Unemployed Workmen Hold Another Public Meeting.

## INFLAMMATORI SPEECHES.

EMMA BERGMAN TELLS THEM NOT TO SUFFER FOR WANT OF BRAVE BUT TO USE AND GET IT.

NEW YORK, Aug. 18.—The unemployed, principally those concerned in yesterday's demonstration, held a more serious meeting today in Golden Rule Hall, Irvington Street. Emma Bergman, wife of the man who tried to kill Frock in Pittsburg, made a speech of an inflammatory nature, telling the men, among other things, that if they wanted bread not to suffer, but go and get it.

A committee was appointed to stage for a monster parade of workmen throughout the work quarters of the city.

An anarchist named Black made an incendiary address. There will be a big mass meeting tomorrow night.

Curtis, for the murder of Patterson Grant, responded to the charges made by the prosecution in that the Confederates Demyer manifested their hatred toward the men who had driven them and their cause to defeat. The blame fell on them who voted last fall for those men against whom they were fighting.

At this point some veterans arose and said had assisted the Confederates to fight, but with the help of God he would have done so again. A number of others arose naming the names and said in the excited "arming the rebellion."

GENERAL FOREIGN NEWS.

The Bering Decision as Understood by the English Government.

Haitians Killed in France.—The Philadelphians Go to Boston.—Earthquake in Russia.

LONDON, Aug. 18.—In the committee Thomas G. Bowles, conservative, asked whether the award of the Bering tribunal of arbitration imposed upon Great Britain obligations to fulfill peacable seizure by British subjects at any time whatever within the sixties zone around Prudhoe Bay. He said no other restraint upon British seafarers while it imposed no obligation on the United States to restrict sealing on the island at any time. Further, Mr. Bowles said he desired to be assured that the award could be set aside and that he should be given a practical monopoly of the sealing industry in America.

The foreign secretary replied and it was not considered that the effect of the award would be to give the American sealing industry a practical monopoly. It imposed certain obligations upon the United States as well as upon Great Britain, and he could not admit that these obligations would not to the protection of British interests as far as possible.

Recently Chamberlain modified his proposed amendment by omitting the whole calling for an early decision.
