## JUNCTION CITY VITAL STATISTICS

Sanitary Inspector Albert Power  
Makes Report for 1904—Low  
Death Rate for Ogden.

## PROPOSED HORTICULTURAL LAW

Eighth Grade Graduates—Double Wed-  
ding in Eccles Family—Par-  
ents' Convention.

Ogden, Jan. 28.—Sanitary Inspector Albert Power has submitted the following interesting and complete statistical report of his office for the year 1904 to Mayor William Giamann.

Ogden City, Utah, Jan. 25, 1905.  
Hon. William Giamann,  
Mayor, Ogden City.

Dear Sir:—I have the honor to make the following report of the vital statistics, and the number of contagious diseases occurring during the year 1904 as follows:

Males, 59; scarlet fever, 43; diphtheria, 44; chicken pox, 23; smallpox, 2; whooping cough, 1; pneumonia, 1; tuberculosis, 1; total, 211, a decrease of 42 as compared with 1903.

Deaths for the year 1904, males, 266; females, 262; total, 528. Total, 528, for 1903, males, 225; females, 207; total, 432.

This shows an increase of 155 births reported for 1904, owing to the physicians making a full report of the year, and failing to make a full report for the year 1903.

Deaths for the year 1904: Males, 121; females, 118; total, 239; still born, 28. Total, 267, for 1903, males, 185; females, 143; total, 328.

Deaths for the year 1903: Males, 103; females, 94; total, 197; still born, 17; total, 214. Deaths for 1904, males, 266; females, 262; total, 528.

Deaths for the year 1903: Males, 103; females, 94; total, 197; still born, 17; total, 214. Deaths for 1904, males, 266; females, 262; total, 528.

Deaths for the year 1903: Males, 103; females, 94; total, 197; still born, 17; total, 214. Deaths for 1904, males, 266; females, 262; total, 528.

Deaths for the year 1903: Males, 103; females, 94; total, 197; still born, 17; total, 214. Deaths for 1904, males, 266; females, 262; total, 528.

Deaths for the year 1903: Males, 103; females, 94; total, 197; still born, 17; total, 214. Deaths for 1904, males, 266; females, 262; total, 528.

## YOU CAN INTEREST HIM.

Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him feel better, because while he may not as yet have any positive organic disease he no longer feels the buoyancy and vigor of twenty-five nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally looks to the improvement and preservation of his health.

He will notice of other things that the stomach of fifty is a very different one from the stomach of twenty-five. That greatest care must be exercised as to what is eaten and how much of it, and even with the best of care, there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man over fifty, but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest wholesome food because blood, nerves, brain tissue and every other constituent of the body are entirely the product of digestion, and no medicine or "health" food can possibly cure a weak blood or restore shaky nerves, when a weak stomach is replenishing the daily wear and tear of the body from a mass of fermenting half-digested food.

No stomach itself wants help and in no round-about way, either; it wants direct unmistakable assistance, such as is given by one or two Sturtevant's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because their use gives the stomach a chance to rest and recuperate; one of Sturtevant's Dyspepsia Tablets after each meal is sufficient to digest 3,000 grains of ordinary food such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation, the use of preservatives and new fangled breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason I can imagine why Sturtevant's Dyspepsia Tablets are not universally used by everybody who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trade mark must be a humbug, whereas as a matter of fact any druggist who sells Sturtevant's Dyspepsia Tablets have cured more people of indigestion, heart burn, heart trouble, nervous prostration and run-down conditions generally than he could count on his fingers.

Sturtevant's Dyspepsia Tablets have cured more people of indigestion, heart burn, heart trouble, nervous prostration and run-down conditions generally than he could count on his fingers.

## OAKLEY, IDAHO.

DEATH OF JOHN DAHLQUIST.

Carpentry Introduced in Manual Training Department of State Academy. Special Correspondence.

Oakley, Cassia Co., Ida., Jan. 21.—John Dahlquist, an old and respected resident of Cassia county, passed into the great beyond on Jan. 17, and was laid to rest Thursday following. Elder Dahlquist was born in Sweden, Jan. 12, 1831, and emigrated to this country in early life. A wife and eight children survive the old gentleman, a son, Charles Dahlquist, and a daughter, Mrs. A. W. Felt, reside at Salt Lake City, and were in attendance at their father's funeral. The cause of death was old age.

F. G. Hale, proprietor of the Oakley hotel, is erecting a four-room addition to his present place of business. S. E. Cavanaugh, a well known and capable class in carpentry. This is the first step in the introduction of manual training in the Cassia state academy.

At least one paper has come to the defense of W. H. Lucas, former president of the Pacific National league. The paper is the Capital News of Boise, and has the following on the present baseball mudslide:

A well known local baseball devotee puts in a word in defense of Mr. W. H. Lucas' actions regarding the disbandment of the Pacific National league. He states the case as follows: On or about the first of December, Mr. John McMillan wrote to Mr. Lucas, and asked him to return the protection money paid to the National Association of Minor leagues for protection during the season of 1905. He stated positively that the Boise Baseball association was out of business for good, and he demanded the return of the \$50 protection money to apply on debt to the association. Mr. Lucas refused to do so, and the national baseball commission decided the Pacific National league was disbanded, as there was no more money to be paid.

Mr. Lucas did not attend the Cincinnati meeting, and therefore had nothing to do with the actions of the commission in disbanding the Pacific National league. He only sent Mr. McMillan a letter as evidence that the Boise baseball association was out of business, and he was not to be considered as a member of the league.

At the little meeting of the so-called "Boise Baseball association," held in Boise, the directors of the league in the new disbandment of the Pacific National league decided to take the action they did in regard to the disbandment of the league. The action was taken by false misrepresentations. Mr. Lucas has labored hard to give the northwest baseball club the best of the deal, and in this matter we are sure.

Mr. Clyde Williams, owner and president of the Spokane club, tried his best to disrupt the Pacific National league, in mid-season last year, by trying to get in the Pacific Coast league, and he is the person who is making this war against Mr. Lucas.

All the boys would like to see Walter Wilcox get a fair price for his Butte franchise. As Walter sold heavily last season, and a large crowd in the stadium, and through the excitement which would naturally follow nobody would know who did it. The party who gave the information, informed the deputy sheriff that it would not be safe to enter those places alone in the future. The Austrians were cited to appear before the next city council meeting, and their licenses should not be revoked.

The road supervisor was instructed to open the alley running from Fourth to Fifth avenue.

Following the departure on Thursday, Jan. 12, of L. C. Miller, manager of Miller-Cahoon Co., on a business trip to the east comes the announcement that a marriage license has been issued in Denver to Mr. Miller and Mrs. Majorie Sidney Linkin of Salt Lake City. The bride-elect was, until recently a stenographer in the office of the Consolidated Wagon and Machine Co. After the wedding Mr. and Mrs. Miller will travel and then return to Murray to receive the congratulations of their many friends.

A most enjoyable evening was spent at the home of Mr. and Mrs. John A. Hill on Wednesday, the occasion being the wedding of their daughter, May, to Mr. Samuel E. Johnson. After a very enjoyable evening was spent, Mr. and Mrs. G. H. Walton gave a social evening party at their residence on the 23rd. Supper was served, and a very enjoyable evening was spent. Mr. Charles Brown, manager of the Murray Co-op is seriously ill with rheumatoid fever.

When the fire was first discovered several people rushed to lend their aid to extinguish the flames. Among the first to arrive was Oscar B. Hill, who by the aid of a ladder made his way into the attic, in the darkness he was unable to see the fire and tried to walk on the plaster, the results were sudden death. The fire broke out, breaking all four legs of a chair upon which he fell. The chair was the only article which suffered any injury. Jimmie Whitaker in his attempt to render aid to the man who was falling, was struck through the ceiling. The boys did more injury than the fire, the damage from which is estimated at about \$50.
