Three ladders were run up on the truck, a distance of 50 or 60 feet, and two streams of water were pumped into the vacant lot west of the police station. The engine worked like a charm and had 80 pounds pressure of steam in four minutes from the time the attachment was made to the water plug.

The ladder did not work very well on account of a new cable being used to run them up. Samuel Taylor of this city is in re

It contained valuables but no cash. Mr. Beatie also stated that he had no grievance against the police for the length of time consumed in responding to the call.
