## LEAGUE OF CIVIC IMPROVEMENT

Elects Officers for Ensuing Year  
—Propaganda for Cleaning and Beautifying City Begun.

## DAMAGE SUIT TRANSFERRED.

Case of Thomas England vs. Ogden Waterworks Company to be Heard in District Court.

Ogden, April 5.—The Civic Improvement League directors held a meeting last evening at the Weber club parlors and elected the following officers for the ensuing year: President, J. S. Lewis; first vice president, J. C. Nye; second vice president, Don Maguire; secretary, Wm. Allison; and John Pin-gree, treasurer.

One important improvement that is contemplated by the league providing permission can be secured from the city will be the parking of Twenty-fourth street hill with a grass plat 14 feet wide up the center of the street, which would make it one of the most beautiful blocks in the city. The city engineer will be asked to give the league an estimate of the cost of parking that block, and as the commencement of raising a fund for that purpose, J. S. Lewis gave \$100, and each of the directors \$25. The committee would have no trouble in raising sufficient funds to park that one block. The telephone companies and electric light company will be asked to remove their poles from the center to sides of the street, thus helping to beautify the street very much.

A communication was received from D. A. Smyth, stating that he has purchased a number of choice trees while in California, which he will place at the disposal of the league, who on Arbor day will plant them on the city hall park.

The league asks all citizens having vacant corners or other property, that they clean up the same before the first of April, thus helping to beautify the city. The committee was appointed to prepare a program of appropriate exercises for Arbor day. The

## BIG DAMAGE SUIT.

Ogden, April 5.—A heavy damage suit has been filed in the Second district court by Thomas England, representing 63 residents of Plain City, Weber county, against the Ogden Waterworks company, to recover about \$28,000. The plaintiff claims that he is owner of a certain water right in Ogden river as the representative of the other residents of Plain City, which water is used for irrigation and culinary purposes; that during the past year the defendant company has appropriated the waters of the plaintiff to its use, thereby depriving the farmers from its use to irrigate their crops and they were damaged in the sum of \$28,000.

This is the same suit that was commenced in the federal court several weeks ago, the hearing of which was commenced a couple of weeks ago before Daniel Hamer, sitting as referee for the federal judge, but after only a few days of trial the case was dismissed in the court on account of the heavy expense it was going to cost the plaintiffs to try it in that court. The case is a very important one and will occupy considerable time in trial.

## TWO DIVORCES GRANTED.

Judge Howell heard two divorce suits in the district court yesterday. The suit of Mary Farr against Leon Farr was called for trial. The testimony of the prosecution was that the defendant has failed to provide for his wife for a long time. A decree of divorce, together with \$25 per month, was granted.

The divorce suit of Elizabeth L. Hall-baugh against Orlando Hallbaugh was heard, the charges of desertion and failure to provide were sustained by the evidence. They were married Feb. 28, 1878. A decree was entered as prayed for, also \$20 per month alimony and the homestead, together with the house furnishings, horse and buggy, was awarded the wife.

## LUMBER COMPANY.

Judge Howell rendered his decision in the case of the Eccles company against Ann H. Martin et al.

granting plaintiff a judgment against the defendants in the sum of \$710.43 and in default of the payment of the judgment plaintiff is granted first lien on the premises on which the house was built for which plaintiff furnished the lumber, but did not get the \$35 for the lumber.
