PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws, promptly attended to—Inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.
INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.
We refer in Washington, to Hon. Postmaster General D. M. Key, Rev. F. D. Power, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress; and especially to our clients in every state in the Union and in Canada. Address
C. A. SNOW & CO.,

SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.
BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.
CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S
KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, as the most perfect preparation in the world for preserving and beautifying the hair.
Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.
It actually performs these seeming miracles, of which the following is
A FAIR SPECIMEN
I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.
COL. JOHN L. DORRANCE, U. S. A.
In every important respect the Kathairon is absolutely incomparable. It is unequaled.
1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.
BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.
SOLD EVERYWHERE.

Last Night's Dispatches.

FORTY-FIFTH CONGRESS.

HOUSE.

WASHINGTON, 25.—Soon after assembling, the house went into committee of the whole on the post office appropriation bill and Blount explained its provisions. It appropriates $34 960,000, a decrease of about $2,000,000 from the estimates, and increase of $1,000,000 over last year's appropriation. But for the legislation of the democratic house for the last three years the appropriation for this year would have been at least $3,0 0,000 larger than it was.

Baker, Indiana, said that last year he predicted, when the post office bill was before the House, that the appropriations were insufficient and would end in deficiences. That prediction had come true, and with equal certainty the same prediction might be made about the present bill. Any attempt to cripple the railway mail service or Star service was a crime against the country. The bill was then read by sections for amendment.

Blount moved to increase the appropriation for post office clerks from $3,460,000 to $3,515,000.

Baker (Ind.) offered an amendment to the amendment increasing the sum to $3,660,000, asked for in the estimates. Agreed to, and the amendment as amended was adopted.

Page offered an amendment increasing the appropriation for letter carrier's from $1,900,000 to $2,000,000, the amount of the estimate.

Townsend (Ohio) and Harrison supported the amendment, asserting that the free delivery system was not only self-sustaining, but brought a large revenue into the Treasury.

Blount opposed the amendment, saying there were only four cities where the free delivery system brought any revenue.

After further discussion the amendment was agreed to, 73 to 69.

Waddell offered an amendment directing the postoffice employes on railways, who cancel stamps, to keep an account of the stamps so cancelled, the same to be credited to the postmaster at the station where the mail was put on the cars for the purpose of fixing a basis for the pay of such postmaster. Adopted.

Money offered an amendment increasing the appropriation for the transportation on Star routes from $5,690,000 to $5,900,000.

Blount called attention to the fact that during the last years the republicans had control of the House they had only made an annual increase of $20,000 in the matter of the Star service, while, since the democrats had obtained control, they had added some $960,000.

Fenn advocated the amendment and mentioned the case of the populous mining settlements in Idaho, where miners had to contribute $90 per month in order to get their mail.

Chalmers characterized the economy of his own side of the house as parsimony. It reminded him of a man coming home from his luxurious club and finding fault with his wife for having two candles burning. It was "tallow candle" retrenchment.

Durham and Blount defended the position taken by the committee on appropriations and argued that the sums recommended for railroad service and for Star service were liberal and ample.

After further discussion Money's amendment increasing the appropriation for the Star service to $5,900,000 was adopted.

The committee then rose and the House adjourned.

EASTERN.

Industrial Bureau.

NEW YORK, 25.—A memorial will soon be presented to Congress, signed by several state governors and other prominent citizens, urging the creation of an industrial bureau to collect and distribute industrial statistics in the states of the whole country, including mining, manufacturing, building, carrying and all branches of labor, classifying them and comparing the production with the consumption; also, showing the precise numbers of employed and unemployed. The memorialists further ask that the census shall include statistics showing the number of persons over 16 years old, and separately all under 16 years that may be employed on a given day; also the average time of employment during the preceding year; the nature of employment and the amount of wages received; also showing the amount of production and consumption of all products, stated in quantities and values. The Senate census committee has already privately agreed to provide for the recording of the number of persons employed on the day of enumeration and the extent of employment for the year, but seem to consider the inquisitorial, the questions of the amount of salary or wages received. The memorialists also ask as a preliminary the immediate appointment of a special commission to ascertain to what extent labor saving machines and processes have entered in production and distribution to the displacement of muscle, as a basis to determine what legislation is required to create employment for the muscle now idle.

The "Sherman Letter."

WASHINGTON, 25.—The Potter committee continued, to-day, the examination of St. Martin. The witness referred for testimony to his good character and social standing to Governor Nicholls, the attorney general, district judge and sheriff. Weber told him there was no such document in existance as the "Sherman letter," and also that if he found he could make nothing by testifying to the non-existence of the letter he would go over to the other side, and swear that he witnessed its destruction. Weber endeavored to persuade witness to testify to the destruction of the document, but he would not do so.

Bragg and the Southern War Claims.

Bragg, of Wisconsins made a strong and favorable stroke for the democratic party by his speech in Congress, radically and effectively opposing southern war claims and notifying the southern democrats that their advocacy was destroying the democratic party. The press of all parties north, with rare exceptions, enthusiastically applaud the sentiment and utterer. The *Sun* compares the few ultra partisan sheets who demur to what they consider this family disturbance, to the negro deacon who, when a powerful preacher was pointing out that robbing henroosts was incompatible with true religion, twitched the preacher's coat-tail, saying, "Hold on dar brudder, you is throwin' a coldness over de meeting."

Libel Suit.

The libel suit against the *Times*, brought by Colonel Ellison S. Keitt, relative of the former South Carolina congressman of the same name, reported in 6c. damages. The *Times* had published a dispatch that Colonel Keitt had been arrested for bigamy. This referred in fact to and was true of Thomas Keitt, the mulatto member of the South Carolina legislature, a former slave of the colonel's. The sting of the bill, though not made a part of the complaint apparently was an intimation of blood relationship between the two. The plaintiff's case rested on the assumption that the charge of arrest of bigamy applied to the plaintiff because he alone was known as Colonel. The jury evidently held that there was a technical libel, but that no damages were deserved because no effort had been made to secure amicable redress by retraction.

Lloyd Garrison and Southern Disloyalty.

William Lloyd Garrison has received many communications from the South approving his recent letter declaring the South disloyal in spirit and cruelly despotic in purpose, and calling for a solid north to meet it. There is one from a trustworthy Georgia gentleman, who declares that the South had been made solid by ruthlessly trampling under foot the most sacred rights of citizenship. Freedom of speech and press is not to be tolerated; the sanctity of the ballot-box is not regarded; honest elections are unknown; men are ostracised, exiled and murdered on account of their political opinions. The mission of the republican party will not be accomplished until these great wrongs are righted.

The Condemned Catholic Priest.

A strong commendation of the German government is expressed because of its parental care of Blasius Pistorius, the Catholic priest who's sentence to death in Pennsylvania for murder has been commuted to life imprisonment because of doubts as to his sanity. The accused was too poor to employ counsel and appealed to the German minister at Washington for aid. The German government, notwithstanding its fierce political war at home against the church, of which Pistorius was a priest, promptly took up the case, employed counsel and saved the life of the accused.

The Gyroscope.

James McCarroll claims to have discovered the mysteries of the gyroscope, and demonstrates a new law of motion. He avers that all bodies moving in right lines change their distance from the centre of gravity, and consequently their weight of every movement, and that when moving in curves, whether concentric with the circles of the earth or otherwise, the tangential force antagonizing with that of gravity, serves to change their weight also. Hence he lays it down as a fourth law of motion that a body is of uniform weight when at rest only.

Linderman's Condition.

Director Linderman's condition is growing worse so rapidly that his death is expected almost any hour. It is practically settled that Postmaster Snowden, of Philadelphia, formerly superintendent of the mint in that city, will be offered the appointment as Dr. Linderman's successor, and he will doubtless accept it.

The Division on the Indian Bureau Transfer.

The equal division of the joint committee on the Indian transfer question makes it certain that no legislative provision for the proposed transfer has any chance of passing during the short remainder of the present session. The fact that all the democratic members of the joint committee favor the project would seem to indicate, however, that it is likely to be made a party measure, and in this event its enactment by the next Congress, with both houses under the democratic control, would be apparently assured.

The Venezuela Uprising.

The recent uprising in Venezuela in favor of Guzman Blanco is understood to have been a counter movement against the efforts of General Cedeno to seize the government upon the failure of the assembly to elect him president, after the death of Alcantara Pacifica.

United States Troops and Indians.

CHEYENNE, 25.—A Fort Robinson dispatch says: Private Sprowl, ambulance driver, who started this afternoon to drive to the old camp, one mile distant, was found to-night lying on the road with his skull fractured. It is not known whether it was caused by a gun shot or by falling from the ambulance. His condition is critical. The wound cannot be examined to-night.

On Wednesday night a trumpeter arrived from the old camp and reported being fired at by a party posted in the ravine, believed concealed Indians or bad men in the bluffs. O, F, I and M, Companies A, B, Captain Fer- Fifth Cavalry, under C leave Fris, arrived here to-day and in the morning for the Sand Hi where Little Wolf and his band of 200 Cheyennes are reported to be. Companies A, F, E and L, Third Cavalry, leave here for their respective stations early next month, leaving but two companies at this post.

The Reno Inquiry.

CHICAGO, 25.—In the Reno inquiry, to-day, Captain Moylan testified that he believed it was a wise move for Reno to leave the timber, and necessary for the preservation of the command. In picking up the dead bodies of Custer's men, after the massacre, evidences appeared of desperate fighting. He saw nothing cowardly in Major Reno's conduct. Had he charged on the Indians or remained in the timber he would have been annihilated. Adjourned.

Destroyed by Fire.

ST. JOSEPH, Mo., 25.—The lunatic asylum, adjacent to this city, was discovered on fire at one o'clock this afternoon, and was totally destroyed. No adequate means has ever been provided to extinguish fire, and but little resistance could be made to the spreading of the flames. The fire originated in the laundry, and some of the employees were slightly scorched in attempting to arrest it. The patients, about 250 in number, were safely removed and now occupy the Court House in the city. Everything is being done for their comfort, but they have suffered some from exposure. The building was erected four years ago at a cost of $190,000. Eighteen months ago there was $.00,000 insurance, but the State refused an appropriation to continue the same, therefore the loss is total.

Fatal Railroad Collision.

TULLEYTOWN, N. J., 25.—A collision between freight trains on the Central road resulted in the death of Byron Wright, conductor, and David Jones, fireman, and the smashing of four cars, locomotive and tender.

FOREIGN.

TURKEY.

The Definitive Treaty.

CONSTANTINOPLE, 25.—The Russian and Turkish governments agree to the clause of the definitive treaty of peace stipulating that the Russians should evacuate Turkey within 35 days of the signature.

JUAB STAKE CONFERENCE.

The quarterly conference of the Juab County Stake of Zion was held on Saturday and Sunday, January 18th and 19th, 1879.

Sunday, 10 a.m.

Present on the stand, Counselor Joel Grover, Patriarch Jacob G. Bigler, Senr., the Bishops of the several wards, members of the High Council, and other brethren of the priesthood.

Apostle Daniel H. Wells and Elder Milton Musser arrived from Salt Lake City at 2 p.m.

A good spirit prevailed during the conference and much good instruction was given. The general and local authorities of the Church were presented and unanimously sustained. The Bishops gave favorable reports of their wards, and reports from the Sunday schools and Young Men's and Young Ladies' Mutual Improvement Associations showed a good attendance and good works, the said associations having supplied the poor people with wood for the season.

Brothers Wells and Musser occupied the most of the time in teaching the saints. Showed us the advantages of unity, home industry and many other good principles, too numerous to mention in this short report.

President Teasdale is away from home at present, on a short mission among the saints, and his counselor Brother K. H. Brown, is unwell, which accounts for their names not appering in attendance.

WM. A. C. BRYAN, Clerk.

TO PLAYERS
ON THE
VIOLIN OR GUITAR.
With a view to making the sale of Strings for all Instruments a SPECIALTY, I have been casting about for strings having the best reputation in this country and in Europe, and have now been rewarded, not only in discovering the "BEST STRINGS MADE IN THE WORLD," but also in securing the GENERAL AGENCY for their sale in this and adjoining Territories.
These strings will be known *in this market* as "Calder's Strings," and will be numbered 30, 31 and 32.
No. 30, are strings known, for many years, by this number, to the leading musicians of the Territory, as the best strings hitherto offered in this market. Price reduced to 25 cts. each.
No. 31, are new unbleached American strings, made from Selected Material only; which have been severely tested by the leading Violinists of the country, and by them pronounced unequaled for PURITY of TONE, STRENGTH and GREAT DURABILITY. Now offered here for the first time. Price 25 cts. each.
No. 32, "These strings have created a sensation in Europe." They are of Italian make, and were perfected in October 1877; since which time they have been thoroughly tested and used at the Conservatories and Opera Houses in Europe. Professors, Artists, Leaders and Members of the Opera Orchestras, in Naples, Padua, Rome, Verona, Venice, and Florence, Italy; Trieste, Austria; Dusseldorf, Prussia; Dresden, Saxony; Munich, Bavaria; and in in all the leading cities of Europe; certify that these strings are WONDERFUL for their STRENGTH, DURABILITY, CLEARNESS of TONE, READY RESPONSE to the TOUCH, as well for TRUENESS in comparing the fifths, and SUPERIOR TO ALL OTHERS MADE." I have copies of the certificates. Notwithstanding the high cost price of these strings, I will retail them at 30 cts. each.
I have other fine qualities of four length Italian Strings—No. 28, at 35 cts. for two strings, and No. 29, at 20 cts. each.
I purchase the above strings *from the manufacturers*, and can therefore guarantee their genuiness.
STEEL STRINGS. There are many eastern dealers selling an inferior article of steel strings because they are cheap. I get my supplies are original manufacturers, from the them genuine. Price, and guarantee or banjo, 30 cts. for violin, guitar rings at each.
If you cannot get my s send the stores in your towns, postage stamps for the amount, and I will mail them to you. Be sure to order by the *number* so that I may know the *kind* you want. A discount of 25 per cent. will be made when a dozen is ordered. The trade supplied at regular prices.

THE CHIEF OF HEALING COMPOUNDS.
HENRY'S
Carbolic Salve.
The Most Powerful Healing Agent ever Discovered.
Physicians give it the highest recommendations.
☞ POINTS TO BE BORNE IN MIND.
Carbolic Salve positively cures the worst sores.
Carbolic Salve instantly allays the pain of burns.
Carbolic Salve cures all cutaneous eruptions.
Carbolic Salve removes pimples and blotches
Carbolic Salve will cure cuts and bruises.
Henry's Carbolic Salve
ranks at the head of all Salves, Ointments and other Healing Compounds, and has achieved a greater reputation and has a larger sale than any other similar preparation. The most
VIRULENT SORES AND ULCERS
have been cured with wonderous rapidity by the use of Carbolic Salve, and it is prescribed now almost universally by Physicians throughout the country in their practice.
Testimonials from the most respectable sources, medical and otherwise, are constantly accumulating on our hands, demonstrating the sovereign efficacy of
This Great External Remedy,
and that the cures which it affects are as prompt as they are complete. The two following excerpts are all we deem it necessary to insert:
Geo. B. Lincoln, Pres't of the Board of Health, N. Y., writes: Your Carbolic Salve is an excellent article, and I thank you for. This is another evidence of the great value of the discovery of carbolic acid."
D. H. Locke (Petroleum V. Nasby), of New York, states that he had "on the forefinger of his right hand one of those pleasant pets, a run-round (the finger became inflamed to a degree unbearable.
* * * A friend dressed it with Carbolic Salve, and in twenty minutes the pain had so much subsided as to give a fair night's rest. The inflammation left the finger in a day."
Henry's Carbolic Salve
is extensively in Hospitals, and is found to be a thorough purifier and disinfectant but as the most wonderful and speedy healing remedy ever known. Sold by all Druggists. Price, 25 cents. HENRY & CO., New York
