DEATHS DUE TO **FRANK DISASTER**

It is Now Known Definitely That They Number Sixty-Three.

IT WAS A HUGE LANDSLIDE

There Was No Explosion Whatever-Avalanche Was of Such Dimensions Dust Was Mistaken for Smoke.

Frank, N. W. T., April 30 .- It is definitely known this evening that 63 people lost their lives here before daybreak on Wednesday by the sliding of the rocky top of Turtle mountain down upon the sleeping village of Frank. It was undoubtedly the worst disaster. ever known in any community in western Canada. It was either a rockslide of such magnitude as to be almost inexplicable or a slide induced by a seismic upheaval.

Besides killing 56 people, it destroyed the plant of the Canadian-American Coal and Coke company, did a vast amount of damage to the mine and completely devastated about 10 square niles of the finest and most pictures-que section of Crow's Nest pass.

NUMBER OF KNOWN DEAD.

The estimates placed the number of known dead at 112, on the supposition that 17 men at work in the mine shaft would not escape alive. Then, when it was known that these imprisoned men had escaped late yesterday afternoon, the number of killed was estimated at 95. This morning it is believed that the total loss of life will not excred 60. So far the fatalities number

Many of the bodies of the dead will never be found. Some cabins are buried under 150 feet of rock. Although or-ganized efforts were made last evening and today to search for bodies, only 15 have so far been recovered. Most of the corpses were mangled almost be-yond recognition.

The disaster happened at a quarter past 4, when the sleeping inhabitants of Frank were suddenly awakened by a tremendous crash, followed by a shak-ing of the buildings. It was still dark, and for a time the greatest confusion prevailed, no one knowing just what had happened. As soon as day dawned it was seen that the whole side of Turtle mountain had fallen away, and that the valley for a distance of two miles was entirely choked up by rocks and debris piled to an average height of 50 feet.

FISSURE IN THE EARTH.

Simultaneous with the piling of th rocks on Turtle mountain there opened an immense fissure of the earth on the northern side of Turtle mountain. This fissure extended for a distance of three-quarters of a mile and was many fect in width. This yawning chasm still remains open, according to reports

ECZEMA The World's Greatest Skin Torture Many Infants are Born with Eczema It's the Only Thing Some Folks Have Left When They Die

THE ONLY INFALLIBLE CURE IS CUTICURA

It is in the treatment of this most distressing of torturing and disfiguring skin and scalp humours, with loss of hair, that the Cuticura remedies have achieved their greatest success. Original in composition, scientifically compounded, absolutely pure, unchangeable in any climate, always ready, and agreeable to the most delicate, they present to those suffering from Eczema the most successful curative of modern times. We know that this will be considered strong language by those acquainted with the character and obstinacy of the disease under consideration, but it is justified by innumerable successes where all the

remedies and methods in vogue have failed to cure, and, in many cases, to relieve, even. The first step in the treatment of the

chronic forms is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. The scalp, ears, elbows, hands, ankles and feet will require frequently a thorough sosking in order to penetrate the thickened skin and crusts with which these parts are often covered. Dry carefully, and ap-ply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cloth and blnd in place. Take the Resolvent, pills or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds. Sold throughout the world. Cuticurs Resolvent, de (in form of Chocelate Coated Fills, 35, per val of 60) (intruent 50, Song, 35, Deposit London, 27 Charter house Sq. : Faris, of hus de la Faix : Roston, 137 Columbus Ave. Putter Drag & Chem. Corp. Sole Proprisions. ar Send for " How to Cure Eccess."

will probably not exceed \$200,000. The Canadian Pacific railway losses through blocking of its treak are considerable. The scene of this awful cathastrophe was originally one of the most pic-turesque valleys in Canada. Through

the center of this beautiful valley ran the Old Man river, which has its source on the eastern slope of Crow's Nest pass. The total width of this valley was a little over a mile, and it was bounded on the southern side by Turtle mountain, a sheer wall of rock, which rose to a height of 3,500 feet above the level of the town.

IN THE VALLEY.

still remains open, according to reports brought in by men, who have been on the other side of the mountain. In the downward rush of the debris and other material that was thrown up by the upheaval, the entire operating plant of the French-American coal company was carried away. The build-ings demolished included the tipple, boller-house, engine-house, electric ight, railway scales, repair shops and a row of coke ovens. Seven houses, The town of Frank lay in the peace There is no reason why the whole of the remaining side of the mountain will the remaining side of the mountain will not come down, in which case there will be absolutely nothing left of the coun-try east of Blairmore. Many small ledges of rock continue to come down from the mountain, and it is a hard terrible catastrophe, so steep and pre-cipitous that even the longest day in summer the sun set in the town of Frank at 3 o'clock in the afternoon and after that a twilight ensued woll the after that a twilight ensued until the usual hour of sunset. mine were safer than those outside of it. The inside workings of the mine The material from the slide or up-beaval came down in almost a vertical wall of rock and crossed the valley, a distance of over a mile, and went part are intact and no explosion or sign of gas was felt by entombed men until late in the afternoon. They worked their way out through 30 feet of rock, timbering as they went. Plenty of air distance of over a mile, and went part way up the foot hills on the opposite side of the valley to a height far above the highest building in the town. Where once existed cozy homes, fer-tile farms and stock ranches, there is now nothing but huge chaotic piles of debris from the mountain, which has all the appearance of a volcanic erupall the appearance of a volcanic erup. INSPECTOR OF SCRVER'S REPORT, tion. The land, which was once of Vancouver, B. C., April 30.-The fol-

pathway.

For that reason it was ex-

A puzzling feature which induced the

canic, as at first supposed.

"Now that the excitement is putted over there is no doubt in the mind of any one that the disaster was caused by huge land slides and that there was no eruption or explosion. There are CAUSED BY EXPLOSION. As there is no geological expert resi-dent in the town, it is impossible to as-certain exactly the true character of the force exerted, but judging from the evidence now brought in by many who

by huge land slides and that there was no eruption or explosion. There are 53 known dead, of whom 15 were women and 15 children. There is no further danger from floods through the dam-ming of the river. "The rock slide is about 4,000 feet long, extending from the top of Turtie mountain westerly. The slide extends across the valley for one and one-quar-ter miles from the base of Turtle moun-tain. The debris is spread out in a fanhave been scouting around the outskirts of the waste of rocks and debris, many are now inclining to the belief that it was a huge mountain rock slide, caused by an earthquake or some subterranean by an earthquake or some subterrahean explosion of gas, which is known to exist in large quantities underneath this section of the country. The nature of the rock of which Turtle mountain is composed is largely of the limestone variety. Another theory advanced by many of the mining mon of the town is that the limestone tain. The debris is spread out in a fan-shaped mass so that at the extreme end of the slide the mass of rock is nearly two miles wide. There is no trace of the river for one mile, but the water i now going through the rock as fast as theory advanced by many of the mining men of the town is that the limestone cliff had been undermined by some sub-erranean branch of the Old Man river, which had been silently working away unseen for years past. There are many who incline to the belief that it was a hura limestone unbeaval the arimary coming down. 'It is thought there will not be

repetition, although rocks and dust continue to fall from the mountain. The fact that all the men working in the mine except two escaped has been conhuge limestone upheaval, the primary causes of which were the slacking of the limestone under the influence of the firmed.

DANGER FROM FLOOD.

Frank, N. W. T., April 30 .- The dan ger of floor again threatened Frank 10night. When the rock slide first oc-curred the waters of Old Man river were dammed up and it was feated, probably with good cause, that unless the water could be diverted into a new channel, the remaining buildings would be swept away as soon as the waters broke over the impromptu dam.

The herculean efforts of a force of olunteer miners and railroad laborers resulted, it was thought, in the creation of a new channel, which would enable the dangerous waters to be carried of In safety. However, the new channel became stopped up, and Engineer Pearce with a gang of men will prob-ably be working most of the night to clear off the new obstruction and pre vent the river from again damming up Theories as to the cause of the roch lide multiply. Some think that the slide was the result of the honecombing Turtle mountain by mine tunnels, the drifts of the Canadian-American Coal ompany being directly into the base of the mountain.

Another theory advanced by many mining men of this town is that the lime-stone cliff was undermined by some subterranean branch of the Old Man river, which has been silently working away unseen for ages past. A MINER'S MIRACULOUS ESCAPE

landslide. There was no explosion whatever. The avalanche was of such large dimensions that the cloud of dust Frank, N. W. T., May 1 .- Daniel M. was taken for smoke and the minor slides were taken for inside explosions. The whole east end of the mountain, extending from the tipple eastward, has Mackenzie, an intelligent miner, gives a thrilling account of experience of him-self and his companions who were im-prisoned in the mines for more than 12 extending from the tipple eastward, has gone out. It was 4,400 feet high and slid across the entire valley, blocking the track to the French mine. This track is about 40 feet higher than the Cahours by the great landslide, and wh eventually escaped by digging their way to freedom, through 40 feet of rock and debris. "Three other miners and myself," says McKenzie, "were working a cross-cut off from No. 8 manway nadian Pacific railwoy track, and is listant about three-quarters of a mile when we were first aware that som thing unusual had happened. I we The slide extends from a point about 200 feet east of Frank station to a point one and one-half miles east. This track is covered with rock ranging in size I was leaning against a chute just at the mo-ment. Suddenly there seemed to be a falling in the handging wall, and I was rom a pebble to high rocks the size of a railroad car. imprisoned between a chute board and the coal. We started for the mouth of The Canadian Pacific rallway is arthe tunnel, but found our way blocked. After a time I went down to the lower The Canadian Pacine railway is ar-ranging to cut a waterway through where the river is blocked up, in order to avoid danger of a flood. The loss of life cannot be estimated entry to see how the water was rising. I found the situation quite alarming and figured that at the rate it was com ing up we might expect it to flood th yet. Thirty miners were entombed. Of this number fifteen were rescued uninning to be hight expect it to hood the mine today about 4 o'clock. As we had nothing to eat but the five horses being worked in the mine, which were still alive. I proposed killing one of them when we needed food, and that in the jured. Two men were suffocated. It is believed the rest will be saved. About ten houses in the east end of town were destroyed and entire fami-lies were wiped out. A. Leitch, his wifs and four children were killed and three meantime we should endeavor to dig our way out. We selected a place near the mouth of the main entry and start ed to work. We timbered as best w could as we went toward the surface. We had worked changing hands for something more than five hours whe as I was punching with a bar it su

"I was all run down! " What a cry of dire distress from a woman. Read ho Miss Harriet D. Clarke, of Eden, Uta a well-known woman in this state, mad this cry and found an answer. She writes

Rheumatism.

KICKAPOO INDIAN REMEDY Co. Gentlemen,-No one can tell the an-guish and pain I suffered with rheuma-tism until I tried Kickapee Indian ism that I then here here here is no are for rheumatism, but I know differ-ntly, for Sagwa cured me of that dread-ul disease, and I am glad to recommend to anyone. John Jones, JE. North Ogden, Utah.

Hundreds of such letters in regard to actual cure of rheumatism have been received.

Kidney Troubles.

KICKAPOO INDIAN REMEDY CO. Gentlemen.— I am so grateful for what your Kickapoo Indian Sagwa has dono for me that I feel constrained to write you. Let me say first this testimonial is entirely unsolicited, as I don't suppose you ever heard of niy name until you received this. For a number of years I have been greatly afflicted with Kidney trouble. I was in constant pain and all run down. My friends did not think I could live six months when I began to take Sagwa. The good effect was notice-able at once. I began to improve feore I had taken half the first bottle, and now able at once. I began to improve before I had taken half the first bottle, and now

ESTABLISHED 1864

KICKAPOO INDIAN REMEDY Co. Gentlemen, — For over twenty years I have suffered from being vaccinated with impure virus. It manifested itself is my face and elsewhere, and with an eating sore that would not heal. I tried every-thing, and never got any relief until I tried your Sagwa and Salve. I have now been using them four weeks, and have been greatly benefited. I am so much improved that I know I shall eventually be cured. Mrs. E. MEAD. 253 E. Eighth St., Salt Lake City, Utah.

light, railway scales, repair shops and a row of coke ovens. Seven houses, also owned by the company, were smished into kindling, six of them be-ing entirely obliterated and their oc-tupants killed, while 19 other houses, which were situated in the valley east of the town, were also smashed into matchwood. The people living in these houses were also instantly killed as they were sleeping.

FINANCIAL LOSS.

The direct monetary damage will exceed a million and a half. If the mine had been ruined the loss from the de-struction of that property alone would have amounted to \$3,000,000. However, the actual loss of the mine company | tion.

denly went through the debris and breath of air greeted me. I gave a fe more punches and a rock big enough to kill us feil in. When we saw we had reached the surface we were mad with delight.'

DRUGISTS' DEADLOCK.

Races Were Heavily Attendod and Havana Provincial Conncil Advised By Nunez to End it. A Fortune Given in Prizes.

By Nanez to End It. Havana, May 1.-Gen. Nunez, civil gov-ernor of Havana, has advised the provin-cial council to end the druggist deadlock by authorizing the affixing of tax stamps to patent medicines when sold to the con-sumer. Instead of, as previously, when the medicines were received in stock. The provincial council amended the medicine tax according to the suggestion of Gen. Nunez. The principal druggists of Ha-vana, however, declare they will hot open their stores unless the tax is entirely can-celled.

THE CLOSING EVENTS GOOD

Volume of Money in the Setting Ring Exceeded All Previous Records-Rig Attendance Yesterday.

San Francisco, April 20 .- The racing Arrangements All Made for the Ath-

Arrangements for the interscholastic field and track meet billed for the 5th have been practically completed, and from all accounts the event will prove more in-teresting than was at first anticipated. A meeting was held account interpret.

San Francisco, April 20.-The racing season which closed at Oakland today was the most successful in the history of the sport in California. The races were heavily attended and the volume of money in the betting ring exceeded all previous records. Some clever performents appeared during the season, especially in the older divisions, Kenilworth and Dr. Boyle ware the most popular, although several of the recent efforts of Kenilworth ever below his early form. It is generally conceded that Bearcatcher is the best of the 2-year-olds. Claude, Kristna, Elhott and Epicare are among the leading 3-year-olds. Claude, Kristna, Elhott and Epicare are among the leading 3-year-olds. Claude, Kristna, Elhott and Epicare are among the leading 3-year-olds. Claude, Kristna, Elhott and Epicare are supported by the heat of the 2-year-olds. Claude, Kristna, Elhott and Epicare are support. The season about \$42,000 was distributed in stakes nad purses by the New California Joekey club. W. B. Jenning & C.o. head the list of winning owners, with \$22,470 to their credit. Other big winners are. Burns & Waterhouse, fla25; Blanch & McGovern, 82.-00; Innes Coffer, \$10,900; W. K. Ketcheman, \$10,075; C. Lind & Co., \$2,275. The majority of the bookmakers who feeding \$15,900 made by his field books; Joe Harlan is probably the next biggest winner, he being \$40,000 to the good. See is about \$15,000 ahead, height of the horses will be raced in the northwest, at Seattle and Edute, There will be six days racing at Petama, commencing pext Monday, and the factamento. A feature of the season was also in good form.

teresting than was at first anticipated. A meeting was held yesterday afternoon at which some changes were made in the scoring of points. In the relay race only the winner will be counted, giving the team successful five points. In the hur-dies only one man from each school will he entered and the winner will be given five points. It was decided to hold the meet at the University grounds. The offi-clais selected to act for the meet are as follows: Referee, Secretary Cox of the Y. M. C. A.; Inspector, Dr. Plummer; starter, Hugh Rippeto; judges of the finish, R. E. Barney of Provo, Dr. Will Eilerbeck and Ideutenant Barrett; anhouncer, Parker B. Fratt; timers, J. N. Sharp, D. A. Calla-han and J. T. Clark of Provo; scorer, Will Ray; field indges, Al Cowan, F. E. Shefski, W. E. Rydaich and Harry Rob-erts; clerk of the course, Rowland Dole. The meeting was attended by the fol-lowing: Manager Riser of the University of Utah, President of Athleties Roberts of the Brigham (Young academy, Track Manager Stanton of the Latter-day Saints' university and Track Manager Bradbury of the Sait Lake high school. started for the last three days, was also in good form.

YESTERDAY'S CLOSING EVENTS.

Logan Team Defeated by the B. Y.

YESTERDAY'S CLOSING EVENTS. San Francisco, April 20.—The racing sea-son came to a close at Oakland today with one of the largest crowds of the year in attendance. A good card was offered and betting was extremely lively. The mile and a sixteenth handicap feature of the program was marred by an accident soon after the start. Dr. Boyle, the fa-veric, was badly interfered with by Di-vina at the first turn and feil. Kelly escaped injury. The stewards suspended Buxton, on Divina, indefinitely, for careless and reckless riding. Autolight won the race from Warte Nicht and Grafter. Favorites fared badly and there were a number of At Logan yesterday afternoon there was a ball game between the H. Y. C. team and the Logan nine, in which the latter were defeated by a score of 22 to 16. The college boys simply smothered their op-ponents, making about 20 hits, while the Logan aggregation made as many blun-ders. The teams lined up as follows: Precisies riding. Autolight won the rate for the baily and there were a number of surprises, the sport ending up with the first stards surpended McGovern for his bail to making about 20 kits, while the point of the first rates supended McGovern for the first rates was retained.
The stewards reinstated Jockey Walds, who was placed under the bails on the first stard are fournes to the first who was placed under the bails on the first with the demonstration first stard also Joekey Walds, who was placed under the bail on the first are constructed and a bail furings.
