#### ROOT'S VISIT TO MEXICO AND CENTRAL AMERICA

On the courtsous invitation of the president of Mexico, the secretary of state visited that country in Sentember and October and was received everywhere with the greatest kindness and hospitality.

He carried from the government of the United States to our southern neighbor a message of respect and good will and of desire for better acquaintance and increasing friendship. The response from the government and the people of Mexico was hearry and sincere. No paths were spared to manifest the mest friendly attitude and festing toward the United States, In view of the class neighborhood of the two countries the relations which exist between Mexico and the United States are just cause for gratification. We have a common boundary of over 1.500 miles from the Guif of Mexico to the Pacific. Much of it is marked only to the shifting waters of the file Grande. Its action is now limited by appropriations determined when it was doing a work on a much smaller scale and rendering much less valuable service. I recommend that the contribution of this government to the expenses of the bureau be made commensurate with its increased work.

Involved in Case of Atty.-Gen. Young of Minnesota for Contempt of Court.

ARGUED IN SUPREME COURT.

Upon Decision Will Depend the Validity of Much of State Legislation Regulating Reilways.

Atty.-Gen. Edward T. Young of Mined States today. The mass deals with the rights of states to prescribe rail-

the rights of states to prescribe rallrend rates, and the imperiance of the
matter was indicated by the efforts to
intervene which were made in behalf
of the corporations doing business in
other parts of the country, which involve the same questions.

The case against Mr. Young grew out
of an effort by the Northern Pacific
Railway company to prevent Young, as
attorney-general, from enforcing the
state law of 1857. The United States
court for the district of Minnesota,
Judge Lochren presiding, granted a
temporary inpunction in accordance
with the prayer of the railroad, but
not with the prayer of the The first meeting, which will be held next Sunday, is to be addressed by Gov. Hanly of Indiana. He will tell how to curtail the liquor traffic.

tiov, Folk of Missouri, who put the lid on Sunday saloons in St. Louis and Kansas City will speak at a big meeting in February, and ex-Mayor Jones of Minneapolis, has been invited to tell a Chicago audience what he did to the saloons of that city. C. W. Trickett, essistant attorney-general of Kansas, will address a meeting next Sunday in the First Methodist Episcopal church of Englewood.

The case involves the constitutional question whether an action like this is not a suit against a state, which is prohibited by the eleventh amendment to the Constitution. So imperant is the point considered that Atty. Hines sought on behalf of the Southern Railroad company to file a brief in the case because of the probable effect of a decision on this point on the various rate controversies of that company, and a similar request was made in the case of the Consolidated Gas company of New York involving the S-cent law by former Asst. Atty. Gen. Whitney, who appeared for the public service corporation of New York.

LT. LE FORT'S CASE.

Court Martialed for Forgery, Court Now Considering Evidence-

New York, Dec. 2.—The evidence to the court-martin of Lieut, Allan Le-Fort of the United States army, was concluded yeaterday and the court will consider the case today. The result will not be given out until the finding has been passed on by the war department and the president.

Lieut, LeFort is charged with forgery, it being claimed that he discounted notes on which the names of various brother efficers had been forged. LeFort was arrested several months ago when he called at a hotel for a decoy litter addressed to Maj. Frank H. Hodges, This letter was ostensibly in reply to an application for a loan, LeFort explained his action by saying that he had been asked by Lewis F. Suck, described as a describer from the army, to call for the letter. He knew that there had been asked. New York, Dec. 3.—A federal automobile bill similar to the one introduced just before the close of the last session of Congress, will be introduced almost immediately by Congressman Cocks of New York, who had charge of the bill at the last session. That bill was introduced at so late a day that nothing was done with it. The bill has the backing of the American Automobile association. It is based on interstate traffle and provides for federal licensing of motor cars. These licenses are to be in addition to the present state license, the only observe has a few control of the control of army, to call for the letter. He knew that there had been forgeries going on and he suspected Buck. He had secured some evidence against him and thought that in this letter there would be more. He said he expected to lay the whole matter before the authorities.
