**GENERAL**

San Francisco, 30.—Grant's official majority in California is 506. Richmond.—This morning in the United States circuit court, Robert Ould, counsel for Jeff Davis, made a motion to quash the indictment on the ground that the fourteenth amendment prescribes the mode for punishing participation in the rebellion, which is disfranchisement, and said that no other punishment is prescribed. The prosecuting attorney moved to postpone the motion until the latter part of the term. Chief Justice Chase decided to hear the argument on the motion on Thursday.

General Grant's official report for the present year is very short. It only transmits the reports from the several district commanders, and earnestly renews the recommendation that the control of the Indians be transferred to the War Department. General Grant thinks that while the Indian war continues, no general legislation for the reduction of the army is advisable, all the troops on the Plains being needed. Troops are also still needed in the southern States.

General Grant has written that he will certainly attend the great military reunion in this city on December 15th. It is believed that a greater number of officers will be assembled on that occasion than have been together since the war. Generals Schofield, Sherman and Thomas will be present.

A new express war will soon be opened between the Adams' and the consolidated American Merchants' Union. The Adams' Company declares that it can and will tread down all rivalry if it spends millions. The contest is likely to be long and fierce.

Philadelphia.—General John O'Neil was unanimously elected President of the Fenian Brotherhood. At their congress in this city the Delegates pledged their entire support to plans submitted by him, and resolved to use their influence to stop all recriminations and denunciations among Irishmen laboring for the independence of Ireland. After a harmonious session the congress adjourned this morning.

Chicago.—The *Republican's* special says it is asserted that Seward insists upon the following points in regard to the negotiations for the settling of the Alabama claims: First—That the appointment of the commission shall be understood to constitute the admission that England was wrong in recognizing the belligerency of the South. Second—That the claims of British subjects, which have been decided adversely in their own courts, shall not be brought before the commission. Probably those claims which have only been disallowed by American courts will not be included in this exclusion. It is feared the final agreement between the two countries will not be reached until both Seward and the present British ministry retire from office, thus bequeathing the entire question to new men on both sides.

During November there were issued bonds to the Central Pacific railroad to the amount of twelve hundred and eighty thousand dollars; the Union Pacific received bonds to the amount of six hundred and forty thousand dollars.

New York.—The total vote of the city for Mayor is 96,014. Hall, Democrat had a majority of 54,094, O'Gorman's the same. Total registry, 173,583.

St. Louis, 1.—The *Democrat* has a special, dated in the field, Indian Territory, Nov. 28th, which says the Cheyenne village of Black Kettle's band, on the north fork of the Wichita river, was captured yesterday at daylight, by the cavalry under General Custar. One hundred and fifty Indians were killed, and fifty-three taken prisoners. A large amount of property was captured, consisting of fifty-one lodges, nearly a thousand horses and mules, arms, ammunition, horse equipments, robes, provisions, etc., the most of which was destroyed. Black Kettle, the principal chief, was killed. Capt. Lewis Hamilton was killed, Lieut. Col. Barritz severely if not fatally wounded, and Maj. Elliott missing. One soldier of the 7th cavalry was killed and fourteen wounded. The Indians, including women and boys, fought desperately, but were completely overpowered and very badly whipped.

San Francisco, 2.—Arizona advices to Nov. 14th say the legislature assembled at Tucson, Nov. 10th. The troops had attacked an Indian camp, killed seventeen and wounded forty of the savages, and captured several mules, a quantity of arms and provisions. A large

party of Indians attacked a pack train near Prescott, killed three men, captured a lot of rifles, pistols and ammunition, and drove off the animals. The mails were taken from the mail driver by Indians near fort Whipple, but were recovered and delivered to the postmaster at Wickenburg. Some uneasiness had been expressed with regard to the safety of a party of miners, who went to Black Cañon, some time since, as nothing has been heard from them. It is thought by some, that the Moque Indians, from New Mexico, have joined the Apaches in their present war against the whites. The Indians in the neighborhood of Myckenburg had stampeded a large herd of cattle, horses and mules, belonging to the Vulture mining company, and succeeded in driving off forty head. A number of recruits had arrived at camps Grant and McDowell.

General Sheridan has issued field orders thanking the troops and complimenting Gen. Custar on the recent victory over the Indians. The following property was captured at the Indian village: 875 ponies, 1,113 buffalo robes, 535 pounds of powder, 1,050 pounds of lead, 5,000 arrows, 700 pounds of tobacco, besides rifles, pistols, bows, lariats and an immense quantity of dried meat and other provisions. Two white children were recaptured. One white woman, and one boy were brutally murdered by the Indian women when the attack commenced. Sheridan announces his intention to actively prosecute the campaign.

Chicago.—The convention of cattle commissioners, at Springfield, continued in session to-day. The proceedings mainly consisted in an interchange of opinions among the members, as to the nature of the cattle disease and what steps are best to remedy it.

Washington.—The report of the Commissioners on the Union Pacific Railroad, estimate that, for the complete equipment of the line to Salt Lake, with additional locomotives, cars, &c., and for stone structures, several millions of dollars may be required. It will be recollected that some months ago this Railway Company voted to put 30,000,000 of its own first mortgage bonds in trust for this purpose. The Government now owes the Company forty-four millions of dollars for the road already completed. The Company has expended six millions of dollars on the grading, rails and other supplies beyond the nine hundred and fortieth mile already finished.

Memphis.—Charles Cameron, Democratic candidate for the first district of Arkansas, claims his election over Roots, the Republican candidate, by three thousand majority, after five counties had been thrown out by Governor Clayton.

**FOREIGN.**

London.—The majority of the later elections have been in favor of the Conservatives, who always had a disproportionate strength in the counties. Their gain in the present instances are also undoubtedly attributed largely to the indifference of the Liberals, who have been rendered careless by the heavy majority they secured during the first week of the elections. In the manufacturing districts there has been a spirit of Orange organization elicited against the candidates, who favored dis-establishment. The entrance of this element into the strife in some quarters, led to mob law and intimidation. The voters are charged with this responsibility for these excesses. The Liberal party have suffered so severely from them that it has become almost a unit in favor of voting by ballot.

Much indignation is caused among British ship owners by a rumor that the Alabama treaty will not allow the claims of Englishmen, based on the decision of the American prize courts, to be reopened before the commission. The *Shipping Gazette* says such a provision is contrary to the precedents established by the Americans themselves, and excludes claims undoubtedly well founded, and declares that if this report is true the convention is a capitulation which Parliament will never sanction. A writer in the *Observer* takes the same views on the subject, and discusses it at length, citing many authorities.

London.—A Madrid dispatch says the popular subscriptions to the national loan, now amount to 319,000,000 reals. Apprehensions of bloodshed in Spain are increasing, and it is thought that a collusion between the Monarchists and Republicans will be the inevitable result of the present excited political contest.

Vienna.—The Austrian government has fitted out and dispatched from
