St. Petersburg, May 31, 1:30 p. m.-The admiralty denies the report tele-straphed to the London Daily Express that the cruiser Gromoboi of the Viad-ivostok squadron had been sunk with nearly 800 men on board. The Gromoboi sailed out of Viadivostok Saturday as soon as Ad-miral Rojestvensky was reported to have arrived in the Straits of Korea, but the admiralty declines to say whether the Gromoboi was engaged. The plan to join with Industrial unionism explains another move on the part of the convention—that of organ-iging in Michigan with vigor and dis-patch. Once More a Bungle Has Been Made and Halt Called in Paving of Street.

CHAIRMAN WALL SAYS STOP.

Instructs Contractor Moran to Suspend All Work on "Plans" Furnished Till Further Ordered.

DEPARTURE FROM "ORIGINALS."

Matter Will Go Before City Council Tonight-May Result in Street Not Being Finished This Year.

The work of paving east South Temple street is again at a standstill, having been ordered stopped today by Chairman E. A. Wall of the board of ublic works. Col. Wall claims that the original plans for the paving have been departed from by the contractor upon instructions from Assistant City Engineer Zulick and that the changes proposed by him are impracticable and will, if pursued, result in irreparable damage to property rights and involve

perpetual danger to pedestrians, A communication was today mailed to Contractor Moran by Clerk Wilkins of the board of public works and the council will be notified tonight of the action of the board and of the reasons therefor. How long it will take the council to settle the difficulty between the assistant engineer and the board so that the work may be continued is a problematical matter but if the delay is very great it will mean that the work will not be completed this year. The delay might also involve the city in a damage suit by the contractor, who can not well afford to have the work tied up

for a great length of time as it will probably mean a great loss to him. The letter to Mr. Moran, a copy of which will be sent to the council tolight, follows:

Salt Lake City, Utab, May 31, 1965, Mi, P. J. Moran, contractof, "Sirt-The upon intersections of "A," "B," and "D" streets with South Temple has now proceeded sufficiently, I trust, to make manifest the fact that plan furnished by Assistant City s being done, is an impracticable phantasm and will, if pursued, result in ir-reparable damage to property rights involve perpetual danger to pedestrians. You are therefore instructed to suspend all further work upon said "plans" and upon said intersections until further order of this board, E. A. WALL, Chairman, INTERSECTION DANGERS. Chairman Wall, when seen by a "News" man in relation to the matter this afternoon, said that the difficulty was at the intersections of the streets running up the steep grade to the north. The plans at present being fel-lowed make the approaches entirely too recipitous for public safety. It would uso require the building of retaining walls that, to his estimate, are unnec-essary. Fending the controversy with regards to this part of the work pav-ing on the theroughfare proper, Col. Wall said, would not be interfered with.
