

## LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

**INFORMATION WANTED.**—Of the whereabouts of Charles Ludvig Lundberg Ellgreen, a boy 14 years old, who ran away from his mother's home in the 16th Ward, about 16 days ago. Any person leaving the desired information concerning the above at Kimball's Mill will relieve the anxiety of his sick mother.

**A MAMMOTH CIRCUS COMING.**—We had a call this morning from Charles C. Pell, Esq., agent for Madame Lake's Grand Mammoth Circus, which he informs us will visit this city about the end of the present month. This circus is said to be one of the largest and best in the United States. Mr. Pell was agent for Dan Castello's circus when it visited this city about two years ago. It is claimed for Madame Lake's company that it is fully equal and in some respects superior to what Dan's was at that time. If this be the case it will, doubtless, draw well here, judging from the success which was met with by Castello. The company will be at Denver on the 13th inst.

**CONFERENCE AT WILLIAMSBURG.**—We have received from Isaac Elkington, the minutes of a conference of the Church at Williamsburg, held in the Masonic Hall there, May 7th, at 10 a.m., and, at which were present; W. C. Staines, Emigration Agent; William M. Bromley, missionary from Utah; William Searle, President of the Williamsburg Branch and a large number of the local Priesthood. The morning meeting was occupied in transacting necessary business. The authorities of the Church were presented to the congregation and unanimously sustained. The statistical report, which was read, showed as follows: High Priests, 2; Elders, 38; Priests, 16; Teachers, 13; Deacons, 12; Members, 119; total, 200.

In the afternoon the congregation was addressed by Elders W. C. Staines and Wm. M. Bromley, who gave excellent instructions, and a good time was enjoyed. Elders Searle, Bullock, Winkworth, Bywater, Bunn and Botts were the speakers in the evening, all of whom testified to the restoration of the gospel of Christ, and the interest they felt in the great work of the Lord.

**UTAH SOUTHERN RAILROAD.**—Surveyor General Jesse W. Fox and party left the city this morning for the point of the mountain South, where they will commence immediately to take preliminaries for the purpose of ascertaining the most practicable locality around which to take the line at that point. The decision of this matter will govern the route of the road from Dry Creek South.

The work of construction at the north end of the line is being pushed forward with great vigor, under the personal supervision of Superintendent F. Little. A steam saw mill has been erected on the street immediately west of the Old Fort, in the Sixth Ward, for the purpose of sawing ties, &c., for the road; several car loads of rails have arrived, and more are expected soon. This morning ties had been laid to a point below the Sixth Ward school-house, and the rails were down for a distance of two blocks, and the work was being prosecuted energetically. The southern part of the city presents a lively appearance.

Yesterday, afternoon President Brigham Young, President of the road, drove the first spike, in the first rail laid; the second was driven by Bishop John Sharp, Vice-President, the third by William Jennings, Esq., Vice-President U. C. R. R. and the fourth by Feramor Little, Esq., General Superintendent U. S. R. R. After the ceremony the work of track-laying was immediately commenced.

**EMPLOYING CHINAMEN.**—The Omaha Herald, of the 3rd inst., has the following concerning the Rock Mountain Coal Mining Company:

"We learn from Dr. C. A. Henry, one of the managers of this company, that they have recently discharged all their white employes, except the foreman, and have substituted Chinamen to the number of two hundred. With this kind of labor the company is confident of saving fully thirty per cent. of the previous cost of mining. They have penetrated to the depth of seven hundred feet in their mines at Evanston, Utah, and will turn the ten thousand foot level by September 1st.

FROM WEDNESDAY'S DAILY.

**RETURNED.**—We learn from our local contemporary, the Herald, that E. L. Sloan, Esq., has returned from his visit to San Francisco.

**THE NEW MARKET BUILDING.**—Work on this public building is progressing rapidly. The part where it is situated bids fair to become one of the busiest spots in the city. Several places of business are now in course of erection around that quarter.

**COMMERCIAL STREET.**—Several stores on the new street are completed and occupied, and the building of others is being pushed forward energetically. The most conspicuous edifice is the Palace bath establishment, which is nearly finished, and where the great unwashed public can enjoy the luxuries of the bath for a reasonable consideration.

**THE LATE FROST.**—A gentleman from Hoytville informed us, this morning, that the late frost was the keenest that had been experienced in Summit County for the last eight years. It had done some damage to the growing wheat, but the injury, he thought, was not sufficiently severe to diminish the harvest prospects, which are excellent.

**INFORMATION VOLUNTEERED.**—Elder Thomas P. Thomas writes, from Pottsville, Pennsylvania, under date of the 23rd ult., that he had arrived there, from Swansea, Wales, in company with Elder Joseph Parry, seven days previous to writing. Brother Thomas says he will be pleased to impart any information he possesses with regard to smelting and refining silver, copper and other metals, to any person desiring it. Address: care of Joseph Parry, Ogden.

**A VALUABLE RECORD.**—The first record book of certificates of members of the Church has just arrived in Utah from Kirtland, Ohio. It contains the record of the certificates of membership of most of the Elders who embraced the gospel in the early days of the Church, including that of the Prophet Joseph Smith. The book was obtained by Elder Anson Call, while on his mission to the East, last winter. He left it in charge of Mr. Luman Carter, at Kirtland, who, according to agreement, has forwarded it here. When Brother Call visited Kirtland it was in the hands of the wife of Mr. Lewis Hanscom, who stated that it was found among the effects of her father, John Morton, deceased.

**CACHE VALLEY.**—Bishop George O. Fitkins, of Millville, writes to us as follows: "Last fall our people put in a very large quantity of wheat and I have never seen winter wheat look better; also a large amount of grain of all kinds has been planted this spring, and until two weeks ago everything looked splendid. In our West field we put our largest body of grain, and from present appearance it looks as though this field would be entirely swept off. The grasshoppers have hatched out in and around our grain in countless millions. Our people turned out en masse and fought them. We dug large holes and formed large circles around them with brush and drove the hoppers into the pits and buried them up, and I am satisfied that we have in this way destroyed hundreds of bushels of them. Our efforts, however, to save our crops appear to be futile as the insects have hatched out in great hosts on the unbroken ground which surrounds our farms; therefore, from all human appearances, it would be supposed we would reap no harvest. Notwithstanding this our people feel well and all express themselves confident of raising their bread and to spare.

Two years ago we started a co-operative store on a small scale, but in consequence of railroad and grasshopper losses up to this spring we have made but little progress. I am pleased to say that, under the management of Mr. Joseph Humphreys, the store is improving; and under his care we expect to make co-operation a success in Millville. It is the intention of the directors to build a new store on Main street this summer.

We have a good opening for a competent school teacher and such a man would be treated liberally.

A general time of good health prevails and all feel desirous to promote the welfare of God's great kingdom upon the earth."

**THE FOURTH.**—The anniversary of our nation's independence, the 4th of July, is drawing near, and preliminary steps have been taken for its celebration in this city. The following named gentlemen have been appointed a committee to get up a programme for the occasion:

Theodore McKean, Alexander Majors, Wm. Jennings, John R. Winder, Theodore F. Tracy, Gen. D. E. Buel, H. W. Naisbitt, G. M. Ottinger and David McKenzie.

July 4th 1776 was one of the most important and momentous days that ever the sun rose upon, the work then consummated being destined to exercise such a marked effect upon the lives, liberties and happiness of all the denizens of the earth to the latest generations; and its memory should be kept green, and honored and revered as long as intelligence and a love of liberty exist in the human heart and mind; and as none have more reason than the people of Utah to revere the day and the men who rendered it famous, because none can so well understand and so thoroughly appreciate the greatness of the work they performed, it is gratifying to know that our citizens calculate to have a good time. The celebration of our national birthday is an event in which all classes of citizens, irrespective of political opinion, can on one common platform participate with hearty good will, and unite harmoniously. In the coming celebration, under the auspices of the gentlemen above named, there is every reason to believe that the programme will be worthy the event it commemorates.

## DIED.

At Spring City April 1st, 1871, of lung fever, MARY, daughter of William and Margaret Stoddart, aged 18 years, 5 months and 20 days. Deceased was born at Brampton, Cumberland, England.—Cor.

Mill. Star, please copy.
