

LA FOLLETTE AND PENROSE CLASH

Wisconsin Senator Criticized
Senate's Method of Handling
Appropriation Bills.

PENNSYLVANIAN VERY ANGRY

Assumed a Fiery Attitude and Bitterly
Denounced the Man from
The Badger State.

Washington, Feb. 18.—An acrid exchange of words took place in the senate today between Mr. La Follette, who was criticizing methods of that body in the handling of appropriation bills, and Mr. Penrose, chairman of the committee on pensions and post-offices, who was in charge of the post-office bill. The colloquy was rendered almost tragic by the angry tones and fiery attitude assumed by the senator from Pennsylvania as he denounced the senator from Wisconsin, who stood quietly at his place on the left side of the chamber.

BEGINNING OF TROUBLE

The day had begun by Mr. La Follette asking that the postoffice bill be allowed to go over until tomorrow, as it had just been reported from the committee, and he had no time to examine it. Mr. Penrose had resisted this request, saying he would explain all amendments that had been suggested by his committee. Mr. Penrose had moved that the bill be taken up at once, and he had been in the senate for some time before the senator from Wisconsin demanded the full reading of the text of the bill. Later Mr. La Follette severely arraigned the senator for permitting legislation to accumulate until the last few days of the session when, he declared, important bills were rushed through with little or no time for senators to understand them.

Mr. Penrose is that these appropriation bills get in here about a late for the long session as they do for the short session," said Mr. La Follette. "It seems to me that the system that these most important legislative acts shall have little consideration."

LA FOLLETTE'S CHARGE

He charged that important legislation was placed on these measures and passed when it could not pass as a separate bill. He said also that the salary increase for the judiciary, for the high legislative officers and for the chief of the department of the interior had been put through in that way, and insisted that committees unduly delayed bills which might be reported earlier so that the senate could have an opportunity to study and understand them. He declared he hoped the tariff bill would not be put through "on a rushed runway."

"I don't see," he continued, "that it would be fair to attribute culpability to the country if the discussion of these bills should carry some of them over to an extra session. I know that if appropriation bills are disposed of at this time there will not be any recognition of committees at this time and various important legislation outside of appropriation bills ought to go over until another session of Congress."

Senator Penrose interrupted to ask the senator from Wisconsin "whether he was delivering his regular lecture" adding that he thought he had heard it all before.

Mr. La Follette replied that observations of that sort would not promote the passage of the bill. He charged the senate with having put off interstate commerce legislation for nine years and having delayed the pure food law for 17 years by applying the same methods, against which he was contending.

PENROSE VIOLENTLY ANGRY

At this point Mr. Penrose rose, and with violent anger and glaring across the chamber at the straight form of the senator from Wisconsin, said: "I shall not be silent in my seat when statements are made or charges are made which are intended to charge that the senator from Wisconsin had been on the committee on pensions and during his service on that committee had failed to attend a single meeting of it. I make that charge without fear of contradiction. He is on the committee on claims and has only attended its meetings once or twice in the past year, and that attendance was only to bring up some trivial claim. I make this statement without fear of contradiction that he is on the committee on pensions, which was one of the largest appropriation bills pending before Congress every year, and has hardly ever been present at its meetings according to the unanimous testimony of nearly all of his colleagues on that committee. He is on the important committee on Indian affairs, which every year considers a great appropriation bill, and he has seldom or never rendered any service on it."

"And he has been in the senate during two years," interrupted Senator Gallinger.

"There is no senator," continued Mr. Penrose, "who has a greater record for absenteeism than he. It is his business to criticize these committees. When he is here it is only to delay the business of the senate, to hold up the transaction of public business and to embarrass those who, under their oaths of office and in commendation discharge of their duties, endeavor to enact legislation. I shall not sit here, and I desire to give such notice to the senator from Wisconsin, and listen to arguments that might better be made by a senator from Pennsylvania."

DRINK PLENTY OF GOOD WATER

Valuable Prescription Which Any
one Can Prepare Without
Much Trouble.

MAKE SOME UP AND TRY IT.

Splendid for Kidney and Bladder Disease and Rheumatism—Get the Ingredients from Any Good Druggist and Mix Them.

"The people here do not drink enough water to keep healthy," explained a well-known authority. "The numerous cases of kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected."

Stop loading your system with medicines and cure-alls, but get on the water wagon. If you are really sick, way, of course, take the proper medicine—plain common vegetable treatment, which will not shatter the nerves or ruin the stomach."

To cure Rheumatism you must make the kidneys do their work. Keep the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions you can do no better than take the following prescription: Pure Extract Karpur and pure Compound Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces; Mix by shaking well in bottle and take in convenient doses after each meal and at bedtime, but don't forget the water. Drink plenty and often.

This valuable information and simple prescription should be posted up in each household and used at the first sign of an attack of rheumatism, back ache or urinary trouble, no matter how slight.

For a patent medicine from the tall door of a cart in a village of Wisconsin than from a senator of the United States."

Senator Gallinger said as Mr. Penrose took his seat that he did not wish at that time to have rule No. 19, which prohibits any senator from speaking twice on any question on the same day, enforced, but he questioned to senators who had spoken several times not to delay the senate business unduly.

Mr. La Follette had remained standing while the various remarks were directed towards him. He declared that he did not ask the indulgence of any senator in respect to the rules. He said he expected them to be enforced and believed that they had been enforced with undue strictness in reference to himself. He added that if he were violating a rule, it might delay his belief until another amendment should be acted upon.

LA FOLLETTE WAS CALM

"It is of little value," he said, "to utter a contradiction here to much that has been said. It would merely put the word of one senator against the other. I have not attended the meetings of some of the committees to which I was assigned. I attended the meeting of the committee on claims once or twice. Not feeling that I could render service in such meetings," interrupted Mr. Penrose, angrily.

"I would have more confidence in the statement," replied Mr. La Follette, "if senators on that committee declared that declaration themselves. I was absent from the senate two months at the last session, being confined to my home in this city by illness. I was absent during the holidays—a week—during this session while I was at my home superintending the publication of a magazine in which I am interested and that seemed necessary to the success of the business at that time."

Looking intently toward the senator from Pennsylvania, he continued: "Against his coarse and vulgar assault, I put my record since I have been a member of this body."

Then, looking across the chamber, Mr. La Follette continued: "You can take no course which will deter me from exercising my right on this floor to express my views on legislation and the orderly conduct of the business of the body. If you were better acquainted with me you would know that."

Mr. La Follette took his seat and Mr. Penrose referred to the next amendment in the postoffice bill. Mr. La Follette at almost the same time addressing Vice President Fairbanks to make an inquiry concerning the amendment.

"Mr. President," called the senator from Pennsylvania in a loud voice. For a moment the senators from Pennsylvania and from Wisconsin and the vice president were all talking at the same time. Finally Mr. Penrose's voice was heard declaring that he believed he had the floor.

"The chair," said the vice president, "is undertaking to answer a very proper inquiry by the senator from Wisconsin."

"I did not understand," said Mr. Penrose, "I thought I had the floor and no one had a right to interrupt without my consent."

The senate then passed into the ordinary business of hearing additional amendments of the bill read.

PANAMA CANAL INDIOTMENTS

Indianapolis News Says They
Will in No Wise Deter it from
Its Course of Criticism.

THE PUBLIC HAS SOME RIGHTS

Believing Principle of Freedom of the
Press is at Stake, Will Do What
It Can to Uphold It.

Indianapolis, Feb. 18.—The News publishes the following statement concerning the Panama canal indiotments: "The issue presented by the indiotments is, of course, one for the court; in regard to that little or nothing need be said. But there is a wider issue concerning which, we think, a good deal will be said. Perhaps it is needless to say that the course of the News will be in no way influenced or affected by what has happened. We shall continue to discuss public questions on their merits, as in the past, and to criticize public men without political or personal bias."

This is the phase of the question that most concerns the public. It has a right to know that the functions of a free and independent newspaper will not be impaired by the indiotments. We shall not be coerced into silence, nor tempted into untimeliness. Believing that the most principle of freedom of the press is at stake, we must do what we can to uphold it. No more important service than this can be performed by a newspaper, especially at this time.

The public, to which alone the News acknowledges any obligation, may feel sure that this paper will continue to serve its interests as it sees them. To such an aim shall the news and tell the truth about it—as it is given us to see the truth."

PREST-ELECT TAFT
MADE A MASON AT SIGHT

Cincinnati, Feb. 18.—President-elect Taft is a master Mason. The impressive ceremony which brought him that distinction today was conducted by Charles B. Haddock, Ohio's grand master. The highest Masonic authority of 17 states witnessed Mr. Taft's admission into the order, as did also the members of Kilwinning lodge, of which the father of the president-elect was a member and into which Charles Taft was inducted under the auspices of his father, Scottish Rite cathedral was the scene of the ceremonies. The procedure, which culminated in the declaration that Mr. Taft was a Mason, occupied 35 minutes.

The experience of being declared a Mason at sight was not ended with the afternoon session of the grand lodge. Mr. Taft witnessed during the evening the regular form of initiation of a member, the ceremony being conducted by Worshipful Master D. M. Patton of the Kilwinning lodge on candidates. Frank H. Helfman, Belmont, the two sessions of the lodge there was a reception for Masonic brethren at the residence of C. P. Taft, and concluding the ceremonies there was a brilliant ball at the Alma hotel.

Frank H. Haddock, at the request of Mr. Taft, came here today from Chicago, and after his conference left for Washington. That the discussion related to the undecided post of secretary of the treasury was denied, but beyond the statement that he was reached no information was obtainable.

U. S. PENAL LAWS BILL.
Washington, Feb. 18.—The house today passed the bill revising, amending and codifying the penal laws of the United States. A similar measure, though varying in details, had previously passed the senate, and a conference will now undertake to harmonize the differences between the houses.

Before taking the vote today the house adopted an amendment offered by Mr. Bartlett of Georgia, repealing the law that made it a crime for state officers to disqualify certain persons from serving on juries on account of race or color. Mr. Bartlett's amendment abolishing capital punishment was defeated because of lack of a quorum when a vote was taken.

Probably the provision which will cause the most discussion by the conference is that added by the house repealing interstate shipments of liquor.

EQUITABLE LIFE

ASSURANCE MEETING

New York, Feb. 18.—All the old offices were re-elected and all the standing committees reappointed at the annual meeting of the directors of the Equitable Life Assurance society held today. The report of President Paul Morton for 1908 showed that the new insurance paid for during the year amounted to \$1,242,191, as against \$71,234,549 in 1907. Notwithstanding this increase in business the expense of management was nearly \$100,000 less than in 1907. There was an increase of more than \$2,000,000 in the amount paid to policyholders, the total being \$17,611,545, of which \$2,224,092 was in death benefits.

Dividends paid to policyholders during the year represented the unused portions of their premiums were \$2,011,815. The amount set aside for dividend distribution in 1909 is a little more than \$10,000,000.

During the year the society's total assets increased from \$12,029,775 to \$12,258,508, and the surplus increased from \$7,456,490 to \$8,127,468.

The total insurance in force in the Equitable at the end of the year was \$1,200,478,469.

DAUGHTER OF WEALTHY MAN
SELF CONFESSED THIEF

Oakland, Cal., Feb. 18.—Marie Strong, sister of Atty. W. H. Strong of Portland, Ore., and said to be the daughter of a wealthy druggist of Monmouth, Ore., was bound over to the superior court on charges of having stolen jewelry of considerable value from Alexander McFar and C. Acreeing. The girl admitted her guilt.

Mrs. Strong was arrested some days ago in company with her roommate, Claire Curtis, whom she met in Los Angeles. The pair were traced to their room following the complaint of the men, who declared that the girls had tracked back and forth across the bay-

DISTINCT STEP IN ADVANCE

(Auburn, N. Y., Daily Citizen.)

Chronic Bright's Disease may have been an incurable disease in the past, but it is certainly curable now. M. L. Waite, the druggist, tells us of a remarkable recovery in this city. There was no question about the genuineness of the case. The patient, a lady, is connected with one of our prominent families, and her recovery was a gradual but finally complete. The patient has since actually passed for insurance.

Death was expected daily by the patient's well educated family, when she was put on a specific from California that was alleged to be curing Bright's Disease in that state. The results created great astonishment. Symptoms began to subside and recovery was then gradual but finally complete. The patient has since actually passed for insurance.

The peculiarity of the treatment is that it does not seem to enter the blood, but in question taking over eighty bottles. The discoverer of the new specific is said to be a lineal descendant of Robert Fulton, who gave us the first steamship. Auburn, N. Y., Daily Citizen.

Another recovery by Fulton's Remedy Compound in Auburn is Mrs. R. Lester Bell. When to suspect Bright's Disease—weakness or loss of weight; dropsy; puffiness, hands or eyelids; kidney trouble after the third month; urine much too sediment falling vision; drowsiness, one or more of these. If you have any of these, send for pamphlet.—F. J. Hill Drug Co.

with them, posing as stenographers, and had robbed them. Pawn tickets for the stolen articles were found.

Mrs. Strong's identity was revealed and she was taken to her home. Atty. Strong went in court when the story of the crime was unfolded. The girl was a student at St. Mary's college, Portland, Ore., a few years ago, and is now in Auburn, and accompanied. She was released on bail furnished by her brother.

DOUBLE MURDER AND SUICIDE

Boscobel, Wis., Feb. 18.—John McDonald, a farmer living near Gayles Mills, last evening shot and killed his sweetheart, Nancy Lenox and her mother, Mrs. Olenox, at their home. The murder followed a lovers' quarrel. Both women were killed instantly.

The murder of the Lenox women was the result of the girl's refusal to marry McDonald.

There is evidence of a terrible struggle in the house where the crimes were committed. Mrs. Lenox was a widow and the girl was a telephone operator. McDonald was taken to Prairie Du Chien to avoid lynching. Today he waived preliminary examination and was bound over.

SHOOTING IMPENDING

SNOWSLIDES WITH DYNAMITE

Telluride, Colo., Feb. 18.—Anticipating the movement of the huge mass of snow which has been hanging upon the mountainside and which has threatened the lives of the miners employed at several of the properties of the company, the slide above the Pandora lease was shot with dynamite yesterday, carrying thousands of tons of snow and rock with it. It is proposed to shoot several other dangerous slides in this district within the next few days.

DUAL GOVERNMENT

IN KOREA INEFFECTIVE

Tokio, Feb. 18.—That the present dual government in Korea is ineffective and expensive and that it is hopeless to expect the Koreans to be able to enforce good government under this divided system, was the statement made today by the Korean home minister, now visiting Japan, in an interview granted to the newspaper representatives. The Korean official declared that unrest among the Koreans is evident on all sides and that the only possible way to secure progress is by a single government.
