the Lion House. It will be under the same management as that of last conference, which was so successful. A nursery for babies is arranged, a plan of competent help and every modern convenience is assured for the children, and Mrs. Card invites all the mothers attending conference to take advantage of it.
