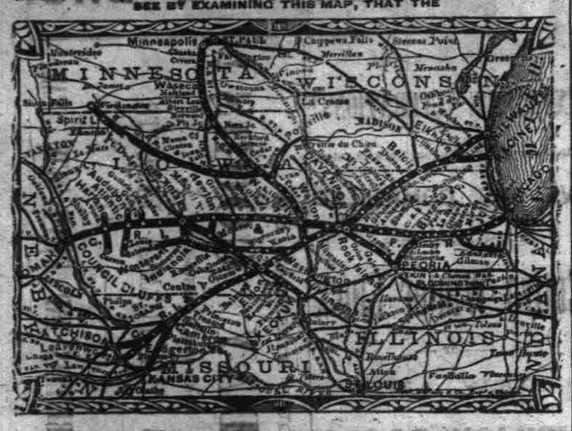
A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND AND PACIFIC R'Y

Being the Great Central Line, affords to travelers, by reason of its unrivalled geographical position, the shortest and best route between the East, Northeast and Southeast, and the West, Northwest and Southwest.

It is literally and strictly true, that its connections are all of the principal lines of road between the Atlantic and the Pacific.

By its main line and branches it reaches Chicago, Joliet, Peoria, Ottawa, La Salle, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Keokuk, Knoxville, Oskaloosa, Fairfield, Des Moines, West Liberty, Iowa City, Atlantic Avoca, Audubon, Harlan, Guthrie Center and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri, and Leavenworth and Atchison in Kansas, and the business centers of cities, villages and towns intermediate. The

"GREAT ROCK ISLAND ROUTE,"

as it is familiarly called, offers to travelers all the advantages and comforts incident to a smooth track, safe bridges, Union Depots at all connecting points, Fast Express Trains, composed of COMMODIOUS, WELL VENTILATED, WELL HEATED, FINELY UPHOLSTERED and ELEGANT DAY COACHES; a line of the MOST MAGNIFICENT HORTON RECLINING CHAIR CARS ever built; PULLMAN'S latest designed and handsomest PALACE SLEEPING CARS, and DINING CARS, that are acknowledged by press and people to be the FINEST RUN UPON ANY ROAD IN THE COUNTRY, and in which superior meals are served to travelers at the low rate of SEVENTY-FIVE CENTS EACH.

THREE TRAINS each way between CHICAGO and the MISSOURI RIVER.

TWO TRAINS each way between CHICAGO and MINNEAPOLIS and ST. PAUL via the famous

ALBERT LEA ROUTE.

January 1883, a new line will be opened, via Seneca and Kankakee, between Newport News, Richmond, Cincinnati, Indianapolis and La Fayette, and Council Bluffs, St. Paul, Minneapolis and intermediate points.

All Through Passengers carried on Fast Express Trains.

THE BY ALL ODDS BEST EQUIPPED RAILROAD IN THE WORLD

Let it be forever remembered that the
CHICAGO & NORTH-WESTERN RAILWAY
is the best and shortest route to and from Chicago and Council Bluffs (Omaha), and that it is preferred by all well posted travelers when passing to or from
CALIFORNIA AND COLORADO.
It also operates the best route and the short line between
Chicago and St. Paul and Minneapolis
Milwaukee, LaCrosse, Sparta, Madison, Fort Howard (Green Bay), Wis., Winona, Owatonna, Mankato, Minn., Cedar Rapids, Des Moines, Webster City, Algona, Clinton, Marshalltown, Iowa, Freeport, Elgin, Rockford, Ill., are amongst its 800 local stations on its lines.

Among a few of the numerous points of superiority enjoyed by the patrons of this road, are its DAY COACHES which are the finest that human art and ingenuity can construct; its MAGNIFICENT SLEEPING CARS, which are models of comfort and elegance; its PALACE DRAWING ROOM CARS, which are unsurpassed by any; and its widely celebrated
NORTH-WESTERN DINING CARS,
the like of which are not run by any other road anywhere. In short, it is asserted that IT IS THE BEST EQUIPPED ROAD IN THE WORLD.

All points of interest North, Northwest and West of Chicago, business centres, summer resorts and noted hunting and fishing grounds are accessible by the various branches of this road.

It owns and controls over 5,000 miles of road and has over four hundred passenger conductors constantly caring for its millions of patrons.

Ask your ticket agents for tickets via this route, AND TAKE NONE OTHER. All leading ticket agents sell them. It costs no more to travel on this route, that gives first-class accommodations, than it does to go by the poorly equipped roads.

For maps, descriptive circulars and summer resort papers, or other information not obtainable at your local ticket office, write to the

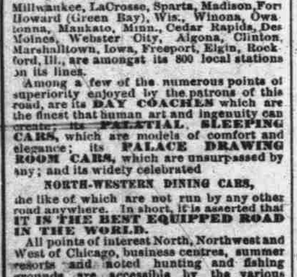
PRICKLY ASH BITTERS



The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that Nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are especially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine, cleansing the system, giving tone, imparting new life and energy to the whole frame. It is a perfect home medicine and not an intoxicating beverage.

ASK YOUR DRUGGIST FOR PRICKLY ASH BITTERS, and take no other. PRICE, $1.00 per Bottle.
PRICKLY ASH BITTERS CO., SOLE PROPRIETORS
St. Louis and Kansas City, Mo.

BAKER'S Breakfast Cocoa.
GOLD MEDAL, PARIS, 1878.
Warranted absolutely pure Cocoa, from which the excess of Oil has been removed. It has three times the strength of Cocoa mixed with Starch, Arrowroot or Sugar, and is therefore far more economical. It is delicious, nourishing, and easily digested, and admirably adapted for invalids as well as for persons in health.
Sold by Grocers everywhere.
BAKER & CO., Dorchester, Mass.

TUTT'S PILLS
TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work, and are a perfect
ANTIDOTE to MALARIA.

TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed instantly to a GLOSSY BLACK by a single application of this DYE. Sold by Druggists, or sent by express on receipt of $1. Sold everywhere. Office, 44 Murray St., N. Y.

EVENING NEWS.

Tuesday, - December 30, 1884.

BRIEF TELEGRAMS.

Philadelphia, 29.—Judge Butler today filed his opinion in the United States circuit court, dismissing the petition of the receiver of the Credit Mobilier of America, who asked to have sent to a referee for adjustment the claim of Isaac P. Hazard and others for money and labor expended in carrying on the suit again Thomas C. Durant, president of the Credit Mobilier, Union Pacific Railway Company and others, pending for years in the supreme court of Rhode Island.

Montreal, 29.—A large quantity of lake ice came down Sunday night which caused a general shove. Some of it was forced upon the wharf and on the bank of the river along the south shore, where both trees and large boulders were removed by the ice and rising water. The road between St. Lambert and La Prairie is flooded so that a new winter road had to be opened. In consequence of the ice jam the river commenced to rise and soon entered the cellars and stores in the lowest streets.

Columbus, O., 29.—Prest. McBride, of the State Miners' Association, has issued a call for a convention on Jan. 7th to consider the situation in Hocking Valley. The operators claim that the strike is practically over, and that they now have nearly all the miners they can accommodate. Between 30 and 40 old miners went to work to-day at the reduced rate.

An explosion in the Gas Light Co's office at Augusta, Ga., yesterday, destroyed the building and injured three workmen.

The municipal authorities of Paris have agreed to vote 60,000 francs toward the Grand Prix, which will be run in June next.

The police officials of Hamburg have received a letter containing threats that the imperial naval observatory will be destroyed by dynamite.

Governor Thomas A. Hendricks has consented to deliver the annual address before the Yale alumni and graduating classes in June next.

Tonquin advices report daily encounters between the Chincse and French at outposts. China continues pouring troops into Tonquin and Formosa.

The inauguration committee decided to-night to send an invitation to Gen. Hancock to act as grand marshal of the inauguration parade. Col. Benett, chairman of the committee, informed the committee that he had an interview with Gen. Sheridan to-day, in which the latter stated if Gen. Hancock would accept the invitation he would be given every opportunity to attend to the duties of the office.

Arrangements for the dedication of the Washington monument are progressing rapidly. The commission appointed by Congress to arrange suitable ceremonies has extended a general invitation to military, masonic and civic organizations (the latter not to carry any emblems of a political character) to participate. Gen. Sheridan requests all organizations intending to take part in the procession to notify him at the earliest possible moment, in order that proper places in the column may be assigned them.

Little Rock, 29.—Rain began at midnight Friday. All the rivers and bayous are rapidly rising, and many are out of their banks and flooding the country for miles. The Arkansas river has been rising here since Sunday at the rate of four inches an hour. No trains on the Iron Mountain Railroad since Saturday night. Great damage to fences, and drowning of stock grazing in the bottoms.

An Helena special says: The incessant rain for 48 hours has done great damage to the new levees both on the Arkansas and Mississippi side. Experienced men predict that, owing to the heavy rains, the levees will not, after all the work done, protect the country much better than before. Nearly all floating ice is out of the river, and navigation is resumed. Washouts have caused temporary stoppage to railroad trains south of Pine Bluff on the St. Louis and Texas Railroad.

Arrangements are being completed at the naval observatory to extend the system of dropping time balls to Boston, Baltimore and Hampton Roads, and ultimately to New Orleans. This will be done automatically by telegraphic coanection with the observatory clocks, as is now the case with the time ball in New York. Within a few days a ball will be dropped in the exposition buildings at New Orleans, and the 25 or 30 clocks in those buildings will be regulated each day by telegraphic impulses from the observatory clock in Washington. The time sent will be 12 o'clock standard time, 25 meridian.

The *Star* says the prospects of the bill for the retirement of Gen. Grant are not good. The bill passed the Senate the 13th of May last and was placed on the Speaker's table in the House, where it now remains, buried under 127 other bills, without a possible chance of resurrection. It has not even been referred to the House military committee, the chairman of which, Gen. Rosecrans, is supposed to favor it. The only way it could be reached would be by taking it up by unanimous consent, and this is rendered out of the question from the fact that there is a decided opposition to it.

Detectives are at work on a case which they suppose will evolve an extensive operation. An advertisement has appeared in several Northern papers, which contains the names of three citizens of Washington, and states that they have received an appropriation which enables them to distribute 50,000 mementoes of the Washington monument, which they will do upon receipt of 57 cents for postage. The piece of marble to be furnished as a memento is to have a painting upon it and to be set in a handsome plush frame. The alleged advertisers will probably be arrested within the next two days.

Construction of Foot-walks.

Foot-walks about house and garden, more especially in rural villages and on farms, are often so poor as to cause inconvenience, severe colds, serious diseases and at times deaths, through feet and clothing wetted by walking through grass—one of the exceedingly dangerous things. Board walks should be raised from the ground on four-inch foundations, be at least three feet wide to keep the skirts dry, for women suffer more from wet clothing in this way than men do; should be laid with close joints to prevent grass growing between them, and the grass and weeds should be kept closely cut on each side. Where gravel or coal ashes can be procured, spread three inches thick and rolled firmly, they make excellent paths. The surface should be rounded to give fall to the water and proper grades should be made on the sides. The disadvantage of these walks is that they will become covered with grass and weeds if neglected. But a good coating of cheap salt scattered over them will kill everything but the coarse crab-grass which appears in July, and boiling-hot brine is needed for this bad weed.

Cement paths are made of various materials; gravel, coal ashes and broken stone are best. The usual way of making good foot-walks is as follows: The material is gathered in a convenient place, and is heated in a box having a sheet-iron bottom and mounted on a few stones. As the stuff is made hot it is thrown in a heap on a mixing board, and melted asphalt or gas tar is poured over it, and the whole mass is turned over and over until thoroughly incorporated, no more tar being used than will merely coat the material and be absorbed by it. The path is properly graded and dug three or four inches; dry coarse gravel is first laid down and the prepared material is spread two inches thick and well rammed down. It is smoothed as well as possible, and then dusted over with dry sand or fine ashes, and rolled until a hard, smooth surface is made. This soon becomes like rock, and no weeds or moss will grow upon it.

Another way is to make a concrete of water-lime with gravel or ashes, or both. These materials are put in a tramp and wetted. One barrel of water-lime is mixed with three barrels of ashes, clean sand, dry, being shoveled over back and forth several times to get a thorough mixture. A portion is then mixed with water into a thin, soft mortar, and five parts of the wet gravel or ashes are mixed with it, so that every fragment is coated with the hydraulic mortar. This is important for two reasons. This concrete is spread on the graded walk and beaten down with a rammer until the moisture gathers on the surface. Some of the dry sand or cement is then scattered over the surface to absorb the moisture and the surface is smoothed over with a plasterer's trowel, having a sloping handle to work it back and forth with.

In a few days this is hard and becomes harder with time. By making divisions of thin strips of wood or tarred paper the cement may be laid down in blocks, square or diamond-shaped, and for extra good walks the blocks may be colored by mixing the finish coat with brown or gray or other colors alternately.—*Exchange.*

Advices from Dillon, under date of the 20th inst., announces that Con. Connors, the deputy-sheriff-horse-thief from Helena, who has been confined with Charles White in the Dillon jail, made his escape (on foot) Friday night, going toward the South. A reward of $50 has been offered by Sheriff Jones for information leading to Connor's arrest.—*Inter-Mountain.*

At Red Bluff, Cal., a few days ago, the local paper, through a typographical error, stated that "Prayer meeting at the M. E. church will be held to-night." This startling announcement caused many persons to believe that something really remarkable was to occur at the meeting, and the church was crowded. The brethren, feeling greatly encouraged at the unusual audience, were inspired to eloquence, and thirteen conversions resulted. So much for the mistake of the unregenerate typo.

Notice No. 1284.

UNITED STATES LAND OFFICE,
Salt Lake City, Utah Territory,
November 1st, 1884.

NOTICE IS HEREBY GIVEN THAT Joseph Woodmansee, a citizen of the United States, whose post office address is at Salt Lake City, Utah Territory, has made application for a United States Patent for the Lion Hill mining claim, situate in the Ophir Mining District, Tooele County, Utah Territory, consisting of fifteen hundred (1500) linear feet of the lode, and surface six hundred (600) feet wide, being Lot 153 and described in the field notes and plat of the official survey on file in this office, with magnetic variation at 16 degrees, 30 minutes east, as follows: Commencing at Post No. 1 of the said claim and running thence South 88 degrees and 15 minutes east, 608—5 feet to Post No. 2, thence South 2 degrees 00 minutes west, 1500 feet to Post No. 3, from which said Post No. 2, United States Mineral Monument No. 2, bears south 64 degrees, 56 minutes east, 1705—5 feet distant, thence from said Post No. 3 north 82 degrees, 15 minutes west, 608—3 feet to Post No. 4 thence North 2 degrees 00 minutes west, 1500 feet to said Post No. 1, the point of commencing, excepting nevertheless thereout so much as is embraced in the Monaren Mining Claim, Lot No. 39, and the Rockwell Mining claim lot No. 55. The said Lion Hill Mining Claim, containing an area of 20.66—100 acres of land, more or less. The said mining claim being of record in the office of the Recorder of said mining district at Ophir City in Tooele County, Utah. The nearest known locations being the Rockwell and Tiger, on the West, the Zella on the North, and the Monarch on the East.

I direct that this notice be published in the DESERET EVENING NEWS, the newspaper published nearest the said mining claim, for the period time required by law.
