State Department Has Many Notes to Answer.

PROPOSITION TO WITHDRAW

Stands Same as When First Presented -Viceroys Ask that No More Troops be Landed. .

Washington, Sept. 20.-The status of the Chinese situation at the close of the day, according to a high authority, is as follows:

There are now before the department of state a number of notes awaiting unswers. These include the German note concerning the surrender of Chinese ring leaders; the original Russian proposition for the withdrawal of troops from Pekin, which has not yet been acted upon as a finality; a memorandum from the Russian government esking as to the purposes of this goverament, and a request by Prince Ching that instructions be sent to Minlater Conger to proceed with peace negotiations at once. In addition there is verbal inquiry from the French govto the program of the United States,

ese various communications have "These various communications have accumulated slowly and an understanding has now been reached by the administration that there shall be a general clearance of the entire subject. This may be expected either late tomorrow or early the following day. It will clearly enunciate the program of the United States on the various questons presented.

There will be seperate notes according to the character of the communi-cations addressed to this government; that is, the recent German note will be answered by a note, and the memo-randum of inquiry from Russia will be answered by a memorandum, while the French verbal inquiry will receive a rbal response.
"As to the contents of these several

communications the authorities are not willing to give any possible intima-tions, though as far as the German note is concerned the belief is almost general here that the response of our ernment will amount to a declina-to make the surrender of the of-

French Labor Councils Created. New York, Sept. 21 .- A dispatch to the

Times from Paris says:

A ministerial order of interest to
Americans now, in view of the strikes
in Pennsylvania, has just been issued by the French minister of commerce. This decree-creates bodies to be known as labor councils, whose purpose it will be to settle disputes between laber and capital. The councils are to consist of an equal number of work-men and employers, but the workmen must belong to the recognized labor

milens.
This last clause is likely to create lifficulties, as the majority of French aborers do not belong to unions. If this defect can be overcome, it is be-lieved that these councils provide a ready means of settlement of labor disputes, thus avoiding strikes.

Mark Hanna Says He Will Make Democratic Leader Talk.

Declares People Have Settled the Silver Question-Schurtz and Cockran for Anti-Imperialism.

Chicago, Sept. 20.-Senator Hanna delvered an address tonight to an immense audience of German-American Republicans at Central Music hall, His speech dealt principally with the prosperity of the country under Republican rule, and the danger that he charged would follow the election of Mr. Bryan. He referred to the defection of Carl Schurz and Bourke Cockliefs will be given only women and ran, saying that they had forgotten children and men who are unable to the financial question and were urging their cause "under the flimsy guise of imperialism."

With reference to Mr. Bryan's refusal to engage in a joint debate with him, the senator said: "Mr. Bryan says that he would not discuss a public question or a political question with me because I am too small potatoes, but he will have to discuss them with me, it does not make any difference whether from the same restrum or not; because just as often as I come before an audience of the American people, I am going to tell them the truth, and from the standpoint of a business man I am going to sound the note of alarm and warn you all that this is your cam-

"Now, my rfeinds, looking into the faces of the people that I see before me, I feel more confident than ever me, I feel more confident than ever that they have got to try some other excuse to get away from the issue which the people have settled in their own minds for themselves. There is not much in this question that appeals to the patriotism of the American people. The war with Spain was not brought on entirely by the Republican party. The people of the United States rose in their indignation at the horrors rose in their indignation at the horrors committed in Cuba, and by the sheer force of their will, through their representatives in Congress and the executive of the nation, they demanded that those tarocities should cease.

There was no division of sentiment when that question came before people for settlement. As a consequence of that war the archipelago of the Philippines came into our hands. You know who raised the flag there, and you will know who pulls it down, if anybody dares."

Currency Shipments.

New York, Sept. 21.-Currency shipnents to the agricultural districts are this week assuming large proportions. The curency transfer at the sub-treasury amounted to \$215,000, including \$510,000 to New Orleans, \$200,000 to St. Louis, and \$200,000 to Chicago. The total transfers for the week thus far are \$2,315,000. These have been off-set by Pacific coast checks amounting to \$48,161.38. The banks also report large shipments of currency, particularly to the South. One bank on Tuesday shipped \$900.000 to the South, and seven banks have shipped between \$250.000 and \$300,000, the first three days of this

This is doubtless fortunate for the sufferers, for instead of spending ward the betterment of existing condi-tions. The number of patients in the various hospitals is much smaller than would have been expected considering the number of dead. This is due to the fact that few who were entirely helpless succeeded in escaping alive. There are several hundred persons who were more or less bruised, but their wounds more or less bruised, but their wounds are rapidly healing. New York, Sept. 20 .- Admiral Dewey, the is stopping at Sayville, L. I., talked oday of the Hobson interview, saying

"I hardly think the young man mean o say anything unkind, and perhaps he did not say what is said there. The three vessels he referred to are the Isla de Cuba, Isla de Luzen and Don Juan de Austria. They were the least injured of the ten or twelve ships sunk at Manila. Naval Constructor Capps, a very able man, was with me, and he and divers and experts from Hongkong made an examination of all the Spanish ships and decided that these three were worth saving; three out of a dozen. They were raised and temporary repairs were made at Cavite. The vessels proceeded under their own steam to Hongkong and had been there for some time undergoing control by

steam to Hongkong and had been there for some time, undergoing repairs, before Hobson saw them.

Those three are the only vessels of which Mr. Hobson can speak with knowledge.

"Montejo's magship, the Reina Chris tine and the Castilla were burned t the water's edge as a result of the American shell fire. The Spaniards were unable to put out the conflagration. The Don Antonia de Ulioa was actually sunk by American shells that pierced her below the water line. "No one, so far as I know, ever as-serted that all the Spanish vesuels were
